Array Word Problems

For each word problem, draw an array based off the description. Then, write a multiplication equation and the total number of units in the array you have drawn.

- 1) A parking lot at a bank has 7 rows of parking spaces, and each row can fit 8 cars. How many cars in total can the parking lot fit?

_____ x _____ = _____

Total Number of cars: _____

- 2) At Will's Wacky Fun House, Will has 4 rooms which hold 1 goofy mirror each. In total, how many mirrors are in this fun house?

_____ x _____ = _____

Total Number of mirrors: _____

Name : _____

Score : _____
