Welcome to *Bridge to Success Grade 4*

Bridge to Success is a twelve-grade course for learners of English as a Second Language (ESL). The twelve grades range from the beginning of cycle 1 to the end of cycle 3. The course has been designed to fulfil the requirements of the English as an International Language (EIL) National Learning Standards Unified Framework.

Bridge to Success Grade 4 consists of twelve thematic units of study, which include a range of activities, text types and objectives, split over three terms.

The materials reflect the following principles:

- ***An Emirati focus, with an international perspective.*** Specifically developed for young learners throughout the United Arab Emirates, the themes, situations and literature covered by *Bridge to Success* strive to reflect the Emirati context and encourage learners' curiosity about the wider world. This fosters respect and interest in other cultures and leads to awareness of global citizenship.
- ***An enquiry-based, language-rich approach to learning.*** *Bridge to Success* engages children as active, creative learners. As learners participate in a wide variety of curriculum-based activities, they simultaneously acquire content knowledge, develop critical thinking skills and practise English language and literacy. The materials incorporate a 'learning to learn' approach, helping children acquire skills and strategies that will help them approach new learning situations with confidence.
- ***English for educational success.*** To meet the challenges of the future, children need to develop facility with both conversational and academic English. From the earliest stage, *Bridge to Success* addresses both these competencies. *Bridge to Success* presents authentic listening and reading texts, writing tasks, and end-of-unit projects similar to those learners might encounter in English-medium and international schools. Emphasis is placed on developing the listening, speaking, reading and writing skills learners will need to be successful in using authentic English-language classroom materials.

- ***Rich vocabulary development.*** Building a large and robust vocabulary is a cornerstone to success in both conversational and academic English. *Bridge to Success* exposes learners to a wide range of vocabulary. Many opportunities for revising these words and using them in personalised, meaningful ways are woven into the activities and lesson plans.
- ***Individualised learning.*** We approach learning in an individual way by both acknowledging the individual nature of the knowledge and background of each learner and encouraging their specific input. We also provide for differentiated learning in the classroom by offering a range of activities of varying difficulty and guidance for tailoring activities to the needs of different learners. Detailed support for this is provided in the lesson plans in this book.
- ***Integrated assessment.*** Throughout the course, teachers informally assess their learners' understanding of language and concepts. The Teacher's Guide provides suggestions for extending or re-teaching language skills based on learners' demonstrated proficiency. An end-of-unit Review in the Learner's Book provides a simple-to-use evaluation measure: a quick progress check on learners' understanding of key ESL and early literacy skills. At the end of each unit, learners apply the skills and knowledge they have acquired as they work in groups to create and present a project. This provides teachers with an excellent performance assessment opportunity.

We hope that you and your learners will enjoy using these materials as much as we enjoyed developing them for you.

The *Bridge to Success* team

A Components

Bridge to Success offers the following components:

- The **Learner's Book** provides the core input of the course and consists of 12 thematic units of study. Each unit contains 15 lessons developed around a unifying theme. The materials feature skills-building tasks for listening, reading, writing and speaking, with each unit developing a language focus. In addition, there is a strong vocabulary-building element to the course. Materials are aimed at the learner with all the experiences that they bring to the classroom. Learners are encouraged to see the moral and social values that exist in many of the course texts, and find opportunities to reflect on these. Learners need to be exposed to many different forms of text topics and styles in order to develop the skills of assessing, interpreting and responding appropriately to content. Therefore the course aims to provide a variety of factual and fictional texts, dialogues and poetry, on a range of different topics, at the appropriate level.
- The **Audio CDs** include all the listening material needed for the Learner's Book and Activity Book. The listening material supports the Learner's Book with listening, pronunciation and phonics activities, as well as poems and read-along stories. We recommend that learners are encouraged to use the Audio CDs at home to practise the poems and stories, and to show their parents what they know.
- The **Activity Book** provides production, reinforcement and consolidation activities, as well as lead-in tasks to support the Learner's Book.
- The **Teacher's Guide** includes the lesson plans for each lesson, providing guidance about how the Learner's Book, Activity Book and audio can be used in the classroom. At the end of the Teacher's Guide, photocopiable activities (PCMs), cross-referenced in the lesson plans, provide extra support for selected lessons.

B Unit structure

Bridge to Success Grade 4 contains 12 units, spread over three terms. Each unit in the Grade 4 Learner's Book is structured as follows:

- A central topic or theme is developed over 15 lessons.
- Each core lesson uses the Learner's Book and Activity Book to develop learners' language skills, as well as explore and develop content knowledge.
- *My Learning* lessons provide an opportunity for consolidation and recycling of vocabulary and skills. These lessons can be used to informally assess learners' progress, address misconceptions, and inform subsequent teaching strategies.
- A *Review* lesson provides an end-of-unit check of learning, giving the teacher a clear and regular view of learner progress.
- Each unit ends with two Project lessons, which provide an integrated skills focus. The first lesson provides learners with a challenge, which they will complete in preparation for the second lesson. In the second Project lesson, learners present their projects, and are guided to reflect on their own learning.

C *Bridge to Success* features

Bridge to Success uses a range of features to guide and support teaching and learning. These are used throughout the Learner's Book, and may also be used in the Activity Book:

- **Language Tip:** A concise tip to help illustrate key language points. These can be used to model examples for learners, or to provide scaffolding and reinforcement where required.
- **Writing Tip:** A concise tip to support the development of writing skills, which can be used as a teaching item or reminder for learners of key writing principles.
- **Language Detective:** Keys and clues for learners to understand and use language points. These can be used for teaching and modelling to support learners in developing a robust understanding.
- **Use of English:** A tutorial of a grammar point, explaining when the point applies and providing modelled examples. These features often pre-teach language points, which learners then apply through a following activity.
- **Vocabulary:** A simple dictionary definition to help learners understand new vocabulary within an activity.
- **Amazing Fact:** An engaging fact to inspire learners, which can be used to prompt discussion.
- **Listening Strategy:** A pre-listening briefing that will help learners apply a range of different listening techniques.
- **Reading Strategy:** A pre-reading briefing that will help learners apply a range of different reading techniques.

- **Speaking Tip:** A concise tip to support learners in developing speaking skills, which can be used to pre-teach for speaking activities, and referred to independently by learners during speaking activities.

D Lesson Plans

The lesson plans include all you need to know in order to successfully teach using the new Learner's Book materials. These provide guidance for leading into and out of activities in the Learner's Book and Activity Book, as well as teacher-mediated activities.

The lesson plans contain a number of common elements to support you in understanding the lesson aims, and adapting your practice to suit learners' needs:

- **Learning objectives:** Skill-based high-level objectives that are being developed through this lesson.
- **Learning outcomes:** What learners will be able to achieve by the end of the lesson.
- **Link to prior learning:** How this lesson builds on prior knowledge and skills; this can be used to identify skills or knowledge to refresh learners' understanding at the start of the lesson.
- **21st Century Skills:** The 21st Century Skills or Themes developed through the lesson. Skills are generally developed through activities, whereas themes tend to be developed through the content of the lesson.
- **Key vocabulary and key expressions/structures:** Active language introduced, used or developed through this lesson.
- **Common misconceptions:** Highlights common errors or misconceptions; these can be targeted and addressed with intervention to ensure learners have a solid foundation.
- **Differentiation activities:** Adaptations for activities to suit learners who need more scaffolding or challenge.
- **Learning styles catered for:** The different learning styles addressed through this lesson plan. You can adapt these lessons using the Teaching Strategies to address different learning styles, depending on the learning preferences of your class.
- **Assessment for learning opportunities:** To be completed by the teacher, these identify different assessment for learning techniques, which may be applied in the lesson.
- **Standards/SLOs:** The principal SLOs from the UAE Ministry of Education EIL Framework that are addressed through this lesson.

E Customising your lessons

This Teacher's Guide provides a comprehensive set of lesson plans to support you in using the Learner's Book, Activity Book and accompanying audio. However, each teacher and each class is different, and we encourage you to reflect on what works for you and your learners, and to tailor lessons to ensure high-quality outcomes:

- Monitor your learners. If they need additional support for some elements, tailor the material to their needs.

- Bring as much 'real' material into the classroom as possible in order to create more interest for the lessons.
- Encourage learning/teaching/showing between classes, even of different age groups.
- Don't forget to draw on parent support where possible.

When using the book, the following guidelines might be useful.

Before using the Learner's Book

- Use warm up activities (chants, TPR, vocabulary games, alphabet chant, etc.).
- Pre-teach and practise key language that learners will encounter in the Learner's Book and Audio CDs. (Try to make learning experiences concrete, interactive, motivating.)

While using the Learner's Book

- Keep learners engaged in an active way.
- Use the illustrations as a conversation starter – ask learners to name everything they see; play *I Spy*, etc.
- Vary the group dynamics in the lesson: move from whole group response to individual response to pairwork, etc.
- Provide opportunities for learners to ask questions, as well as to answer them.
- Encourage learners to act out the language in the lessons.
- Encourage learners to use language structures and vocabulary to talk about their own ideas, opinions and experiences.
- In class discussions, write the learners' ideas on class charts. You can refer back to these charts in later lessons.
- Adjust your reading and writing expectations and instructions to suit the literacy level of your learners.
- Use the *Teaching Strategies* section in this Teacher's Guide to adapt the different types of activity in the classroom, and to customise feedback strategies.

Using the Activity Book and further suggestions

- Use the Activity Book pages related to the Learner's Book pages.
- Depending on the ability of the learners, use the stretch and support differentiation activities in the lesson plans to adapt the activities as required.
- Do a Wrap up activity or game at the end of every lesson.

F Assessment

We recommend that you take the time and opportunity to observe and monitor the progress and development of your learners. Many opportunities for informal assessment are provided through the *My Learning* lessons and end-of-unit projects as well as regular self-assessment opportunities.

At the beginning of the year, create individual portfolio folders to keep work that shows how the learners

have been meeting the curriculum objectives. Use the portfolio to create a feeling of achievement and pride in learners about what they have achieved over the year. Keep this portfolio for parent–teacher meetings and send it home to show the parents/carers either at the end of each term or the end of the year. You might also want to include a letter to parents/carers outlining what the learners have achieved over the year.

Assessment for learning

Assessment for learning is a teaching strategy based around continual informal assessment of learner understanding, which then informs subsequent teaching decisions. Each lesson plan provides space and opportunities for you to apply assessment for learning techniques:

- **Observations:** Observing learners during tasks can help identify confidence, misconceptions, engagement and understanding of the task itself. This allows opportunities for individual interventions to address immediate learning needs.
- **Student self-assessment:** Self-assessments based around can-do statements provide an insight into learners' confidence of their own knowledge and skills, which can be used to address common or individual perceived weaknesses. It's important to combine self-assessment with other forms of formative assessment to ensure learners' confidence matches the accuracy of their understanding.
- **Oral questioning:** One of the simplest methods of eliciting feedback, oral questioning can help identify individual and group understanding. Questions may be directed at individual learners, groups of learners, or the whole class, although the teacher needs to make sure the feedback sessions are not dominated by the most confident learners. The feedback can inform whether learning points are reinforced, or whether the class is ready to move on.
- **Peer assessment:** Peer assessment develops learners' metacognition and their ability to articulate rules and conventions. The teacher should provide a model of peer assessment at the start of the activity to set out parameters, and to demonstrate constructive feedback. Peer assessment can be incorporated in a variety of ways:
 - Combined with oral questioning, peers can assess whether a learner's answer is correct, and if not, be encouraged to provide a correct answer and – if relevant – an explanation of why this is correct. This technique can help learners internalise and deepen their understanding through articulating rules and conventions in their own words.
 - As a differentiated activity, pairing able learners with those who need more support. The more able learners can provide support, reinforcing the strength of their own understanding through articulation and explanation.
 - As an extension to presentations, where peers ask questions of the presenters. This can help teachers assess the depth of understanding of both the

presenters and the audience, and identify learning points to reinforce as a result.

- **Written work** may be peer assessed, providing that learners have a clear marking guide to follow. Activities requiring objective answers (e.g. true/false, matching, etc.) can be facilitated quite easily, whereas more open-ended writing tasks may require dictionaries and teacher input to ensure the peer assessment is successful.
- **Quizzes:** Quizzes provide an objective measure of learners' knowledge, and can be run as competitive activities (e.g. *Backs to the board*, see *Teaching Strategies*), paper-based tasks (e.g. an informal test) or online (e.g. a multiple-choice test, with instant feedback). Consideration needs to be given to the style of question (free response, multiple choice, etc.) and the breadth of the domain tested (e.g. whether the quiz tests a specific language point, the lessons' content, or is broader). Regular use of quizzes can help build a data-informed picture of how the class is progressing, and whether there are areas of individual or collective weakness that need to be addressed.
- **Student presentation:** Presentations require learners to demonstrate their understanding and application of language. Misconceptions can be identified through directed questioning, which may be broadened out to the whole class through discussion, and addressed immediately through intervention.
- **Written work and feedback:** When learners submit written work, they should receive feedback as soon after submission as possible. Feedback should be encouraging, but identify and address errors and misconceptions. Common misconceptions or errors in the class can be addressed through whole-class teaching or activities, whereas individual errors should be addressed one-on-one through feedback.
- **Feedback:** Regular feedback is a key feature of assessment for learning, and should be a part of each activity. An important function of feedback is to ensure learners acquire knowledge and skills correctly and accurately, so each lesson builds on solid foundations. Feedback can directly and informally reinforce learning points where required (e.g. correcting common spelling errors, pronunciation issues, grammar misconceptions, etc. during the activity), or include more formally structured teaching of specific points (e.g. addressing a misconception or weakness common to the class).

In addition to the highlighted techniques in the lesson plans, the following strategies can be applied to embed assessment for learning in the classroom.

- Using objectives and outcomes for measurable learning or meeting set criteria. Where learning outcomes are clearly measurable (for example, learners will be able to write a sentence in the past simple and the past continuous tenses), activities that require learners to demonstrate these specific outcomes can be used to assess learners' mastery of the skill or knowledge.

G Common mistakes

The Cambridge English Corpus is a multi-billion word collection of written, spoken and learner texts; it is the largest of its kind in the world. The Corpus breaks down into several smaller corpora, including the Cambridge Learner Corpus, a unique 50 million word collection of exam scripts written by learners all over the world. Analysis of this resource has identified a number of common misconceptions and errors made by Arabic learners of English at CEFR A1, A2 and B1.

Spelling errors

Doubling and clusters of vowels appear to present a particular challenge for Arabic-speaking learners – for example, *quiet, because, friend, people, restaurant, beautiful, country, receive*. Silent consonants (for example, *should, which*, etc.) and the silent *e* (*there, before*, etc.) also appear in the list of frequently misspelled words.

Target Word	Errors (in order of frequency)
because	becouse, becaus, becuse, beacuse
friend	frind, freind
different	diffrent
people	pepole, peaple, peopel, peopl
interesting	intersting, intresting
restaurant	resturant
beautiful	beatiful, beutiful
there	ther
before	befor
with	withe, whit
country	contry, contre
their	thier
together	togather
like	lik
receive	recieve, recive
which	wich
wishes	weshes, wiches, wishes
important	importent
should	shoud,
tomorrow	tomorow, tommorow, tommorrow
always	alway, allways

Missing *a* or *an*

This error is seen most frequently when an adverb and adjective intervene between the needed indefinite and the noun. This error is most frequently preceded by *it is* or *it's*:

- Example error: *It's very nice place.*
Corrected: *It's a very nice place.*

Missing *the*

The is frequently missing before nouns. Common nouns associated with this problem include: *same, UK, countryside, centre, internet, wedding, channel, cinema, city, museum, station, news, afternoon, same, weekend, USA, first, time, other*.

In addition, *the* is often missed before ordinals at the start of a sentence.

- Example error: *First thing I would like to tell you is that I love shopping.*
Corrected: *The first thing I would like to tell you is that I love shopping.*

Missing pronouns

It, you and I are the most frequently missing pronouns in the following instances:

- Missing *it* as an object pronoun: *My father gave me it when I was 13 years old.*
- Missing *you* as an object pronoun: *I want you to come with me.*
- Missing *I* as a subject pronoun: *I hope I see you soon.*

Missing conjunction

And is a common omission for Arabic learners. Examples include:

- *It was full of flowers and green trees, and there were places for cycling.*
- *There is a big sitting room, and there is a sofa, an armchair and a bookcase.*
- *My friend likes football and swimming.*

Missing *be* before adjectives in descriptions

The copula *be* presents a particular challenge as there is no *to be* in Arabic in the present tense. *Be* is the only significantly omitted verb, and because this error occurs with the present simple and progressive tenses, it needs particular attention from an early stage.

Frequent instances of this omission include:

- Missing *be* before adjectives in descriptions.
 - *I liked the competition because it was very interesting.*
 - *I will be very happy if you come.*
 - *The theatre is near my house.*
- Before the prepositions for talking about when or where something is or happens.
 - *My house is next to the bus station, opposite the bank.*
 - *Dinner time is at 6 o'clock in the evening.*
- Before *-ing* forms in present continuous.
 - *The place I am staying in is amazing.*
 - *She is studying with me.*
 - *So we are planning to go to that park together.*

Verb agreement with *be*

As above, the lack of an equivalent for *to be* in the present tense in Arabic is likely the source of the frequency of errors around verb agreements involving *be*:

- Example error: *Two men was near his car.*
Corrected: *Two men were near his car.*
- Example error: *Young people is important in society.*
Corrected: *Young people are important in society.*

Using *in* instead of *at* or *on*, and vice versa

Using *in* instead of *at* is the most frequent wrong-preposition error, followed by using *in* instead of *on*.

The most frequent instances of *in* instead of *at* concerns the following:

- With clock time when talking about times or occasions.
Example error: *The weather is very good in this time of year.*
Corrected: *The weather is very good at this time of year.*
- With *house* and *home*.
Example error: *Can you come to dinner with me in my house?*
Corrected: *Can you come to dinner with me at my house?*
- With *work*, *college*, *school*, *university* etc.
Example error: *I met her in my work.*
Corrected: *I met her at my work.*
- In the phrase *at the weekend*.
Example error: *I really enjoyed shopping in the weekend.*
Corrected: *I really enjoyed shopping at the weekend.*
- With events, such as *party*, *wedding*, *concert* etc.
Example error: *See you in the party.*
Corrected: *See you at the party.*

The most frequent instances of *in* instead of *on* concerns the following:

- With days of the week.
Example error: *I will visit you in Sunday at about 2 o'clock.*
Corrected: *I will visit you on Sunday at about 2 o'clock.*
- TV.
Example error: *Sometimes I see old serial dramas in TV.*
Corrected: *Sometimes I see old serial dramas on TV.*
- *Day*, *birthday*, *holiday*.
Example error: *We had a good time in this holiday.*
Corrected: *We had a good time on this holiday.*

Punctuation with apostrophes

Apostrophes are a common problem area for most groups of learners, not just learners whose first language is Arabic. The most frequent error types are listed below:

- Confusion between *I'm* and *I am*, resulting in *I'am*.
Example error: *I'am writing to tell you my news!*
Corrected: *I am writing to tell you my news!*
Or *I'm writing to tell you my news!*
- Confusion between *it's* and *its*.
Example error: *I've got a new phone. I like it's camera and it's screen.*
Corrected: *I've got a new phone. I like its camera and its screen.*
- Forming plural nouns with apostrophes, which may be a result of confusion with possessive 's.
Example error: *My friend's gave me a mobile, but my parent's gave me a computer.*
Corrected: *My friends gave me a mobile, but my parents gave me a computer.*

- Using *its* in place of *it's*.
Example error: *Its a big place and its nice as well.*
Corrected: *It's a big place and it's nice as well.*
- Possessive s with missing apostrophe.
Example error: *My friends name is Dalal.*
Corrected: *My friend's name is Dalal.*

Overuse of *it* as a pronoun between subject and verb

This is a particularly frequent error for Arabic learners, although it is becoming more common among native speakers, especially in relative clauses:

- Example error: *You know I don't know if Oman's weather it will be very good.*
Corrected: *You know I don't know if Oman's weather will be very good.*
- Example error: *You can catch the bus that it stops across from our house.*
Corrected: *You can catch the bus that stops across from our house.*
- Example error: *The information you sent it to me by email was great.*
Corrected: *The information you sent to me by email was great.*

Over-long sentences

Sentence boundaries are a problem area for all learners (not just those with Arabic mother tongue), but not beginning a new sentence when required is by far the most frequent punctuation error of Arabic speakers. Run-on or overly long sentences are common, even at lower levels where learners' language normally limits them to simple short sentences. Learners may construct short sentences, but neglect punctuation to mark the start and end of sentences.

Teaching Strategies Grades 4–9

This section provides definitions for a range of different teaching strategies that can be used in the classroom, as well as information on the rationale for each activity.

Teacher-led strategies (direct instruction)

Guided reading

Learners are placed into groups of 6–8 according to reading knowledge and skills in order to help them read and discuss texts with greater independence.

The teacher plays an active role in leading the learners through group reading sessions that:

- model reading processes
- demonstrate how to choose and read books of different genres
- apply prior reading experiences
- use vocabulary, syntax, and phonics to develop understanding
- ask questions to establish comprehension
- deepen understanding
- support learners to reflect on their reading.

Guided writing

Learners are placed into groups of 6–8 according to writing ability and skills. The teacher leads and supports the learners through a variety of writing experiences to direct and develop their understanding of the process, purpose and forms of writing.

Guided writing strategies include:

- demonstrating ways to generate and analyse ideas
- describing and explaining characters and events
- recording and organising information
- editing and sharing work
- expanding the repertoire of techniques and types of writing
- building learners' confidence through writing in familiar and unfamiliar contexts.

Guided discovery

The teacher leads and supports the learners in the acquisition of skills and knowledge through modelling and step-by-step practise, until learners are able to apply the skills and knowledge independently.

Learners may be provided with an example of a language item in action, for example in a piece of text, and they are then supported and encouraged by the teacher to discover and summarise the rule themselves.

Guided listening

The teacher explicitly shares the purpose for the listening activity and provides focused instruction prior to reading the text or playing the audio.

- Learners are provided with a framework on which to organise their ideas; a way to record, share and value the ideas of others and a practical transfer of these skills to their independent work.

- Learners make notes while listening; the teacher pauses occasionally to discuss specific concepts and ideas with the learners.
- Learners pose questions, present ideas, make inferences/predictions/connections and reflect on peers' ideas.

Visual stimuli

Visual stimuli are an important component of individual learning materials, as well as of the classroom environment as a whole. Visual stimuli provoke discussion and engage learners in the lesson focus.

Learners are provided with visual stimuli such as images, cues, objects or environments to support them in making associations and connections in processing, memorising and recalling information.

Cloze

Cloze is used to assess literacy skills such as predicting meaning, developing vocabulary, applying prior knowledge and understanding textual information.

- Learners fill in or complete letters, words, and phrases that are deliberately omitted from written or oral text.
- For support, learners may be separately provided with the letter, words and phrases that are required to complete the text.

Prompt

Learners are provided with prompts such as open-ended words, phrases, or sentences to cue, focus, direct, or prod thinking. Sentence starter prompts can encourage learners to complete an idea, deepen a question, expand on a response or plan further work. For support, the prompts may be longer and more structured. Prompts encourage learners confidence especially when starting a speaking or writing activity. Examples of prompts include:

- 'Jamal went to the ...'
- 'On Tuesdays we ...'
- 'At school, Samia's favourite subject is ...'

Word cycle

The teacher introduces learners to new vocabulary, new topics or concepts using visual diagrams. The connections between and among words and concepts may also be identified and diagrammed (e.g., using words, lines, lists) to review recently learned material, or assess knowledge of new concepts.

Word cycles can be used as a visual presentation method, or alternatively as a task to help learners form their own connections between words and concepts.

Flashcards

Flashcards are used for drill, practice and positive reinforcement. A typical flashcard has the question, term, or issue on one side and the answer, definition, or related information on the other. For younger learners, flashcards may be larger, use larger font and contain

less detail; as learners become older flashcards may be smaller, use smaller font and contain more detail.

The teacher uses a series of hand-held cards that are shown to learners often by flipping them over quickly as a technique to learn, memorise, or review information on the card.

Organised grouping strategies (cooperative)

Jigsaw

The jigsaw strategy uses the gradual culmination of smaller learner groups into larger groups to piece together information for a task.

- The teacher arranges the learners into small groups.
- Each small group or individual group member is assigned a different piece of information.
- Group members then join with members of other groups assigned the same piece of information, and research and/or share ideas about the information.
- Eventually, learners return to their original groups to piece together a clear picture of the topic at hand.

Mentoring

Learners are supported by an experienced or knowledgeable person who acts as a mentor. The term 'mentor' may refer to teacher-advisors, peer tutors, and community mentors in a variety of settings.

- The teacher works with the mentor to create a support programme for the learner, which may be short-term or long-term depending on the learner's needs and the task requirements.
- The mentor provides one-on-one advice or training to support the learner in exploring ideas, taking risks, testing conclusions, and obtaining feedback.

Peer practice

Learners work together in pairs or small groups (allocated by the teacher) to help each other to review, drill, and rehearse to check knowledge, deepen understanding, and develop skills.

Peer teaching

Learners (individuals or small groups) who are competent in a skill, or knowledgeable in a topic, act as 'experts' to teach what they know to their peers.

Round table

Learners write factual answers to a posed question (e.g., 'What do you know about ...?', 'Who is famous for ...?') in order to generate and share a variety of information.

Learners can either answer a question sequentially on a single piece of paper that is passed around, or on the board, or answer questions simultaneously on a separate piece of paper.

Interview

A person (the interviewer) engages in a conversation with another (the interviewee) in order to gather personal information and opinion, practical experience, and advice. The person interviewed is often an expert or a person in the role of an expert. The person being

interviewed could be a teacher or learner in role, or an external expert.

Collaborative learning

Learners work together in pairs or small groups to solve a problem, complete a task, or create a product. They participate in thoughtful discussion, and result in a more positive attitude about learning and each other by working together.

- Learners engage with one another and are responsible for making sure that everyone understands the task.
- The teacher facilitates collaborative learning by organising the learners into pairs or small groups that complement one another and by supporting the development of the group task.

Active strategies (activities)

Backs to the board

This is a competitive activity format that can be used to check vocabulary or knowledge.

- The teacher divides the class of learners into two or three groups.
- One learner from each group sits in a chair with their back to the board, facing their group.
- The teacher or a chosen learner writes a word on the board so that the learners sitting with their backs to the board cannot see the word.
- Each group provides hints to the learner from their group with their back to the board, who in turn attempt to guess the word.
- The first one to guess the word gets a point for their team.

Role-play

Learners act out or perform a particular role in order to explore and dramatise the thoughts, feelings, and experiences of another person in a simulated situation.

- The role-play may be conducted between two learners, a small group or as a whole class led by the teacher.
- Role-play may be performed and presented to the whole class where other learners may be invited to make comment and analysis on the content.
- Some role-plays may be simple re-enactment but role-play can also include learners' own development and interpretation of a given scenario.

Learning centres/stations

The teacher establishes physical locations, such as tables around the classroom, that are assigned for learners to explore topics, curriculum areas, resources, and types of learning (e.g., listening, reading, presentations).

The learning stations may contain problem-solving challenges or artifacts for discussion.

Learners may visit the learning stations as individuals, in pairs or in small groups.

Experiential learning

Experiential learning is the process of learning through experience, and is more specifically defined as 'learning through reflection on doing'.

It is vital that individuals are encouraged to directly involve themselves in the experience, and then to reflect on their experiences using analytic skills, in order that they gain a better understanding of the new knowledge and retain the information for a longer time.

Look-say-cover-write-check spelling strategy

Look-say-cover-write-check is a strategy used to help learners learn their spellings. This is a useful method to teach learners so that they practise learning the spellings of words, but also so that they are testing themselves.

A learner is given a word to spell and:

- looks at it
- says the word
- covers it over with a piece of paper or their hand
- writes the spelling again next to the word
- uncovers the spelling to check if they have got it right.

Games

A game may be played using print, digital media, simulation, or contest (competitive or cooperative) according to a clear set of rules in order to challenge and motivate learners to learn. This strategy is highly engaging, but all learners should understand the objectives and process of the game before playing.

Listening to stories/story time

The language used in stories is different from social spoken English. Listening to stories (audio recordings, teacher or peer readings) allows learners to access texts above the language they are able to engage with independently.

- Before listening to the story, the teacher should brief the learners on the objective or focus of the task.
- If learners are required to take notes, listen for keywords to answer questions, etc., this should also be briefed before listening starts.
- The teacher can pause or repeat sections to ask questions and support learners in following the story.

Reading diary

The use of a reading diary or a response journal supports learners to regularly write personal reactions to texts, activities, and experiences in any subject area.

Learners' reactions may be formal or informal and include exploring, analysing, questioning, interpreting, and appreciating new ideas and experiences.

Reading diaries may be kept as a personal account shared between the learner and the teacher or may be used to present ideas and reflections to the class.

Projects

Learners learn about a subject by working for an extended period of time on a project to investigate and respond to a complex question, challenge, or problem. Project tasks contrast with paper-based, rote memorisation, or teacher-led instruction that simply presents established facts or portrays a smooth path to knowledge by instead posing questions, problems or

scenarios. The project may be set by the teacher or may have initial input from the learners.

- The teacher should support the project by providing success criteria and access to resources that the learners may need to facilitate and develop their project.
- Projects may be presented to the class and learners may be asked to explain the process and outcome of their project.

Multimedia learning (video)

Learners may access ICT-based teaching resources provided by the teacher to facilitate learning such as audio and video extracts used within lessons to demonstrate vocabulary and speaking. Learners may also use ICT-based resources, such as interactive software or using audio devices to record their own dialogues, to create projects and complete tasks.

Hot seating

The teacher decides on a specific conversation topic to frame the activity. This topic may be related to the current Learner's Book unit (e.g., shopping, health care, holidays) or focused on a particular language structure being studied (e.g., the past tense, conditionals, or descriptive vocabulary).

- One learner volunteers or is selected by the teacher to sit in the 'hot seat' chair at the front of the room.
- While in the hot seat, the learner has control of the class. They are responsible for selecting learners who have a question and addressing them directly by name, rather than looking at the teacher to facilitate the communication.
- The audience is responsible for listening to one another's questions and helping one another to ask appropriate questions, to incorporate pre-determined themes, vocabulary, or grammar structures as much as possible, and to avoid repetition of questions.
- The teacher acts as a facilitator and support to provide prompts, model dialogue and encourage the progression of the session.

Reading race

The teacher prepares questions about the details of a text; these questions should be objective and have one clear defined answer. This activity can work both before learners read a text and as a review activity when learners have finished the reading.

- The teacher organises learners into pairs with each learner having a copy of the text in front of them. Enough copies of the questions should be available for each pair.
- Learners are provided with the first question and race to find the correct answer. Once found, one partner should run with their written answer to the teacher.
- If the answer is correct, learners are provided with the second question.
- The process is repeated until a group has answered all of the questions correctly.

This activity can be adapted to incorporate many versions of learners in pairs or small groups 'racing' one

another to read pieces of text and find information as guided by the teacher.

Running dictations

Through this activity learners practice reading, speaking, listening and writing; have to work together; and are also responsible for checking their own work.

- The teacher prepares two short texts, each taped to a wall.
- Learners are organised into pairs, with one learner being the writer and the other being the runner.
- The runner must run to the board where the first paragraph is displayed, read the text, run back to his or her partner, and repeat what he or she read.
- The writer's job is to listen to the runner and write down what is said. Usually it takes many trips to and from the board for the runner to relay the entire paragraph to the writer.
- When most groups are done, the writer can check the passage against what is displayed, and then roles are reversed and the second paragraph is used.

Find someone 'who'

The teacher tells the learners that they will ask each other questions. The goal is to ask everyone in class until the learners find someone who does that activity, has that characteristic, or can answer the question.

- The teacher prepares a selection of 'find someone who...' statements using vocabulary or concepts that relate to the current unit of study. For example, if you are teaching a unit on jobs: 'Find someone who can list tasks a farmer might have', 'Find someone who can describe the job of a doctor', etc.
- The teacher creates a variety of statements so that it will be easy to find a person with some characteristics, but not so easy to find others.

Strategies to promote thinking and problem solving (analysis)

Brainstorming

Learners share and record questions, ideas and examples that come to mind (without judgement or censure) about a central idea, topic, or problem. Brainstorming is often presented visually using colourful posters that can be created by learners in small groups and presented to the rest of the class.

Problem solving

Learners use a variety of reasoning skills (inductive reasoning, deductive reasoning and exploring contrary examples, etc.) led by the teacher to engage a line of inquiry.

Problem-solving includes generating questions, making and carrying out a plan, testing hypotheses, constructing organised proofs and arguments, justifying conclusions, and eventually resolving a problem or mystery.

Opinion forming

Learners may receive a quotation from a text (before it is read) that includes evidence for one side or the other

of an issue or argument. Learners share their quotations and their evolving opinions, with reasons and evidence to support them.

Alternatively the teacher makes a statement and encourages learners to form an opinion for or against the statement. Learners may be asked to move physically to opposing sides of the classroom to demonstrate their opinion. The teacher may then ask questions to encourage learners to justify and rationalise their opinions.

Reflection

Learners think deeply or carefully about information, an investigation, or problem in order to clarify their understanding in light of previous experience. Reflection may:

- include both formal and informal ways to think about the 'why' and 'how' of learning (e.g., in a journal or response log)
- incorporate wait time before learners respond to a question
- require learners to complete a criteria-based checklist as a group following an activity.

Problem Based Learning (PBL)

- The teacher sets the learners a problem-based task.
- The learners are organised into small groups by the teacher, and then brainstorm ideas. They identify what they know about the problem and what they don't know, but must learn, in order to solve the problem.
- Learners then develop an action plan for research, and discuss the topics and concepts researched, eventually coming to some agreement on the best resolution.
- The teacher acts as a facilitator to guide the learners through the process, ask relevant and probing questions and provide resources that the learners need to solve the problem-based task.

Challenge Based Learning (CBL)

CBL is a collaborative learning experience in which teachers and learners work together to learn about compelling issues, propose solutions to real problems and take action. The approach mirrors the 21st century workplace and requires learners to reflect on their learning, the impact of their actions and publish their solutions to a wide audience.

- The teacher works with the learners to identify the big idea.
- Learners identify guiding questions (what they need to know) and identify resources and activities to answer these.
- Learners research, document and develop a solution and then identify steps to carry out their plan.
- Learners implement their solutions, measure outcomes, reflect on what worked and determine progress made.
- Learners are encouraged to keep written, audio or video journals throughout the process and use these to share their projects with a wider audience.

Task Based Learning (TBL)

In a task based learning scenario the lesson is based around the completion of a central task and the language studied is determined by what happens as the learners complete it. It enables more varied and natural exposure to language and a strong communicative approach.

- The teacher introduces the topic and gives the learners clear instructions on what they will need to do during the task. The teacher might provide some useful vocabulary to support the learners.
- The learners complete the task in pairs or groups whilst the teacher monitors and offers encouragement.
- The learners prepare a short oral or written report and feedback to the whole class on what happened during the task.
- The teacher highlights relevant parts of the report and uses this to inform areas for the learners to participate in further practice.

Common misconceptions for learners, ways of identifying these and techniques for addressing these misconceptions: <ul style="list-style-type: none"> • Some learners may struggle with writing the Roman alphabet. You will need to watch carefully to see how they hold their pen, then give guidance as to how to form the letters. • Some learners, particularly near the beginning of term, might find the audio sections quite challenging. Watch their body language to assess their level of understanding and then pause the audio at key points if necessary. • Some learners may struggle with forming present simple questions as it is traditionally a very tricky area involving the use of <i>Wh-</i> words, inversion of words and the insertion of auxiliary verbs. You will need to provide constant consolidation and further practice in this aspect of learning English.

UNIT 1 LESSON 2 TASKS/ACTIVITIES

Please also refer to the *Teaching Strategies* section of the *Teacher's Guide* (pages 6 to 10).

Resources	Starter
	1. Quickly review some of the movement words from last class by miming the words and eliciting from the learners: <i>up, down, left, right, twist, turn, slowly, quickly</i> .
Resources	Main activity
Learner's Book page 7	<p>Word study: Activity 1</p> <ol style="list-style-type: none"> 1. Focus on the Word box. Read the instructions and ask the class to act out the words in the box as a whole class. 2. You may wish to play a round of <i>Simon Says</i> to practise the words. Tell the class to listen to your instructions. Everybody stands up first and you clear a space in the classroom together for the activity. 3. Demonstrate this carefully. If you say <i>Simon says</i>, for example, <i>Simon says dance slowly</i>, learners do as they are told. If you don't say <i>Simon says ...</i>, they don't move. When a learner makes a mistake, he/she must sit out until the next round. <p>Feedback</p> <p>Watch the learners' body language to work out level of understanding and give further input as necessary.</p>
Learner's Book page 7	<p>Let's do it!: Activity 2</p> <ol style="list-style-type: none"> 1. Ask learners to demonstrate a simple routine in their lives by miming it; for example, you could ask them to demonstrate their getting-ready-for-school routine: miming getting dressed, having breakfast, brushing their teeth, getting their backpack ready and leaving the house. 2. Tell the class they are going to learn a new routine and they should stand in a line. 3. Give the instructions and ask the class to act out your instructions. 4. Demonstrate as you describe the actions and clarify any difficult vocabulary. <p>Feedback</p> <p>Ask learners for feedback: <i>Is it easy or difficult?</i> Have a class discussion.</p> <p>Differentiation activities (Support):</p> <ol style="list-style-type: none"> 1. You might need to physically show the learners exactly where they should stand. <p>Differentiation activities (Stretch):</p> <ol style="list-style-type: none"> 1. It is important that you stress to the learners that for this and all writing activities they do not have to use cursive script and can print their answers if they prefer. This is true of any writing activity in the Activity Book. Ask them to give their chants a title. 		
	Feedback		
	Ask them to write neatly so that their chants can be displayed on the wall and they can enjoy each other's work.

	1. Review some of the stationery vocabulary from the previous class by miming and eliciting <i>cut, stick, glue</i> and <i>colour</i> .
Resources	Main activity
Learner's Book page 16	<p>Talk: Activity 1</p> <p>1. Ask the learners to work in pairs and re-tell the beginning of the play from the previous lesson. Take this opportunity to recycle and clarify vocabulary from the last lesson.</p>
Learner's Book page 16 Audio Track 8	<p>Read and listen: Activity 2</p> <p>1. Prepare learners to read and listen to the second part of the play. 2. Play the audio. Clarify any difficult vocabulary. 3. Draw learners' attention to the questions and elicit answers.</p> <p>Feedback</p> <p>Nominate learners to give answers.</p> <p style="background-color: #e0e0e0;">Answers</p> <p>1 Duck is sad at the start of the play as he doesn't have the equipment to do his work. 2 He is happy at the end because his friends lend him everything he needs.</p>
Learner's Book page 17	<p>Values: Activity 3</p> <p>1. Ask the learners to look at the list of rules and talk about which ones they think are important. Why do they think that? 2. They should then match the pictures with the rules. Tell the learners that there is more than one possible answer.</p> <p>Feedback</p> <p>Discuss the rules as a class and ask learners to say which they think are the most important. Encourage them to give their opinions freely and help them with key phrases, for example, <i>I think ...</i> or <i>In my opinion ...</i>.</p> <p style="background-color: #e0e0e0;">Answers</p> <p>1 b or c; 2 c or b; 3 e; 4 a; 5 d</p>
Activity Book page 15	<p>Write: Activity 1</p> <p>1. Tell learners to complete Bat's letter, using the suggestions and language given in the instructions. 2. Collect in the letters for marking/assessment and/or ask learners to read their letters to each other in a later lesson.</p> <p>Feedback</p> <p>Ask learners to have a look at each other's work while they are writing. Circulate and give further ideas.</p> <p style="background-color: #e0e0e0;">Example answer</p> <p>Dear Duck, I am sorry that I didn't know you were sad. I want to share my things with you in the classroom. I want to work as a team. I want to help you and I want to say 'please' and 'thank you'. Your friend, Bat</p>

Activity Book page 15	Word study: Activity 2 1. Read through the rules with the learners. 2. Clarify any tricky vocabulary. 3. Learners circle the rules they have in their class. Feedback Hold a class discussion to elicit and discuss feedback. Answers Learners' own answers		
Resources	Plenary 1. As a final activity, hand out poster paper and markers, one set to each group of four learners, and ask them to write one rule each for their classroom. 2. At the end compare together and discuss.

Resources	Plenary 1. In order to quickly consolidate the work on titles in the lesson, use your Learner's Book and point to the different people in the Al Qasim family. 2. Say that you would like the learners to say what the title of each person is all together in chorus. 3. If you have photos of other families or visual aids from the staff room, you can use those too, to bring in a little variety. If you don't want the class to be too noisy, hand out three pieces of card to each learner and tell them to quickly write <i>Mr</i> , <i>Mrs</i> and <i>Miss</i> on them. Point to each person in the picture and ask learners to hold up the relevant card. The advantage of this approach is that you can quickly get more feedback from more learners, rather than just the ones with louder voices.

Resources	Main activity
<p>Learner's Book page 39</p>	<p>Project 1: Make a memories scrapbook</p> <ol style="list-style-type: none"> 1. Learners have two choices of project in this lesson: a memories scrap book or a card for a special day. 2. For the memories scrapbook ask them to look back at Lessons 8, 9 and 10 and think about their own sad, proud or happy memories. 3. Ask the learners to work in groups of three or four and each choose a memory each. 4. Give out card, markers and other drawing materials. 5. Learners then each draw a picture or provide a photo, and write a few sentences about it. 6. Circulate and help them with expressing themselves in English. Encourage them to use the past simple and <i>could</i> to recount events in the past. 7. Once the memory stories are ready, they should be made into a scrapbook. 8. The scrapbook can take the form of a folder with pages clipped together, or a file with the memory stories placed inside it. 9. Now tell the learners that they will be presenting their work to other learners in the next class, so their scrapbooks should look clean, neat and appealing. 10. Ask them to decide in their groups who will present the scrapbook in the next class. 11. Take in all the scrapbooks so they are ready for next class. <p>Project 2: Make a card for a special day in your country</p> <ol style="list-style-type: none"> 1. Learners choose a special day in their country to make a card for. 2. They then choose a special person in their family to make the card for. 3. Give learners drawing materials, card and paper. Show them how to make a pop-up card by cutting out a small rectangle across the fold which they can stick a picture onto. 4. Learners write a message inside their cards. 5. Remind learners that they will present their cards to the class in the next lesson. 6. Take in all the cards so they are kept in one place for next class. <p>Differentiation activities (Support):</p> <ol style="list-style-type: none"> 1. Monitor learners closely when they are working in small groups to encourage participation. If they are not participating, encourage them, for example, to voice their opinions or complete a specific instruction. Drill the pronunciation of the phrases further. <p>Feedback</p> <p>Learners should work in pairs to decide who says the phrases. They should help each other to pronounce the phrases correctly. Then drill as a class chorally and individually.</p>
	<p>Answers</p> <p>1 the boy; 2 the villagers; 3 the boy; 4 the boy; 5 the villagers</p>
	<p>Differentiation activities (Support):</p> <ol style="list-style-type: none"> 1. These learners will need further drilling but do not drill too much if they are struggling with the correct pronunciation as it might be difficult for them to get it perfectly correct at this stage.

Learner's Book page 54	Write: Activity 4 1. Learners write their own sentences about the story. Feedback Ask learners to show each other their sentences.
Learner's Book page 54	Talk: Activity 5 1. Learners describe words for each other from the selection and their partner has to guess what the word is. Feedback Hold a class discussion where the learners give their description of the words to the class and the other learners have to guess what it is.
Activity Book page 40	Write: Activity 1 1. Learners complete the text using the past and present simple. Feedback Nominate learners to give answers. Answers 1 ran; 2 said; 3 attacked; 4 said; 5 lost; 6 killed; 7 are; 8 say; 9 need
Activity Book page 40	Read and write: Activity 2 1. Learners work together to decide what they would say to their friend if they had been angry with them and wanted to make amends. 2. They write what they would say. Feedback Hold feedback as a class discussion; learners contribute what they would say spontaneously and the class decides as a group. Answers Learners' own answers
Activity Book page 40	Word study: Activity 3 1. This is a final fun activity to round off the class and review the spelling of key lexis in the unit. 2. Learners work in teams to complete the words and the first team to do so shouts <i>Finished!</i> , at which point you say <i>Stop</i> and everyone else has to stop writing. Check the answers and award points. Feedback Learners raise their hands to give answers. Answers 1 sunny; 2 cold; 3 cool; 4 warm; 5 camel; 6 hump; 7 eyelashes
Resources	Plenary 1. To round off the class you could have a dictation of some of the words in the previous section. 2. When you have checked the spelling of the words once again, check the pronunciation by drilling.

Please also refer to the *Teaching Strategies* section of the *Teacher's Guide* (pages 6 to 10).

Resources	Starter
	<p>1. Review the verbs from last class. Give the past simple forms and ask the learners to say the infinitives: 1 yelled; 2 felt; 3 wrote; 4 read; 5 swam; 6 jumped; 7 carved; 8 smiled.</p> <p>2. Elicit from learners which verbs are regular and which are irregular and how they know (the regular verbs add <i>-ed</i> to the base infinitive form, the others don't).</p> <p>3. Once you have elicited the correct infinitives, ask learners to tell the story of <i>The Boy and the Wolf</i> again.</p> <p>Feedback Nominate different learners randomly to give answers.</p> <p style="background-color: #e0e0e0;">Answers</p> <p>1 yell; 2 feel; 3 write; 4 read; 5 swim; 6 jump; 7 carve; 8 smile</p>

Ask learners to research their chosen desert to answer the questions in step 2. 3. Now distribute an A3 sheet of paper to each pair. Tell pairs to use the top and middle parts of their sheet of paper for steps 3 and 4. Remind the learners that they are going to use the information they have out about their desert. Encourage learners to be creative and use a lot of colour for their mural. 4. Tell learners to draw a box in the bottom right and the bottom left of their sheet. Each partner should then write some amazing facts about the plants and animals in their chosen desert. Monitor closely to help with organisation of information and accuracy of language and spelling. <p>Feedback</p> <p>Ask learners to report on how their murals are coming together. Model how to pronounce <i>degrees</i> (Celsius). Clarify also that it is not always necessary to say <i>Celsius</i>. 3. Draw the learners' attention to the chart at the bottom of page 57 and ask them to copy it but only write the days at the top. The rest they should leave blank for the moment. If you feel that the learners would have difficulty doing this you could demonstrate on the board. Ask the learners to record the weather and the temperature for five days on the chart. 4. Then ask the learners to look at a weather website, for example, http://www.weatherwizkids.com/ and compare the weather in another place to the weather where they live.

Resources	Starter
	<ol style="list-style-type: none"> 1. Begin with a discussion about what was achieved in the last class and how the learners organised their murals and their weather charts. 2. Distribute the completed A3 sheets to the groups and ask them to make any final additions, but be careful to set a time limit so that final colouring and discussion don't take too long.
Resources	Main activity
Learner's Book page 57	<p>Present the desert mural: Activity 1</p> <ol style="list-style-type: none"> 1. Explain that the groups should get ready to present their murals to the others. 2. They should make sure that their material is colourful and appealing and can be seen from the back of the class. 3. Say that they will need to practise how they will present to the other learners, making sure that each learner has a role and something to say. Give them a time limit of around 4–5 minutes to present. 4. Make sure each learner is ready to say something and is not silent. 5. Prepare each group to present and stress that while one group is presenting the others should remain silent, listen carefully and be ready to ask one or two questions. 6. Clear a space at the front of the class and ask each group to come forward to present, one by one. 7. Once they have presented give some praise and invite any questions from other learners. <p>Feedback</p> <p>Feedback should take the form of general praise after each presentation, with a question or two from yourself. Make some general diagnostic notes for yourself for future teaching, based on what you see, for example, further consolidation of the present simple, pronunciation of certain words. These notes could also cover presentation issues, such as helping learners project their voices and look at their audience.</p>
Learner's Book page 57	<p>Activity 2: Chart the weather</p> <ol style="list-style-type: none"> 1. Give the learners a few minutes to collate their material and make it presentable. Remind them to write answers to the questions in step 4. 2. Ask learners to present their charts to each other in a mingle activity and to compare their results. <p>Feedback</p> <p>Ask the whole class which weather they prefer, the weather here or the weather they looked at on the internet? Why?</p>

Resources	Plenary 1. As a final activity, ask the learners to stand up and move around the room. Tell them that when you say 'Stop!' they should stop. You then say a sentence like <i>This person is next to Bader</i> and ask them to give the name of that person. The learner who first guesses the name correctly becomes 'teacher' and continues in the same way. 2. Resources	Starter
	<ol style="list-style-type: none"> 1. Ask learners to look around the classroom and call out items that have been invented, for example, <i>the computer, books, pens.</i> 2. What did people do/use before these things were invented? Elicit the idea that everything man-made was invented by someone.
Resources	Main activity
Learner's Book page 78	<p>Talk about it: Activity 1</p> <p>Review the discussion in the Starter section: can learners think of more things invented by an inventor?</p>
Learner's Book page 78 Audio Track 44	<p>Read and listen: Activity 2</p> <ol style="list-style-type: none"> 1. Ask the learners to look at the pictures, describe them and predict the content of the text. Input vocabulary and drill pronunciation. 2. Ask the learners what they know about these inventions. 3. Now draw their attention to the questions in the text and ask them to think of the answers while they read and listen. 4. Play the audio while the learners read along. As this is a long text and there is a great deal of information, pause the audio after each section to clarify any difficulties with lexis. Play the audio a number of times so everything is clear for the learners. <p>Feedback</p> <p>When the learners have finished listening ask them what they understood about the two inventions. Ask them to give some answers to the questions in the text.</p> <div style="background-color: #d3d3d3; padding: 5px;">Answers</div> <p>Learners will probably talk about cars, bikes, trolleys at the supermarket and airport, and toys. When asking learners to talk about their parents, ask them to come up with sentences containing <i>used to</i>, so ask questions like <i>Did your parents use to have a colour TV or a black-and-white TV when they were children?</i> Learners should then come up with sentences like <i>My parents used to have a colour TV but it was very heavy and difficult to move.</i></p>

	Differentiation activities (Support): 1. Ask these learners to work in pairs before giving feedback to the class; this will help them with their confidence.		
	Differentiation activities (Stretch): 1. These learners could give example sentences with <i>used to</i> to act as model language for the others.		
Activity Book page 55	Word story: Activity 2 1. Ask the learners to write a list of things with wheels. 2. They should draw eyes next to the items they've seen today. 3. Ask them to draw a picture of four of the things in the box. Feedback Hold a class discussion about all the different things with wheels. Learners should contribute spontaneously.		
Resources	Plenary 1. As a final activity, ask the learners to look back at the text on page 78 of the Learner's Book. Ask them to take a pencil and underline all the verbs in the past simple. 2. Build up a list of the verbs on the board with the learners. 3. Now get them to say which verbs are regular and which are irregular. Ask them how they know. This activity will consolidate the work on the past simple from the previous class and keep it fresh in learners' minds for future classes.

(The telephone was invented by Alexander Graham Bell and he obtained the patent for it in 1876. However a number of people had been developing the technology for the telephone prior to this; the television was invented by John Logie Baird who produced televised objects in outline in 1924 and showed how to televise moving objects in 1926. Both men were Scottish.)

	<ol style="list-style-type: none"> In order to prepare the learners for the content of this lesson, review <i>used to</i> with them either through drilling sentences orally or by giving them some written sentences to convert to the past with <i>used to</i>. You could do the following: ask the learners to get into small groups of three or four, give each group 11 slips of paper or card, then dictate the following words and ask them to write one word on each slip/card: <i>little when I used to I eat was yoghurt and banana</i> Check their spelling and make sure their writing is legible. Ask them to reorder the words to make a sentence, by working together at their table or on the floor: <i>When I was little I used to eat yoghurt and banana.</i> Now drill the sentence and check that they are eliding <i>used</i> with <i>to</i> and not over-pronouncing it, so their pronunciation can become more natural.

Resources	Starter
	<ol style="list-style-type: none"> In order to help learners understand the poem in this lesson, give a straw, some coloured paper and some sellotape to each learner. Ask them to decorate their straw. Learners can then compare straws and say which one they think is the most beautiful. Ask them to check if their straw still works by blowing through it. Ask them to describe the straw: <i>Is it long or short? Fat or thin?</i> Now ask them to look at the poem on page 82 and ask why the poem is that shape. The learners should guess that it's because the poem's about a straw and so it's long and thin. It is a 'shape poem'.
Resources	Main activity
Learner's Book page 82	<p>Talk about it: Activity 1</p> <ol style="list-style-type: none"> Consolidate the discussion in the Starter here. If possible, show learners other examples of shape poems. He invented it when he wound paper strips round his pencil and glued them together.</p>

Activity Book page 58	Read: Activity 1 1. Read the instructions and have a look at the shape poems with the learners. Ask them to answer the question about the poem in the Learner's Book. 2. Ask them to decide which poem they like best and why. Feedback Hold a class discussion about which poem is best. Answer The poem about the straw in the Learner's Book is very thin, like a straw.		
Activity Book page 58	Write: Activity 2 1. Now ask the learners to write their own tall poem in the box, basing it on some of the tall things which are illustrated. 2. Learners could write in pairs and help each other with ideas. 3. Circulate and give help with vocabulary and expression. Feedback Ask learners to leave their poems on their desks and tell them to move around the room, reading each other's poems. At the end you could ask them to describe any phrases they particularly liked in the poems they read.		
Resources	Plenary 1. As a final activity, review the shape poems from earlier in the class. 2. Simply hold up the poems and elicit their shape from the learners. 3. This will review vocabulary used in the lesson and consolidate the concept that a shape poem is in the shape of its subject/theme.

An example of a Fact File about an inventor that you have pre-prepared so that learners have a model. If time is short, just use the Fact File for Fatima on page 93.

Prepare a project checklist for learners that includes the following key points:

My work is organised.

My handwriting is neat.

My spelling is correct.

I used correct capital letters and full stops.

I wrote my name on the poster.

I listened to my friends' ideas and helped my team.

I helped tidy the desk and put the rubbish in the rubbish bin.

	1. To round off the project preparation lesson, give all the learners the Project checklist and ask them to draw a smiley face ☺ if they have checked, or a sad face if they didn't do these things ☹. 2. Encourage the learners to compare their checklist with their partner or small group. If any learner has a ☹ face, the team needs to check their project again and upgrade errors, as required. 3. Ensure that you have collected all of the project samples at the end of lesson and store carefully for the next lesson.

Common misconceptions for learners, ways of identifying these and techniques for addressing these misconceptions: <ul style="list-style-type: none"> It can be very stressful for learners to stand up at the front of the class and present their work, and themselves, to their peers. This raises anxiety in many learners, and particularly less able learners who are afraid of making mistakes in front of their peers. The teacher can manage this situation by providing safer, small group presentations and monitor while these presentations are taking place, noting learners' strengths and weaknesses, as well as correct and incorrect language use for delayed error correction on the board.

Ask the learners who wrote a Fact File based on summary one to sit together, summary 2 to sit together, summary 3 to sit together, and so on.2. Ask one learner from each of the six summary groups to stand up and form a new group. When you have managed the groups, there should be a range of Fact Files about different inventors/inventions in each group. Ask the learners to work in pairs.3. Elicit the questions that the learners will need to ask their partner, by using your own pre-prepared model Fact File, for example, <i>What is his/her name? How old is he/she? How old was he/she? Where is/was he/she from? What did they invent? How does it work? What can you use it for?</i>4. Raise awareness of intonation patterns, by writing the target questions on the board and indicating if the voice is rising or falling for each question by drawing a rising or falling arrow.5. Learners then work in pairs, asking and answering questions about each other's Fact Files.6. Encourage learners to write notes about each Fact File. Once learners have completed the task, ask them to work with another peer in their group, recycling the same questions and upgrading their fluency.7. Pairs continue in this way until all learners have had the opportunity to maximise their practice and have information about all the different inventions and inventors.8. Ask learners to create a display for the classroom wall. Encourage learners to work together to decide how to display their Fact Files. <p>Feedback</p> <p>Write a balance of accurate/inaccurate language examples on the board that you picked up while monitoring the learners on task. Encourage learners to work in small groups and identify the correct/incorrect language use. Focus on aspects of pronunciation as well, such as sentence stress and intonation. Remember to also focus on content and ideas. Please do not indicate who produced any of the language highlighted on the board.</p>

Resources	Starter
<p>Learner's Book page 94</p>	<p>Talk about it: Activity 1</p> <ol style="list-style-type: none"> 1. Stick the numbered dinosaur picture flashcards around the classroom walls and encourage learners to stand up and look at them, discussing if they know any of them. Don't focus on the spelling of the dinosaur names but drill the names chorally and individually. 2. Ask learners to work in pairs/small groups and tell each other anything they know about dinosaurs, for example if they ate meat or plants, or if they were big or small. 3. Pre-teach the meaning of <i>extinct</i> and <i>alive</i> and drill the words. Point to the visuals and ask, <i>Are dinosaurs alive or extinct? Extinct. Are there any dinosaurs in the world today? No.</i> Elicit some other examples of extinct animals from the learners, for example sabre tooth tigers, or animals that may soon be extinct, for example the Arabian gazelle and the Arabian tahir. 4. Ask learners to work in pairs. Each pair has a piece of paper and learners write down examples of what they know about dinosaurs and what they want to know about dinosaurs, in two separate columns. Give some examples with the group, providing written model questions on the board to help support the what we want to know column, for example <i>What did dinosaurs eat? Where did dinosaurs live? When did dinosaurs live?</i>
Resources	Main activity
<p>Learner's Book page 94 Audio Track 52</p>	<p>Listen: Activity 2</p> <ol style="list-style-type: none"> 1. Ask learners to look at the picture on page 94 of their Learner's Book and elicit details about the dinosaurs, for example <i>How many legs/teeth did it have? Were the dinosaurs big or small? Do you think they could run fast? Why/Why not?</i> 2. Ask learners to focus on their questions in the 'what we want to know' column from the previous task. Learners should listen and tick if their questions are answered. 3. Focus learners on the instruction in Activity 2. Play the audio a second time, making sure that they do not write anything until the audio has finished. Then ask them to discuss the information in pairs, and write down three facts about dinosaurs. <p>Feedback</p> <p>After the first task, nominate several learners to share their questions that were answered with the class. After the second task, ask learners to raise their hands to give the answers.</p> <p>Answers</p> <p>First listening task: learners' own answers.</p> <p>Second listening task: any answers from:</p> <p>Dinosaurs lived millions of years ago; there were many different kinds; some were very tall; some were small; some ate plants; some ate other dinosaurs; they laid eggs; they had four legs and a tail; we have found fossils of their bones, nests and footprints.</p>

	<p>Differentiation activities (Support):</p> <p>1. For the first task, ask these learners just to focus on one or two of their questions. The audio can be paused to support these learners' processing time. Make sure that you give adequate time to the feedback of the first task, as this stage will help these learners to identify three pieces of information for the second task.</p> <p>Differentiation activities (Stretch):</p> <p>1. Ask learners to look at their Learner's Book page 95, and read and listen to the information while you play the audio.</p> <p>2. Ask learners to complete the sentences. Play the audio a second time if you feel the learners need the help.</p> <p>Feedback</p> <p>After learners have checked their answers in pairs, check the answers as a class by asking individual learners to read out the numbers. Write the answers on the board to give learners a visual reference to check their own answers by.</p> <p>Answers</p> <p>1 animals; 2 dinosaurs; 3 Earth; 4 sixty-five; 5 humans</p>

Resources	<p>Plenary</p> <ol style="list-style-type: none"> 1. Ask learners to work in small groups and brainstorm everything they know about dinosaurs. You can give them examples to activate their background knowledge, for example <i>Dinosaurs lived millions of years ago. Some dinosaurs ate meat but others ate plants.</i> 2. In groups, give learners a time limit to write down as much as they can about dinosaurs on A3 paper. 3. Signal that the task is finished and ask learners to swap their papers with another group, who then counts up the number of facts. The team with the most answers wins.

Play numbers 8 and 9. 4. Learners work in small groups. Give them the mini fact sheets about dinosaurs to use for additional information. One learner rolls their cube, and the other learners read out the fact about that specific dinosaur. If the learners can think of another fact or sentence about the dinosaur, they win a point (they can use the mini fact sheets if they want). This continues until all learners have had several turns of rolling their cubes, and contributing facts and information about the different dinosaurs. <p>Feedback</p> <p>During the small group discussion, monitor closely and take notes of accurate/inaccurate language use. Highlight good ideas as well. Write some examples of the language on the board and elicit from learners which are correct/incorrect. Learners can then correct the errors. Place the numbered dinosaur flashcards around the room (from Lesson 1) and give learners the opportunity to look at them before the game begins. Ask learners to work in small groups and ask one member of the team to write down the letters A–J in a column. 2. Read out ten definitions or facts about specific dinosaurs and ask learners to write the number of the flashcard with that dinosaur on it (not the dinosaur name) next to each letter, for example <i>A This dinosaur was a carnivore and I think it was the scariest dinosaur because it could run very quickly and had a lot of sharp teeth.</i> The flashcard numbers can be repeated more than once. 3. Once you have finished definition J, ask the teams to swap their answers with another group. Read out the answers and learners check. Then they give back the paper to the correct group. The winner is the group with the most correct answers.

Monitor learners as they write, assisting with vocabulary and sentence formation as appropriate. Now explain that they are going to write about another dinosaur, using the hadrosaur sentences and Fact File as a guide. Stick the dinosaur flashcards around the classroom, to help learners choose a dinosaur to write about, and to discourage them from focusing on the pronunciation of the dinosaurs’ names (which will be challenging, and not necessary for this lesson). Talk and write: Activity 2

1. Focus learners on the activity instructions and explain that they are going to ask the questions in Activity 1 to five classmates, asking a different question to each classmate.
2. Have learners repeat each question in a choral drill, to help them build confidence in speaking. Vary choral drill techniques, for example loud and whispering drills; nominating one group of learners, then another (for example, everybody sitting on the back table or front table.)
3. The survey can be done as a mingle activity, with learners standing up and walking around asking different classmates the questions. If you choose this option, you might like to move all desks and chairs to one side, to give the learners space to circulate. Alternatively, sit learners in groups of six and have each learner write the names of five classmates on the top row of their survey table. Then they ask each classmate a different question.
4. Monitor learners closely to make sure they are on track. Help with pronunciation as you listen to them asking the questions. Note any repeated pronunciation errors for feedback.

Feedback

Nominate some confident learners to give some examples of their survey findings. Model the correct response, for example *Mohammed learned to read 4 years ago*. Practise any repeated pronunciation errors with the class during this stage.

Answers

Learners' own answers, but will use these structures:

- 1 [Name] was born ... years ago.
- 2 ... started learning English ... years ago.
- 3 ... learned to read ... years ago.
- 4 ... lost his/her first tooth ... years ago.
- 5 ... started school ... years ago.

Plenary

1. To round off the lesson, write three example sentences of past simple + *ago* on the board, for example *I lived in Sharjah three years ago, I learned English ... (as applicable) years ago* and *I learned to drive five years ago*. The example sentences should be a mixture of true and false statements.
2. Prompt the learners to ask questions and then guess if each sentence is true or false.
3. Ask the learners to write three sentences about themselves, some true and some false. Learners work in pairs and guess if their partner's sentences are true or not.

Activity Book page 77	Assessment box: Activity 3 1. Ask learners to read the statements and think about their answers. Learners tick the boxes that are true for them, and then compare their answers with a partner or small group. 2. Do any remedial teaching as necessary.		
Resources	Plenary 1. Divide the learners into two groups and ask them to think of a dinosaur-related name for their team. Ask both teams to line up at the board. Give the first person in each team a board pen. Call out dinosaur lexis. 2. The learners with the pens have to write the word correctly on the board. Their teams can help them, but they have to write the word themselves. The first learner to write the correct answer legibly wins the point for their team. Learners pass the pen to the next player in their team. Don't ask learners to spell dinosaur names. It is more useful for them to review the related vocabulary. The team with the most points at the end wins the game, and can choose which song/poem/story/game they want to sing/chant/tell/play. 3. All learners participate in the winning team's choice of song/poem/story/game.

Learning objectives: Listening: To follow instructions to make a simple project. Speaking: To give their opinion and share ideas about dinosaurs. Reading: To read and understand simple instructions and descriptions. Writing: To write complex sentences about their chosen dinosaurs. Give simple time reminders, for example <i>You have 4 minutes left to complete this stage of your project.</i> 		
Resources/equipment needed: Learner's Book page 111 1) You can prepare an example of each project pre-lesson, so that learners can see what the final product will look like and have a model they can handle and get ideas from. You could also provide a good model/messy model for one of the projects, to raise learners' awareness of the importance of the presentation of their work, for example: organisation, use of colour and visuals, neat handwriting and general tidiness. 2) Prepare a project checklist for learners that includes the following key points:		

My work is organised.

My handwriting is neat.

My spelling is correct.

I used correct capital letters and full stops.

I wrote my name on the poster.

I listened to my friends' ideas and helped my team.

I helped tidy the desk and put the rubbish in the rubbish bin.

Project 1: Prepare mini-factsheets on the following dinosaurs for Group A: Diplodocus, T-Rex and Triceratops and Group B: Stegosaurus, Brachiosaurus and Allosaurus. You may have already prepared mini-factsheets for the Group A dinosaurs and for the Stegosaurus in Group B, for earlier lessons in Unit 6. These can be used again here.

Project 2: Learners can use the same factsheets as Project 1 learners, if needed.

Coloured pens/pencils, glue, scissors, different coloured card and poster paper. Use pins/Blu-Tack for the learners to stick their projects on the walls for the latter stages of the lesson.

Resources	Starter
	<ol style="list-style-type: none"> Hold up a selection of classroom objects and describe them using size and colour words. Incorporate use of <i>with</i> and <i>without</i>, for example <i>This is a small blue ruler with numbers. This is a black jumper without stripes</i>. Elicit some sentences from the learners. Explain that learners will be describing some flowers and bugs in the same way.
Resources	Main activity
Learner's Book page 112	<p>Talk about it: Activity 1</p> <ol style="list-style-type: none"> Look closely together at the picture on page 112. Discuss with the class how the flowers and bugs are different from each other. Point out that they are all quite similar, so precise descriptions are needed. Introduce suitable phrases, for example <i>with/without spots, with/without stripes using the worked examples at the top of page 113</i>. <p>Feedback</p> <p>Say: <i>A flower without a bug</i>. Call on individuals to give you the number of a flower matching this description. Repeat with: <i>A bug with six legs</i>.</p> <p style="background-color: #d3d3d3; padding: 2px;">Answers</p> <p>Learners' own answers.</p>

Challenge the class to read the message. When they can't, write the decoded message directly underneath: HELLO CLASS. Explain that in this lesson they will learn how to code and decode messages like this.
Resources	Main activity
Learner's Book page 116	<p>Talk about it: Activity 1</p> <ol style="list-style-type: none"> 1. Ask the class why and how they would send a secret message. Elicit ideas. Can they think of any codes used in a book or film? 2. Suggest that codes in today's world tend to be sent using computers. In the past, messages used different technology: pigeons and camels.
Learner's Book page 116–117	<p>Let's do it!: Activity 2</p> <ol style="list-style-type: none"> 1. Read the texts on pages 116-117 to the class. Focus on the practical instructions for each code. Drill the pronunciation chorally and individually. Read the questions to learners. Use the ensuing conversation to draw out both positive and negative thoughts about pigeons. Many learners may think of these birds as a dirty nuisance. This is often true in cities. However, pigeons are still used in rural areas as their droppings make excellent fertiliser. Read the <i>Amazing fact</i> and ask, <i>Has anyone heard of pigeons being used to carry messages?</i> Finally, stand in a chosen location in the classroom and say decisively: <i>I don't like pigeons</i>. Move to a different location and say enthusiastically: <i>I like pigeons</i>. Encourage the learners to move to their preferred location.

Explain that you are going to call out some verbs in their base form, for example: <i>ride, visit, live, fly, make, play</i>. Ask learners to raise their hands if they know whether the verb has a regular or irregular past simple form. If you say their name, the learner can come to the front of the class and point at the correct heading. If they can give you the correct past simple form of the verb, add it to the board and say <i>Well done!</i> Avoid using <i>write, take, see, give, say</i> as these are tested in the lesson.

Resources	Starter
	<ol style="list-style-type: none"> 1. Explain to learners that today you will be reading and exploring a piece of poetry. They will be writing a creative idea of their own. 2. Show learners the space you have created for the gallery. Stress that their final written work today will be on display, so they should take good care with their writing and drawing.
Resources	Main activity
Learner's Book page 123 Audio Track 69	<p>Read and listen: Activity 1</p> <ol style="list-style-type: none"> 1. Ask learners to open their books at page 123 and look at the pictures. What do they think the children shown are feeling and hearing? 2. Play the audio at least twice. Use the Vocabulary box to explain <i>tossed</i>, <i>whisper</i> and <i>kite</i> and drill pronunciation. Explain to the class that they will be using dictionaries to look up other new words shortly. <p>Feedback</p> <p>Ask basic questions and ask learners to respond by putting a finger on the correct picture, for example <i>Who has slept outside? Who has ridden in a boat? Who has whispered to the trees? Who has not slept outside?</i></p>
Learner's Book page 123	<p>Talk: Activity 2</p> <ol style="list-style-type: none"> 1. Establish rules for contributing to a whole-class discussion, for example <i>If you have an idea, raise your hand. Please do not call out until I have said your name.</i> 2. Use the questions in the Learner's Book to analyse the poem in more detail. Allow at least ten minutes for this analysis. Invite contributions from as many learners as possible, for example <i>What do you think, Mohammad?</i> 3. Ask learners to work in pairs and use dictionaries to look up any unfamiliar words you choose to highlight. This can be set as a race, with pairs raising their hand as soon as they've found the correct head word. This is a good way to involve less confident speakers. <p>Feedback</p> <p>At points in the discussion where a correct answer is reached, signal this to the class. For the fourth bullet point question, practise saying the rhyming words chorally and individually.</p> <div style="background-color: #d3d3d3; padding: 5px;">Answers</div> <p>The first picture shows a boy sleeping outside on a hot summer night. The second picture shows a boy riding a boat in a storm. The other questions are: <i>Have you ever slept outside on a hot summer night? Have you ever done that?</i> Each section has seven lines, which follow a very similar pattern. The rhymes in the first section are: <i>night, light, night (back, that)</i>. The rhymes in the second section are: <i>night, kite (back, that)</i>. The <i>w</i> words are: <i>whisper, wild, waves, wind</i>. The trees make a whispering sound as though they are talking quietly. The simile <i>like a kite</i> compares the second speaker in his boat with a kite. Learners' own answers based on personal experiences.</p> <p>Differentiation activities (Support):</p> <ol style="list-style-type: none"> 1. 	1. Ask the class if they have a favourite food smell, for example freshly baked bread or grilled meat or cakes.
Resources	Main activity
Learner's Book page 124	<p>Talk about it: Activity 1</p> <p>1. Explain to learners that today they will be reading a folktale.</p> <p>2. Ask some questions, including those in the Learner's Book, to draw out their existing knowledge of this type of tale: <i>Do you know any folktales from our region? Can you name any 'good' characters? 'Bad' characters? What happens to 'good' and 'bad' characters in these stories? Are the story endings always happy?</i></p> <p>Feedback</p> <p>During the conversation, teach the concepts of <i>fair/unfair</i>, and <i>solution/problem</i>. Draw attention to the name of the story.</p> <p>Answers</p> <p>Learners' own answers</p>
Learner's Book pages 124 Audio Track 70	<p>Read and listen: Activity 2</p> <p>1. Read and discuss the <i>Reading strategy</i> box. Learners should realise that, as this is a traditional folktale, there will probably be a good character and a bad character, and that there will be a happy ending.</p> <p>2. Learners will need to listen to the first part of the story at least twice, either using the audio or with you reading it to them. Do not explain further new vocabulary at this point.</p> <p>Feedback</p> <p>Draw attention to the illustrations. Call on individual learners to name the characters shown, and perhaps say what these people are like, for example <i>angry, sad, hungry, proud</i>.</p>
Learner's Book page 125	<p>Talk: Activity 3</p> <p>1. Lead learners through these comprehension questions orally.</p> <p>2. Encourage use of the key story vocabulary, including character names, when you call on learners to give their ideas.</p> <p>Feedback</p> <p>For each question, draw the learners' attention to the part of the story which gives the correct response.</p> <p>Answers</p> <p>1. A poor man and a rich restaurant owner</p> <p>2. Outside a restaurant.</p> <p>3. He thought of a delicious meal.</p> <p>4. 'Stop! You're enjoying the smell of my food. Draw the learners' attention to the Activity Book and look in detail at the worked example, noting the removal of the speech marks and the change to a closing full stop. There are also many examples of speech bubbles in the Learner's Book which can be used for further modelling. 3. Learners can plan their writing in pairs but should produce individual written sentences. <p>Feedback</p> <p>Allow learners to mark their own work. Resources	Main activity
<p>Learner's Book page 129</p>	<p>1. Learners have two choices of project in this lesson: either making a new secret code or creating a questionnaire about experiences. These are pairwork projects, although you should seat groups who are working on the same project content together. Try to have approximately half of the learners working on each project.</p> <p>Project 1: Make up a secret code</p> <ol style="list-style-type: none"> 1. Ask learners to look back at Lesson 4 to recall their work on codes. Explain that they are going to work in pairs to create a brand new code. 2. Give each pair two sheets of paper — one for their coded message and one for their key — plus a paper clip to keep their work together. Explain that they will be giving these sheets to the people in group 2 in the next lesson, so it is important that their writing is neat. It is also important that the learners write their names on both sheets of paper. 3. Oversee everyone writing the full alphabet, in capital letters, spaced out generously over their first sheet of paper. They will need around 20–25 minutes to do this and to create the code, adding it to the sheet. They should write in pencil to enable self-correction. 4. Allow around 15 minutes for learners to think of the secret messages and write them on the second sheet. <p>Project 2: Make up a questionnaire about experiences</p> <ol style="list-style-type: none"> 1. Project 2 pairs need to spend their first few minutes writing eight questions on a single sheet of paper — four are shown on page 128. As shown, these do not need to be written out in full. So, they can write <i>Have you ... ?</i>, at the top of the sheet and then eight verb/object combinations. Recommend that they take it in turns, so they select four questions each. 2. Emphasise that learners need to find one positive response for every question. So there is no point writing <i>Have you ever been to the moon?</i> as no one will be able to answer <i>yes</i> to this. 3. Do not allow learners to ask the questions in their own time. You indicate when they should start and stop. Encourage them to take turns and speak to everyone in the project 2 group, noting down one person who answers <i>yes</i> for each question. Assign only ten minutes or less for this phase of the project: you could use a stopwatch to add excitement. 4. Distribute a larger sheet of paper to each pair. Allow at least 15 minutes for the pairs to write up their results as neatly as possible in the form of eight sentences: <i>Hamad has baked a cake. Sarah has watched a football match ...</i> Allow them to use coloured pens for this. They could write a heading <i>Have you ever ... ?</i> at the top of the page. If there is time, they can add pictures for each question. <p>Take in all projects so they are ready for the next class.</p> <p>Differentiation activities (Support):</p> <p>Project 1</p> <ol style="list-style-type: none"> 1. 	Differentiation activities (Stretch): Project 1 1. Encourage these learners to write a number or picture code. Project 2 1. They should be able to use colour with purpose on their poster, for example a different colour for each sentence or for the names.

Indicate that the strong voice is best when speaking to a large group.

Learners work in pairs and test each other on the vocabulary from the task, for example one learner points to a part of the body, and their partner names it. Pairs then switch roles.

Common misconceptions for learners, ways of identifying these and techniques for addressing these misconceptions: <ul style="list-style-type: none"> • It is common for learners to drop the auxiliary altogether when producing the present continuous tense as it may be challenging to hear, for example <i>I playing football</i>, or use the full rather than the contracted form, for example <i>She is tidying her room</i>. UNIT 8 LESSON 7 TASKS/ACTIVITIES

Please also refer to the *Teaching Strategies* section of the Teacher's Guide (pages 6 to 10).

Resources	Starter
	<ol style="list-style-type: none"> 1. Show the calendar and elicit the word, paying attention to the word stress by writing it on the board, for example <i>calendar</i> with a large circle above the first a, and two smaller circles above the e and the ar. Drill chorally and individually. 2. Elicit what a calendar is used for, for example <i>to remember important dates and things to do in the future</i>. 3. Elicit what day it is today, what day it will be tomorrow and what day it was yesterday paying attention to word stress and the pronunciation of the days.
Resources	Main activity
<p>Learner's Book page 138</p>	<p>Talk about it: Activity 1</p> <ol style="list-style-type: none"> 1. Draw some activities on the board, for example playing tennis, playing football, walking, and elicit the vocabulary from the learners, paying attention to word stress. Alternatively, mime the actions, although provide a drawing for 'visiting Grandma'. 2. Ask learners to look at the calendar on page 138 of their Learner's Book, explain what it shows and ask <i>What is happening on Thursday? Who is going to visit their grandma? What day is this?</i> (by pointing) <i>What sport/activity is this?</i> (by pointing). 3. Model the task for the learners, using a more able learner as your partner, by asking and answering questions about the week. Pair learners off to work together and ask and answer questions about the table. <p>Feedback</p> <p>While the learners are on task, monitor carefully and step in to correct any errors with form and pronunciation.</p> <p>Differentiation activities (Support):</p> <ol style="list-style-type: none"> 1. You could write some example questions and answers on the board to provide these learners with extra visual support. The written models can also be used as a self-correction tool, for example if you hear a learner is not using the auxiliary, or not contracting the auxiliary, you can indicate specific areas of the structure on the board so that the learner can self-correct. This makes it more memorable for the learner than a teacher correction. <p>Differentiation activities (Stretch):</p> <ol style="list-style-type: none"> 1. If these learners finish the task more quickly than the rest of the group, you can ask them to cover the visuals on Learner's Book page 138 and ask and answer questions, based on their memory of the different activities.
<p>Learner's Book page 138 PCM 7</p>	<p>Write and talk: Activity 2</p> <ol style="list-style-type: none"> 1. Draw a calendar grid on the board and elicit the days from the learners, encouraging them to spell them as you write. Hand out the photocopiable worksheet (PCM 7) with the calendar grid. Read through the days of the week again. 2. On the board, write one activity on three days and leave the other days blank. Learners then think of three activities (or they can use the ideas in the Learner's Book as a guide) and write them on different days on their own grids, again leaving the other days blank. At this stage, model the task with a more able learner, for example <i>What are you doing on Monday? I'm playing football. Are you doing anything on Friday? No, I'm not. Would you like to play computer games? Yes, please.</i> Show learners that you are both writing in the joint activity in your calendars. Using gestures, make learners aware that they should not show their calendar to their partners.

	<p>3. Write the target structures on the board, for example <i>What are you doing on _____? I'm tidying my room; Are you free on _____? Yes, I am/No, I'm not; Would you like to _____? Yes, please/No, thank you.</i> After drilling the examples, put the learners into A and B pairs. Monitor and input language as necessary. You could also refer to the <i>Language tip</i> box to help learners with phrases they can use to say that they have no plans.</p> <p>Feedback</p> <p>When monitoring the learners on task, note any particularly strong dialogues. When the task is complete, ask these pairs to deliver their dialogues in the class. Elicit from the learners, for example <i>Did you show each other your calendars? Did you use the structures? Did you sound polite? Did you take turns asking and answering?</i></p> <p>Differentiation activities (Support):</p> <p>1. Encourage these learners to use the structures on the board.</p> <p>Differentiation activities (Stretch):</p> <p>1. <p>Learner's Book page 139 Audio Track 77</p>	<p>Read and listen: Activity 3</p> <p>1. Ask learners to look at the three pictures on page 139 of their Learner's Book and elicit the names of the children, i.e. <i>Ali, Majed and Omar.</i></p> <p>2. Tell learners to read the six speech bubbles. Play the audio and learners match each speech bubble with one of the pictures. Do the first example with the group as a whole.</p> <p>3. Learners then work individually to match the numbered speech bubbles with the correct visual.</p> <p>Feedback</p> <p>After learners have checked their answers with a partner or small group, whole group feedback is managed quickly and effectively by you nominating the learners for the answers.</p> <p>Answers</p> <p>1 Majed; 2 Omar; 3 Ali; 4 Ali; 5 Omar; 6 Majed</p> <p>Differentiation activities (Support):</p> <p>1. Highlight the use of <i>because</i> for learners. <p>Feedback</p> <p>Ask learners to swap their Activity Books with someone in their group and check for accurate punctuation. To round off the class and give some extra focus on suggesting joint activities, put learners into small groups and ask them to brainstorm some activities they want to do together. 2. The group then works together and writes down their suggestions in their notebooks, using the question beginnings from the Activity Book. 3. Ask learners to mingle and to find someone that accepts their invitation. When learners find a partner who accepts, they sit down. Pairs can then share what they are doing or where they are going with the rest of their peers.

Learning objectives: Listening: To listen for global understanding and specific details in a text about the senses. Speaking: To discuss and personalise the topic. Reading: To read a text for detailed information about the five senses. Writing: To write simple sentences.		Learning outcomes: By the end of the lesson, learners will be able to ... <ul style="list-style-type: none"> • reflect on their language strengths and areas to develop • use more theme-related vocabulary • discuss the five senses more fluently • use a greater range of theme-related lexis • listen for gist and detail in a text • read for detail in a text.

Common misconceptions for learners, ways of identifying these and techniques for addressing these misconceptions: <ul style="list-style-type: none"> • Learners can find it very challenging to listen to audio when there is no visual support, as they believe that they have to understand every word in the text. The teacher can support this by clearly stating that learners only need to understand generally what the text is about, or only need to focus on specific questions, depending on the listening task type.

Resources	Plenary 1. Arrange the whole group into four teams and allow each group to choose one learner to be the one who will write the correct answer. The writer writes numbers 1–10 on the group's sheet of paper. 2. Read out ten definitions of words from Lessons 7–11. You can choose words that your learners had issues with, whether with meaning, spelling or pronunciation. Pause between the definitions to give learners time to work together and pool ideas. 3. Groups swap their papers and conduct whole group feedback, a point being awarded to each correct answer. The winning group has the most correct answers.

Standards/SLOs:

(G4.1.1.1) Listen to directions and instructions of four or more sequential steps, short monologues and dialogues of about five exchanges on familiar topics, delivered slowly and clearly; apply various strategies of listening and comprehension skills.

(G4.2.1.1.6) Participate in collaborative short conversations with others at grade-appropriate level, making comments and expressing needs and emotions.

(G4.2.1.1.7) Follow agreed-upon rules for discussions (for example, gaining the floor in respectful ways, listening to others with care, speaking one at a time about the topic under discussion).

(G4.2.1.1.8) Ask and answer questions to clarify information about topics and texts under discussion; make comments that contribute to the discussion.

(G4.3.3.1.1) Read and understand a variety of grade-appropriate short narratives, factual recounts and information texts.

(G4.3.6.1.3) Connect the information and events in a text or story to life experiences.

(G4.3.7.1.1) Build an increasing number of words and phrases through conversations, reading, or being read to; understand them when used by others, and produce these words themselves.

(G4.3.7.2.5) Learn to ignore difficult words that are not key to understanding the text and keep reading to the end.

Common misconceptions for learners, ways of identifying these and techniques for addressing these misconceptions: <ul style="list-style-type: none"> • It can be very stressful for learners to stand up at the front of the class and present their work, and themselves, to their peers. This raises anxiety in many learners, and particularly less able learners who are afraid of making mistakes in front of their peers. The teacher can manage this situation by providing safer, small group presentations and monitoring while these presentations are taking place, noting learners' strengths and weaknesses, as well as correct and incorrect language use for delayed error correction on the board.

Common misconceptions for learners, ways of identifying these and techniques for addressing these misconceptions: <ul style="list-style-type: none"> • Learners may struggle with words that have multiple opposites, for example <i>tall/short</i> and <i>long/short</i> and <i>heavy/light</i> and <i>dark/light</i>. Reassure learners that this can be confusing for native English speakers too! <i>Tall</i> and <i>long</i> are both measures of length, so <i>short</i> makes sense for both. <i>Light</i> can be identified from context whether it refers to brightness or weight. Remind learners to read the whole sentence before deciding which meaning is correct. 		
Resources/equipment needed: Learner's Book page 157 Activity Book page 109 Pictures of different kinds of animals. A selection of objects from inside and outside the classroom, for example a leaf, a pencil, a stone, a book (enough for each table to have four different objects).

Give each group four different containers, a large bottle, a funnel, a jug of water, a tray to catch spills and a marker pen. 3. Ask learners to start by labelling each container A–D, then guessing which will hold the most water and writing this down. 4. Ask learners to carry out the experiment to work out which container holds most water. They can look back at the Activity Book for guidance, or use another method of their own. At least one member of the group should write down notes about each thing they do. <p>Feedback</p> <p>Circulate around the class ensuring that each group is making progress and that all individuals within each group are engaged in the task. Ensure that each learner knows their own role within the group (see Differentiation activities). Ask learners to work as a group to ensure the sentences they write are correct.</p>

Resources	Starter
	1. Remind the class of the stories they read in previous units. Ask them to re-tell the stories. Which one did they like most? Ask them to justify their answers.
Resources	Main activity
Learner's Book page 159	<p>Talk about it: Activity 1</p> <ol style="list-style-type: none"> 1. Ask the class if they know any story that is about a very big or a very small character. Is the character a hero (a character who does good or brave things)? Or is she/he a bad character? 2. Elicit some answers, for example Thumbelina, local stories in the learners' own culture, etc. <p>Feedback</p> <p>Ask learners to join the discussion spontaneously. Write the names of stories mentioned on the board and ask if anyone else knows about them.</p>
Learner's Book pages 159 and 160 Audio Track 88	<p>Read and listen: Activity 2</p> <ol style="list-style-type: none"> 1. Read out the title. Ask learners what they think it means. 2. Look at the pictures and ask them to predict what the text is about. Is it a fiction or non-fiction text? How do they know? Play part one of the story at least twice. Were their predictions correct? 3. Tell the class about this story. <i>A Tall Tale</i> is a make-believe story about characters who are larger than life. It comes from North America. 4. Ask learners to re-read the story and look for words that are new to them. Encourage them to work out the meaning from the context. 5. Look at the <i>Language detective</i> box and discuss the word <i>earplugs</i>. Tell learners this is a compound word. Do they recognise any part of the word (prompt for <i>ear</i>). Look at the context with learners (loud noise). Elicit ideas for the meaning. <p>Feedback</p> <p>Nominate individual learners to start the discussion and then ask the class to join spontaneously. If necessary, ask follow up questions, <i>Do you agree with _____? What do you think?</i></p> <div style="background-color: #d3d3d3; padding: 5px;">Answers</div> <p>The text is fiction.</p> <p>Example clues: Artwork shows that Paul is much bigger than a real human. Paul does many things which are impossible for a real person, for example he eats enormous quantities of food, he cries so loudly that the house shakes. Impossible events happen, for example the frogs wear earplugs, the ox turns blue.</p> <p>Differentiation activities (Support):</p> <ol style="list-style-type: none"> 1. If learners are struggling with the amount of text in the story, remind them about structure. The first sentence of each paragraph will tell them what the paragraph is about, the rest of the paragraph gives more information. Ask them to read just the first sentence of each paragraph and identify one or two key words. This will give them a summary of the whole text and should give them confidence to move on to look at the rest of the text in more detail.

	<p>Differentiation activities (Stretch):</p> <ol style="list-style-type: none"> 1. Encourage learners to think about the words the author has chosen. Start with <i>tall tale</i> (an idiom for an exaggerated or untrue story, also referring to the fact that Paul is very big). 2. Why does the author list everything that Paul had for breakfast? Why didn't he just say that Paul ate a lot of food? (<i>It has more impact to list everything and makes it seem more real to the reader.</i>)
<p>Learner's Book page 160</p>	<p>Talk: Activity 3</p> <ol style="list-style-type: none"> 1. Put learners into groups of three or four. Ask each learner to take a turn explaining what is happening in each picture. They can work with a partner to explain to the others in the group. 2. Encourage the learners to ask each other questions about the pictures. 3. Ask each group to decide on their favourite part of the story so far then nominate someone to report back to the rest of the class. They will need to report on whether the group agreed on a favourite part, or not. <p>Feedback</p> <p>Draw learners' attention to different details in the story with questions, <i>What is Paul doing here? Why?</i> Ask learners to join in the discussion spontaneously, nominating individuals to start it off if no one volunteers.</p> <p>Answers</p> <p>Picture 1 Paul is lying next to the school because he is too big to go inside. The children are climbing on him. He is helping a child get his kite out of the tree.</p> <p>Picture 2 Paul is wrestling with Babe the Blue Ox.</p>
<p>Learner's Book page 160</p>	<p>Read: Activity 4</p> <ol style="list-style-type: none"> 1. Ask learners to read the sentences and decide if they are true or false. 2. Tell them to read the text again, if necessary. 3. Ask them to correct the false statements. <p>Feedback</p> <p>Ask learners to identify the key words in the question and then in the text. Ask for a show of hands for true and false.</p> <p>Answers</p> <p>1 false; 2 true; 3 true; 4 false; 5 false</p> <p>Sentence 1 is false because his parents were normal size.</p> <p>Sentence 4 is false because he met Babe in the winter (we know that because of the snow).</p> <p>Sentence 5 is false because his favourite food was pancakes.</p>

<p>Activity Book Page 111</p>	<p>Use of English: Activity 1</p> <ol style="list-style-type: none"> 1. Ask learners to read the <i>Why ... ?</i> questions and find the answers on pages 160–1 in the Learner’s Book. 2. Remind them of the use of <i>because</i> in the answers to <i>Why ... ?</i> questions. 3. Work through the first question with the class. Ask them to find the key words from the first question (<i>frogs, earplugs</i>) in the story. Ask them to read the sentences before and after to see if they can find a reason for the earplugs (they should remember the meaning of <i>earplugs</i> from Learner’s Book Activity 2). Ask learners to put a ruler underneath the part of the text that shows the answer to the question. Now complete the answer using the information from the text. <p>Feedback</p> <p>Encourage discussion of answers in pairs for peer assessment, then call on pairs to share their answers with the class.</p> <p>Answers</p> <ol style="list-style-type: none"> 1. The frogs started wearing earplugs because baby Paul cried so loudly. 2. Paul watched through the school window because he was too big to fit inside. 3. Impress upon learners that the purpose of the activity is not to complete the task correctly (measuring the straws), but to be able to give feedback about where the instructions are unclear. Remind learners that although this is a very simple experiment, clear instructions are needed for many much more complicated, and even essential processes. For example, if safety instructions are written badly, someone might not be able to operate a fire extinguisher, which could result in injury or death.

Ask learners to read the story in pairs, alternating reading out a sentence. Ask learners to note down any words they don't understand and try to work out a possible meaning from the context. 3. Read out the story to the learners, modelling correct pronunciation. Pause at the end of each paragraph and ask whether there is any unknown vocabulary. Prompt learners to discuss possible meanings of words and confirm correct guesses. If there are one or two words outstanding, choose learners to look them up in a dictionary and read out the definitions for the class. <p>Feedback</p> <p>Check for understanding of the story by asking a few comprehension questions: <i>Show me how big Meera was. Why was Sarah hurrying?</i> (They were a little late.) <i>Why did Meera fall?</i> (She leaned out too far). Encourage learners to join in spontaneously. Divide learners into mixed-ability groups of 4–6. 3. Hand out PCM 9 <i>Story planner</i> to each group and also PCM 10 <i>Story presentation</i> (you may need spares). Tell learners their group will need to write and illustrate a story with at least four pages. Show the <i>Story presentation</i> (PCM 10) so that learners can see what they will have to fill in. Explain to the learners that they will have four copies of PCM 10 - one copy to write page 1, one copy for page 2, one copy for page 3 and one copy for page 4. Explain that on each page there is a space to draw their picture (the top box) and then a space below to write their story. Write up on the board: <ul style="list-style-type: none"> <i>Page 1: Introduce your character.</i> <i>Page 2: Introduce the adventure.</i> <i>Page 3: Something exciting happens.</i> <i>Page 4: The end of the adventure.</i> Remind learners of how this story arc worked for the Paul Bunyan story: <i>First we learned about Paul and how big he was. Second, Paul's adventure was when he became a logger. Third, the exciting thing was when the logs were trapped in the river and Paul and Babe pulled it straight to set the logs free. Finally, the end of the adventure was when everyone ate pancakes from the big pan.</i> 4. Go through <i>Story planner</i> (PCM 9) and show learners how their group can plan what to put on each page of the story. In each part of the planner there are ideas for sentences.

	<p>5. Tell the learners they will need to divide up the roles to complete the project. Write these on the board: Brainstorming ideas: Everyone Write planning notes for each part of the story Draw picture ideas on the planner Write up the story on pages 1, 2, 3, 4 Draw the pictures on story pages 1, 2, 3, 4 Present the story to the class Answer questions about the story.</p> <p>6. Give the groups a few minutes to discuss roles and circulate making sure they are making decisions. If necessary, ask questions: <i>Who is good at drawing? Can you each do some of the writing? Who is good at speaking in front of the class? Will you each read some of the story out? Does everyone have some tasks to do?</i> If the group cannot come to a quick decision, help them to share out the writing so that each person will take on some of the burden. They can decide on pictures and presentation later in the task.</p> <p>7. Get the groups started with page 1–2 of the <i>Story planner</i> (PCM 9). Circulate, encouraging everyone to contribute ideas. If one person is dominating a group, intervene and ask others for their thoughts and comments. Keep learners focused on moving on. They will need to spend around five minutes per section on the planning. Writing up and illustration can be done more than one page at a time if the story has been planned out in advance.</p> <p>8. Collect in the stories at the end of the lesson and, if time allows, read through and leave some formative written feedback. Learners will have a few minutes at the beginning of the next lesson to make small changes.</p> <p>Feedback Circulate around the class ensuring that groups make progress with each part of the task and that no one learner is dominating a group too much. If all groups are struggling, call the class back together and go through one or two examples on the board, either one suggested by a learner or one of your own. At the end of the class, take in all work carried out so far so that everything is safely kept in one place for next lesson.</p>
	<p>Differentiation activities (Support):</p> <p>1. Encourage learners to contribute their ideas to the brainstorming session. If they are unsure about writing unscaffolded sentences, encourage them to draw the pictures, then describe their own drawings (or those of others). Encourage learners to think about single sentences they can contribute, rather than being daunted by the whole story. Learners may also wish to contribute some sentences orally, rather than in writing.</p>
	<p>Differentiation activities (Stretch):</p> <p>1. Encourage learners to take a lead in writing sentences in the planning section of the activity, but ensure that they know to include everyone’s ideas. In their groups, encourage learners to read any comments carefully and see if they need to make any changes. 2. Remind each group they need to decide how they will present their story and who will answer questions from the class. It might be a good opportunity to have each group presenting in front of the class. Alternatively, to reduce stress levels, it might be a good idea to take more of a carousel approach, with groups moving round, presenting to each other in small groups, so that groups A and B present to each other, while groups C and D present to each other. 3. Presentation: Each group has five minutes to present their story, with two minutes for questions and comments at the end. Write up on the board the things you want the class to make notes about: <ol style="list-style-type: none"> 1. <i>What is the story about?</i> 2. <i>What is your favourite bit of the story?</i> 3. <i>How did the story make you see the world from the viewpoint of the main character?</i> 4. After the first presentation, ask a question yourself about the story, for example <i>How did you choose your character's adventure? How did you make sure the words and pictures work together?</i> 5. Encourage a few learners to comment on each story and to ask questions if they wish. 6. If the stories have changed from the versions in the previous lesson, collect up again and return with written feedback if time allows. <p>Feedback</p> <p>Use the prompts on the board to encourage learners to comment on others' stories. Write: Activity 2

1. Ask learners to look at the family words from Activity 1 and choose four of them.
2. Read out the example.
3. Learners write their sentences. Monitor carefully when learners are on task and step in to upgrade language as necessary. Remind them that they should write in print rather than cursive.

Feedback

After learners have checked their answers with a partner, ask them to swap their books with another partner and to self-check. If learners are unsure whether an answer is correct or not, they can ask for input.

Answers

Differentiation activities (Support):

1. Prompt learners by asking them about their own families, for example *What does your grandfather like to watch on TV?*

Differentiation activities (Stretch):

1. If learners complete the task quickly, ask them to extend their sentences using conjunctions, for example *My grandmother is a fantastic cook, but my sister isn't.* and *My dad works online a lot and plays computer games, too.*

	<ol style="list-style-type: none"> To round off the lesson, divide learners into small teams, allocating to each one both more and less able learners equally, as far as possible. Say one of the key family words and get the learners to raise their hands to give an answer. If they pronounce and spell the word accurately, they gain a point for their team. Make sure that each learner has a turn and that more vocal learners don't dominate the teams. The winning team is the one with the most points at the end of the game.

Encourage these learners to take risks by prompting them to think of other words that may have similar meanings, giving positive feedback for guesses made, even if they are not correct. This will enhance learners' confidence when taking risks with the language. Moreover, it is important for learners to be aware of phrasal verbs, as some of them are very commonly used in everyday language.

Ask the learner questions, for example, <i>What's your name? How old are you? How many brothers and sisters do you have?</i> Highlight the use of the contraction: <i>What's</i>. Show the learners that you are filling in the Fact File for your partner and your partner is filling in the Fact File for you. 3. Learners work in pairs to complete the Fact Files about each other. <p>Feedback</p> <p>After learners have asked and answered the questions, nominate learners to give the questions they used. Write the first two answers on the board and elicit from learners how to join the sentences together and make a longer one, using <i>and</i> and <i>but</i>. 3. Learners then complete and write the sentences about their friend using the information from the Fact File. <p>Feedback</p> <p>Ask learners to swap their Activity Book with a partner for their partner to correct. Write a checklist on the board to support learners, for example, capital letters, <i>and</i>, <i>but</i>, <i>both</i>, <i>too</i>. Learners can use the checklist to upgrade their partner's work. Resources	Starter
	<ol style="list-style-type: none"> 1. Draw a football, a tennis racket and a horse on the board and elicit the different sports from the learners: football, tennis and horse riding. 2. Ask learners to rank the three sports, for example, their favourite one is number one, then number two and then their least favourite is number three. 3. Ask learners to compare their answers with their partner to see if they have the same answers. Promote further discussion.
Resources	Main activity

Ask learners to look at their Learner's Book page 169 and to read the paragraph headings 1–4. 2. Learners then listen to and read the text, and match the correct heading with each paragraph. 3. This is an excellent opportunity to bring out the difference between a personal recount and a story, as the learners will come into contact with a story later in the unit, so they can compare it more directly to this text then. <p>These are the features of a personal recount:</p> <ul style="list-style-type: none"> – events are usually told in chronological order from the beginning of someone's life – the writing takes the form of a description of happenings in that person's life – the last part of the recount is usually a reflection on the person's life, for example here, Omar talks about the influence his family has had in his life. <p>A story, on the other hand, often begins with background information, sometimes using the past perfect, to set the scene;</p> <ul style="list-style-type: none"> – we are then introduced to the characters – there is often a problem or challenge for the characters to resolve

	<ul style="list-style-type: none"> – the narrative is often intriguing as we are drawn into the story to try and see how the characters will solve or deal with the problem or challenge – there is then a conclusion – the events are not necessarily told in chronological order. <p>Feedback</p> <p>After learners have checked their answers in pairs or small groups, nominate learners for feedback by asking them to raise their hands.</p> <p>Answers</p> <p>1C 2D 3B 4A</p> <p>Differentiation activities (Support):</p> <p>1. Each group takes one piece of paper and tears it into three pieces. On the first piece, the learners write <i>do</i>, on the second piece they write <i>play</i>, and on the third piece they write <i>go</i>. All three pieces are then placed in the middle of the learners' table/s. 2. Call out different sports from the lesson. The learners have to discuss in groups, then grab the verb that collocates with each noun and hold it up. Each team wins a point for a correct collocation. 3. You could extend the learners' lexical range further. For example, after calling out the word <i>judo</i> (<i>do</i>) call out <i>karate</i> and indicate that it is also a match for <i>do</i>. Repeat with <i>tae kwondo</i>. The team with the most points, wins.

Resources	Starter
	<ol style="list-style-type: none"> 1. Ask learners how people communicate with each other, for example, by writing a letter, writing a postcard, calling on a mobile phone, using WhatsApp, using Facetime, Facebook, Skype. You can show examples using a phone or the Internet if learners are unsure. 2. Ask learners to work in small groups and think of as many different ways of communicating as they can. 3. Brainstorm learners' ideas on the board and add some more examples, ensuring that you have <i>postcard</i> as one of the answers. It's also a nice idea to bring in real postcards to share with the class if you have them available.

Ask learners to have a look at the questions and answers before they listen and read. They could try and predict the answers before they listen and read. 3. Play the audio. 4. Encourage learners to check their answers with their partner or small group. <p>Feedback</p> <p>Invite learners to raise their hands to give answers.</p> <p>At this point you could take the opportunity to discuss the features of a factual recount, which can take the form of biographies, letters/postcards, textbooks or conversations with friends.</p> <p>They generally have the following structure:</p> <ul style="list-style-type: none"> – an introductory paragraph or line which gives information about who/what/where/when/why; these are all answered in the first part of the postcard here when we find out about Noura, where she is, who she is with and what she's doing. – the sequence of events: here we find out what Noura did yesterday. – the conclusion or re orientation: Noura gives her opinion on the camel ride and the food, then finally outlines what she plans to do next, finishing off by referring back to the reader (Khulood)'s situation. <p>Factual recounts are written in chronological order, are sequential, contain descriptions and generally also have descriptions and/or personal reflections. Often learners will place the adverb after the main verb, rather than before, and will often omit the third person present simple suffixes as well. Clear written examples on the board will help scaffold the tasks, as well as the teacher encouraging the learners to notice the word order by highlighting the adverb in colour or underlining it, or by using different fingers to represent words during verbal error correction. The learners will have further practice of sentence word order through re-ordering tasks and producing the structure themselves orally.

Learning objectives: Listening: To listen for weak forms in phrases about household chores. Speaking: To ask and answer questions about household chores. Reading: To read and understand instructions. Writing: To write sentences about what they do to help in their home.		Learning outcomes: By the end of the lesson, learners will be able to ... <ul style="list-style-type: none"> • use a range of theme-related vocabulary • use dictionaries more autonomously to identify the meaning of new lexis • rank theme-related lexis according to personal preferences • write sentences using a range of theme-related lexis • ask and answer questions about chores at home.
Link to prior learning: <ul style="list-style-type: none"> • The present simple • Free-time activities • Use coordinating conjunctions <i>and</i> and <i>but</i> • <i>too</i> and <i>both</i> and <i>but</i> • Question word order • Frequency adverbs 21st Century Skills: <ul style="list-style-type: none"> • Learning and Innovation Skills: Introduce creative thinking activities – such as brainstorming – to learn to share and respect all ideas. 		
Key vocabulary: <i>to sweep the floor, to make the bed, to cook, to tidy, to do the laundry, to lay the table, to do the washing up, to mop the floor, to dust, to dry the dishes</i> Key expressions/structures: Present simple; frequency adverbs		
Common misconceptions for learners, ways of identifying these and techniques for addressing these misconceptions: <ul style="list-style-type: none"> • Learners of this age tend to be very dependent on the teacher in terms of providing input. To encourage collaboration and more learner autonomy, learners will work in small groups and use dictionaries in order to identify the meaning of new household chores-related lexis. • Learners tend to stress every word equally and are unaware of the use of weak forms in connected speech. To raise awareness of this, repeating after the recorded oral model and encouraging learners to identify the stronger sounding (stressed) words in the phrase will help learners to notice these features, making them sound more natural when producing the vocabulary.

UNIT 10 LESSON 9 TASKS/ACTIVITIES

Please also refer to the *Teaching Strategies* section of the Teacher's Guide (pages 6 to 10).

Resources	Starter
	<ol style="list-style-type: none"> 1. On the board, draw a mind-map with the title <i>Household chores</i> written inside. Give some examples: <i>In the morning, I make the breakfast and then I sweep the floor.</i> Mime each activity to support meaning. Ask the learners for a few more examples of household chores. Mime <i>cook</i> and <i>iron</i>, for example. Drill chorally and individually. Write the words on the board for the learners to copy in their notebooks. 2. Drill the phrase <i>I sweep the floor</i>, emphasising the main stresses on <i>sweep</i> and <i>floor</i>. Elicit from the learners if <i>the</i> is stressed or not (not). Drill the group chorally then individually. 3. To encourage learners to notice the weak form in the phrases, encourage them to clap the beat for each phrase, for example learners clap on <i>sweep</i> and <i>floor</i> as they orally produce the phrase.
Resources	Main activity
<p>Learner's Book page 174</p>	<p>Talk about it: Activity 1</p> <ol style="list-style-type: none"> 1. Ask learners to work in pairs and think of more examples of jobs in the house. 2. Encourage learners to mime the action if they are not sure of the word and input vocabulary as necessary. Ensure that there is a classroom dictionary available so that learners can develop autonomy and look up new lexis. Bear in mind that they might need further help with how to use a dictionary, for example, with the order of the English alphabet, how dictionary entries are set out and what sort of information you can find there. Ask learners to read the <i>Speaking tip</i> box. 3. Monitor carefully when learners are on task and make notes of new lexis used. <p>Feedback</p> <p>Using the notes made during monitoring, add more examples to the mind-map on the board. Drill chorally and individually, stressing the content words and weakening the unstressed words. Give clear oral models for learners as you provide the example that they will repeat.</p> <p>Answers</p> <p>Learners' own answers</p> <p>Differentiation activities (Support):</p> <ol style="list-style-type: none"> 1. Ask these learners to provide two examples of household chores from the dictionary. It will take longer for these learners to use the dictionary, so allow more processing time for this. <p>Differentiation activities (Stretch):</p> <ol style="list-style-type: none"> 1. Encourage learners to share their new lexis with the rest of their group or partner. Ask learners to think of an additional three examples of household chores.
<p>Learner's Book page 174</p> <p>Audio Track 96</p>	<p>Write and listen: Activity 2</p> <ol style="list-style-type: none"> 1. Ask learners to look at the pictures and to tell their partner any of the phrases that they know. 2. Give an example using number 1 so that the learners have a model of what you want them to do in the task. Ensure that dictionaries are available for learners to access. 3. Learners work individually to match the visual with the correct vocabulary. Play the audio so they can check answers.

	<p>Feedback</p> <p>After learners have checked their answers in pairs or small groups, play the audio for learners to self-check their answers. Once learners have checked, either use the audio as an oral model (pausing and giving learners time to repeat the vocabulary) or drill the vocabulary, paying attention to sentence stress.</p> <p>Answers</p> <p>1. sweep the floor 2. dry the dishes 3. make the bed 4. mop the floor 5. do the washing up 6. lay the table</p> <p>Differentiation activities (Support):</p> <p>1. Ask learners to describe what they can see in each picture to their partner. Give these learners extra processing time when using the dictionaries. To help learners assimilate the names of the chores in English, you could get them to mime each chore as they say the phrases.</p> <p>Differentiation activities (Stretch):</p> <p>1. Ask these learners to think of an additional three examples of household chores. Learners then share their ideas with their partner.</p>
<p>Learner's Book page 174</p>	<p>Write: Activity 3</p> <p>1. Ask learners to read the instruction. Elicit a couple of example sentences on the board using <i>and</i> and <i>but</i> to create longer sentences and the target vocabulary of household chores.</p> <p>2. Learners write about the chores they do at home.</p> <p>3. Monitor carefully and point out errors with punctuation as needed. If learners only write one or two sentences about the chores they do, encourage them to write sentences about the household chores that their parents do as well. Tell learners that they should write in print form rather than cursive.</p> <p>Feedback</p> <p>After learners have checked their sentences in pairs, ask a few learners to read out their examples.</p> <p>Answers</p> <p>Learners' own answers</p> <p>Differentiation activities (Support):</p> <p>1. Ask learners to use <i>and</i> and <i>but</i> in their sentences. Highlight the examples on the board.</p> <p>Differentiation activities (Stretch):</p> <p>1. Ask learners to categorise the vocabulary on the board mind-map, according to who does which household chore in their home, for example <i>My mother cooks and my grandmother does the laundry. My father cleans the car and my brother tidies the living room.</i></p>

Activity Book page 122	<p>Read: Activity 1</p> <ol style="list-style-type: none"> 1. Ask learners to read the list and, as a whole group, think of actions for each verb. Ask them to mime the language to elicit and check the vocabulary. 2. Learners then read the list again and tick the check boxes next to the chores they do at home. When they have finished, ask learners to look at the list again, and rank them, with number 1 being the chore they like the most, and 6 being the chore they like the least. Learners work individually and rank the items. 3. Learners then compare their list with their partner's. <p>Feedback</p> <p>Ask learners to raise their hands if they chose 'sweep the floor' as their number one choice. Continue in this manner for the rest of the feedback. If they can, ask them to give reasons for their rankings.</p> <p>Answers</p> <p>Learners' own answers, but all answers will be based on the target vocabulary for the task.</p>
Activity Book page 122	<p>Word study: Activity 2</p> <ol style="list-style-type: none"> 1. Ask learners to look at the gapped words and complete the first example with the whole group as a model. 2. Ask learners to work individually to complete the gapped chores. 3. Ask learners to compare their answers with their partner. <p>Feedback</p> <p>Ask the whole group to chant the spelling as you write the numbered answers on the board.</p> <p>Answers</p> <p>1 make the bed 2 dry the dishes 3 do the washing 4 lay the table 5 mop the floor 6 sweep the floor</p> <p>Differentiation activities (Support):</p> <ol style="list-style-type: none"> 1. Encourage learners to use their Activity and Learner's Books to help support their spelling of the vocabulary items, as needed. <p>Differentiation activities (Stretch):</p> <ol style="list-style-type: none"> 1. Ask these learners to work in pairs or small groups and ask each other how to spell the vocabulary items.
Resources	<p>Plenary</p> <ol style="list-style-type: none"> 1. To round off the lesson, ask learners to look at their top two choices of household chores (the idea is to have a positive attitude to doing chores and helping in the house). Learners work in small groups and tell their group their choices and give their reasons. The group has to work together to choose the group's top two chores. 2. Once the small groups have decided on their top two choices, they join another group and share their choices. The group now has four choices and must negotiate with each other to choose the new group's top two. This is a very much simplified pyramid discussion and, as much as possible, try to encourage learners to give reasons for their choices rather than simply stating them. 3. This continues until it is the whole group choosing their top two choices. If learners are having difficulties deciding, you can take a class vote, with learners raising their hands.

Learner's Book page 175 Audio Track 97	<p>Read and listen: Activity 2</p> <ol style="list-style-type: none"> 1. Tell learners that they are going to listen to and read a story about helping people and being kind to others. Ask learners to look at the pictures and discuss in pairs what they think happens in the story. Write key vocabulary on the board. 2. Elicit some examples from learners, based on the visuals. Encourage them to use language of prediction, such as: <i>I think ...</i>, <i>Perhaps ...</i>, <i>Maybe ...</i>, <i>It looks as if ...</i>, <i>I'm guessing that ...</i> 3. Ask learners to listen and read and see if their predictions are correct. It is important to emphasise that it is not necessary for learners to understand everything in the text as they are only listening to see if their predictions were correct or not. Play the audio. 4. This is an excellent opportunity to bring out the difference between a personal recount and a story, as the learners came into contact with a personal recount about Omar Abdulrahman earlier in the unit, so they can compare it directly with that.

	<p>These are the features of a personal recount:</p> <ul style="list-style-type: none"> – events are usually told in chronological order from the beginning of someone’s life – the writing takes the form of a description of happenings in that person’s life – the last part of the recount is usually a reflection on the person’s life, for example, Omar talked about the influence his family had in his life. <p>A story, on the other hand, often begins with background information, sometimes using the past perfect, to set the scene;</p> <ul style="list-style-type: none"> – we are then introduced to the characters, in this case, the old man, Tariq and Fares. – there is often a problem or challenge for the characters to resolve; in this case Tariq wanted to help the old man, but Fares didn’t. – the narrative is often intriguing as we are drawn into the story to try and see how the characters will solve or deal with the problem or challenge; here we would like to know how Fares reacts to Tariq giving away their food and water – there is then a conclusion; here it is that the old man finds his son and gives the young men a seed which they then benefit from in later years. So the conclusion or moral of the story is that helping other people is a good thing to do, and might bring you benefits, but you shouldn’t really help people just to gain benefits. – NB The events in a story are not necessarily told in chronological order – they might just be told in the order in which they affect the characters. <p>Feedback</p> <p>After learners have checked their predictions with a partner, ask individuals to read out loud the predictions on the board and get learners to raise their hands if a prediction was correct. Tick the correct predictions and cross the incorrect ones. Remember to highlight the diphthongs that the learners became familiar with in the earlier grades and practise them again; in this text we have the following words:</p> <p>/aɪ/ ride, tired, climb, smiled /eə/ share /eɪ/ date</p> <p>Drill the pronunciation of these words, chorally and individually.</p> <p>Answers</p> <p>Learners’ own answers, but their predictions should be closely related to the visual prompts, for example, <i>There was an old man walking on a road, two men arrived on a horse and cart, they gave him some food, they took him to the market, he met his son there.</i></p> <p>Differentiation activities (Support):</p> <ol style="list-style-type: none"> 1. Ask these learners to listen and read to find out if just two of the predictions are correct or not. <p>Differentiation activities (Stretch):</p> <ol style="list-style-type: none"> 1. Ask learners if there is any more additional information about the story that they can remember. Learners share their answers with a partner.
<p>Learner’s Book page 176</p>	<p>Read: Activity 3</p> <ol style="list-style-type: none"> 1. Ask the learners to read through the summary sentences that are in the wrong order. 2. <p>Activity Book page 123</p>	<p>Use of English: Activity 1</p> <p>1. Ask learners to look at the list of things we can do to help and be kind to other people.</p> <p>2. Model an example with learners by writing a sentence on the board, for example, <i>I'll help my mother and clean my room.</i> Highlight the use of the contraction and drill it with the learners; as it's traditionally pronounced with a schwa it can be a particularly tricky sound for them.</p> <p>3. Learners then complete the task individually before comparing their answers with their partner.</p> <p>Feedback</p> <p>Nominate learners for feedback by name. Focus on the idea that helping and being kind to others makes other people happy.</p> <p>Answers</p> <p>Learners' own answers, based on the vocabulary items in the list, but they should use <i>will</i> in its contracted form.</p>

<p>Activity Book page 123</p>	<p>Write: Activity 3</p> <p>1. Learners write three sentences about what Tariq and Fares did to help the old man.</p> <p>2. Encourage learners to work in pairs or small groups to write their sentences.</p> <p>Feedback</p> <p>Nominate learners by asking them to raise their hands for feedback.</p> <p>Answers</p> <p>Possible answers include:</p> <p>1 They gave the old man a ride to the market.</p> <p>2 They gave the old man bread and cheese.</p> <p>3 They gave the old man some water.</p>

	<p>1. To round off the lesson, ask learners to work in small groups. Ask learners to brainstorm ideas about how they can help and be kind to the teacher or their classmates at school, for example <i>help tidy up the classroom, put pens back in the pot, clean the board</i>. You could refer back to Unit 2 in the Learner's Book, where Bear, Bat and Kangaroo helped Duck to find stationery so he could finish and colour his drawing.</p> <p>2. Elicit examples (at least eight to ten) from the learners and write them on the board. Give each group a piece of poster paper. Write <i>Helping and being kind in the classroom</i> on the board and ask learners to write the heading on their group's poster.</p> <p>3. Each group decides on five ways to help and be kind in the classroom. Learners can use the examples on the board, or think of other examples. Learners then write on their posters and these can be displayed on the classroom walls.</p>

Ask the learners to look at the <i>Language tip</i> box before they begin so they can see how some negative adjectives are formed. 2. Ask learners to read the adjectives in the table. Working in small groups, get learners to use dictionaries to look up words they are not sure about. They may find the antonym listed there too. 3. Ask learners to give example sentences for the adjectives in the table, to clarify they have understood the meaning of the lexis, for example, <i>What makes you happy? Why is it important to practise English?</i> 4. Copy the table onto the board and underline <i>happy</i>. Elicit the opposite adjective from learners: <i>unhappy</i>. Elicit from learners, <i>What is the difference?</i>, indicating the prefix <i>un-</i>. <i>Do these words 'happy' and 'unhappy' mean the same? No. What is another word that means 'unhappy'? Sad.</i> Give another example with the learners using the adjective <i>kind</i>. Learning outcomes: By the end of the lesson, learners will be able to ... <ul style="list-style-type: none"> • review theme-related vocabulary • share information about their daily routines with a peer • use a greater range of theme-related lexis • listen for detailed information in a text • reflect on their language strengths and areas to develop.

Common misconceptions for learners, ways of identifying these and techniques for addressing these misconceptions: <ul style="list-style-type: none"> • Learners can find it very challenging to listen to audio when there is minimal visual support, as they believe that they have to understand every word in the text. The teacher can support this by clearly stating that learners only need to focus on the specific question and by asking learners to underline key words in the questions to guide the learners' listening.

Encourage the learners to look back through Unit 10 in both their Learner’s and Activity Books to support the tasks, if needed. • Working in pairs can be redundant if a more able learner is dominating the tasks. It is important to monitor learners carefully to see which learners are able to support, but not dominate, less able learners. Manage pairwork effectively by asking these supportive learners to work with a variety of less able learners. It is a good idea to change pairings when appropriate so that learners have the opportunity to work with a variety of partners and don’t fall into the habit of always being the dominant or less dominant one in the pair.

Make sure you keep the language level at an appropriate level in line with the learners' language abilities and knowledge of vocabulary. These also provide a good model for learners to base their projects on. Prepare a project checklist for learners that includes the following items: <i>My work is organised. My handwriting is neat. My spelling is correct. I used correct capital letters and full stops. I wrote my name on the poster. I listened to my friends' ideas and helped my team. Quiz	Student presentation	Written work and feedback	Verbal feedback

Standards/SLOs:

(G4.1.1.1) Listen to directions and instructions of four or more sequential steps, short monologues and dialogues of about five exchanges on familiar topics, delivered slowly and clearly; apply various strategies of listening and comprehension skills.

(G4.2.1.1.1) Give personal information; express interest, wants, needs, likes, dislikes, ability and obligation.

(G4.2.1.1.7) Follow agreed-upon rules for discussions (for example, gaining the floor in respectful ways, listening to others with care, speaking one at a time about the topic under discussion).

(G4.2.1.1.8) Ask and answer questions to clarify information about topics and texts under discussion; make comments that contribute to the discussion.

(G4.3.1.1.2) Know the vowel phonemes /eə/, /ɪə/, /ə/ and their corresponding common spelling.

(G4.3.2.1.3) Read unfamiliar multi syllabic words applying sound correspondences, syllabication patterns, and roots and affixes.

(G4.3.7.1.1) Build an increasing number of words and phrases through conversations, reading, or being read to; understand them when used by others, and produce these words themselves.

(G4.3.7.2.6) Use dictionaries or other online or print references to find the pronunciation, precise meanings of words and phrases; use dictionaries or other online or print references to find other features of unknown words.

(G4.4.3.1.4) Use coordinating conjunctions (for example, *and*, *but*).

(G4.4.4.1.4) Correctly spell high-frequency and studied words; use knowledge of word families to spell single and multi syllable words.

<p>Common misconceptions for learners, ways of identifying these and techniques for addressing these misconceptions:</p> <ul style="list-style-type: none"> • The learners will be introduced to <i>may</i> and <i>might</i> for talking about possibility. At this level, learners do not need to be exposed to the subtle differences between these two modal verbs and therefore will be introduced to the idea that both can be used to express possibility, for example <i>I might try and answer the question, It may be difficult to answer</i>. In practice, the two are generally interchangeable in the present tense, in the contexts where the learners will be using them. Typically, learners will over generalise the third person present simple ending, either with the modal verb or the main verb, for example, <i>He mights finish his homework</i> and <i>She might goes to her friend's house</i>. Give clear written models on the board using the third person with these modals, for example <i>He might give his friend his pen</i>. Ask the learners: <i>Will he give his friend the pen? Maybe/maybe not. Is it possible he'll give the pen to his friend? Yes.</i>

UNIT 11 LESSON 3 TASKS/ACTIVITIES

Please also refer to the *Teaching Strategies* section of the Teacher's Guide (pages 6 to 10).

<p>Resources</p>	<p>Starter</p> <ol style="list-style-type: none"> 1. Ask learners to do a spelling race at the board, recycling the previous lesson's vocabulary. 2. Assign one writer for each team and award one point for accurate spelling and legibility. 3. Change writers frequently. At the end, provide oral models and drill chorally and individually.
<p>Resources</p> <p>Learner's Book page 183</p>	<p>Main activity</p> <p>Talk about it: Activity 1</p> <ol style="list-style-type: none"> 1. Ask learners to think of five ways they can help each other at school. 2. Elicit an example, so that learners have a clear idea of what they have to do in the task. 3. Learners brainstorm their ideas in pairs. Monitor carefully, picking up on appropriate content during their discussions. <p>Feedback</p> <p>Nominate learners for feedback, picking up on content ideas from monitoring the task.</p> <p>Answers</p> <p>Learners' own answers</p> <p>Differentiation activities (Support):</p> <ol style="list-style-type: none"> 1. Encourage these learners to think about what they do in the classroom, for example, <i>Do you put your hand up to answer a question? Do you help your friend? Do you ask your friend if they are OK?</i> <p>Differentiation activities (Stretch):</p> <ol style="list-style-type: none"> 1. Ask these learners to provide another two examples of how to help at school.
<p>Learner's Book Page 183</p> <p>Audio Track 101</p>	<p>Read and listen: Activity 2</p> <ol style="list-style-type: none"> 1. Ask learners to read the sentences first to focus them on the specific information they are listening and reading for in the text. Remind learners of the diphthongs from Grades 2 and 3: /aɪ/, /eɪ/ and /aʊ/ and ask them to find words in the text with those diphthongs. 2. Learners listen to the audio and answer true or false. 3. Ask learners to check their answers in pairs or small groups before playing the audio again. <p>Feedback</p> <p>Give learners two small pieces of different coloured paper or card. If they think the answer is true, they hold up one colour and if they think the answer is false, they hold up the other colour. This works well with brightly coloured paper, for example, yellow and green. Ask the whole group to raise the correct card for number one, number two, and so on.</p> <p>Answers</p> <p>1 T 2 F 3 T 4 T</p>

	<p>Differentiation activities (Support):</p> <p>1. Before feedback on the task, give learners a chance to practise with the different coloured cards to ensure that they know which is true and which is false. This will help support these learners and encourage more active participation during the whole group feedback stage.</p> <p>Differentiation activities (Stretch):</p> <p>1. Encourage these learners to check their answers with less able learners. Rather than telling their peers whether the answer is true or false, encourage these learners to help their peers find the relevant information in the text and underline or highlight it.</p>
<p>Learner’s Book Page 183</p>	<p>Use of English: Activity 3</p> <p>1. Write sentences 1 and 3 from Activity 2 on the board: <i>You might tell your friends when they do something well and You may ask your friend to help you.</i> Underline <i>might tell</i> and <i>may ask</i> in a different colour. Ask the learners, <i>Will you tell your friends? Maybe yes, maybe no, it is possible. Will you ask your friend to help you? Maybe yes, maybe no, it is possible.</i></p> <p>2. Drill the two target sentences chorally and individually. Focus learners on the pronunciation of the diphthongs /aɪ/ in <i>might</i> /maɪt/ and /eɪ/ in <i>may</i> /meɪ/ from earlier grades.</p> <p>3. Ask learners to read the <i>Use of English</i> box and then read the questions and tick if the actions are possible for them. Learners then compare their answers with their partner.</p> <p>Feedback</p> <p>Nominate learners by asking them to put their hands up. Upgrade pronunciation as required using both choral and individual drilling.</p> <p>Answers</p> <p>Learners’ own answers</p>
<p>Activity Book page 128</p>	<p>Read: Activity 1</p> <p>1. Ask learners to read the list of activities for helping at school last week.</p> <p>2. Learners tick the sentences for the things that they did and then compare their answers with a partner or small group.</p> <p>3. Encourage learners to support their chosen statements, by giving extra details, for example <i>I helped my friend with spelling when he couldn’t spell ‘friendly’.</i></p> <p>Feedback</p> <p>Nominate learners to raise their hands for feedback and discuss how their answers can be extended.</p> <p>Answers</p> <p>Learners’ own answers</p>
	<p>Differentiation activities (Support):</p> <p>1. These learners will need extra support when supplying evidence for their ‘helping deeds’ last week so encourage them to give examples through guided questioning, for example, <i>What did you do? Who did you help? Were they happy you did that/ helped them?</i></p> <p>Differentiation activities (Stretch):</p> <p>1. Encourage learners to think of an additional example of a ‘helping deed’ they did at school last week. Ask learners to compare their answers with a partner.</p>

Activity Book page 128	<p>Write: Activity 2</p> <ol style="list-style-type: none"> 1. Elicit some examples of the things learners might/may do at school to be helpful. 2. Focus learners on the task instructions and ask them to write five sentences. 3. Ask learners to work in small groups and compare their answers. Circulate and offer any help as necessary. <p>Feedback</p> <p>Nominate learners by asking them to raise their hands.</p> <p>Answers</p> <p>Learners' own answers</p> <p>Differentiation activities (Support):</p> <ol style="list-style-type: none"> 1. You might like to provide some sentence stems for these learners so they have further scaffolding for the activity. While they are writing, circulate and offer help with expression and spelling. <p>Differentiation activities (Stretch):</p> <ol style="list-style-type: none"> 1. Ask these learners to read, comment on and correct each other's work.
Resources	<p>Plenary</p> <ol style="list-style-type: none"> 1. To round off the lesson, split the class into two groups, the teachers and the learners. 2. Pair up a 'teacher' with a 'learner'. The 'teachers' ask the 'learners' what they might/may do to help at school, and the 'learners' give suggestions. 3. The 'teachers' interview the 'learners', and then they swap roles. Once they have finished their dialogues, they find another partner, so that they can recycle the task and develop fluency and confidence. If there is time, learners could swap roles.

It is very important at this stage that the idea of a hero or a heroine is elicited from the learners, along with the understanding that not all heroes are famous or rich. Heroes and heroines can also be people that we know and see every day (ordinary people). Focus on the idea that heroes and heroines have positive qualities, and we need to try and be like them. 3. Ask learners to underline the words. 3. Play the audio for learners, pausing at the end of each sentence to allow for additional processing time. Ensure that you have a pre-prepared list of words with <i>/eə/</i> and other diphthongs before the task begins. Remember that the focus is for the learners to identify <i>/eə/</i>, not the word! To challenge learners a little more, you can ask them to close their eyes, rather than copy their classmates when they raise their hands. Once learners have had several practice rounds, ask them to stand in a line at the front of the class, with each learner looking at the back of the learner in front. Place the rope/ribbon/string on the ground next to the learners' left feet. Place a flashcard with <i>/eə/</i> on it on the side of the rope/ribbon/string that is opposite to where the learners are standing. 2. Model the task for learners. Call out a word (from your pre-prepared list) and jump to the side of the rope with the flashcard if the word has the sound <i>/eə/</i>. Say a word without the phoneme <i>/eə/</i>, and jump back to the other side of the rope. Do a few practice rounds with the learners and then call out the words. If a learner makes an incorrect jump, or moves to jump, they are out. Increase the speed of delivery until there is only one learner left, who is the winner.

UNIT 11 LESSON 6 TASKS/ACTIVITIES

Please also refer to the *Teaching Strategies* section of the Teacher's Guide (pages 6 to 10).

Resources	Starter
	<ol style="list-style-type: none"> 1. Ask the learners to work in small groups and look through Unit 11 of their Learner's Book and choose a lesson (from Lessons 1–5) that they liked the most. 2. Learners discuss their favourite lessons with their small group, telling each other why they liked their specific choice the most. 3. Ask each group to raise their hand if they liked Lesson 1, Lesson 2 and so on, eliciting reasons from them.
Resources	Main activity
Learner's Book page 186	<p>Write: Activity 1</p> <ol style="list-style-type: none"> 1. Ask learners to read the adjectives in the box and work with a partner or small group to check the meanings. 2. Give an example so that learners are clear what they have to do in the task, for example, <i>My father is hard-working because he goes to the office every day and works long hours</i> and <i>My friend is polite because she says 'please' and 'thank you'.</i> 3. Learners work individually and write four sentences. Learners compare with a partner or small group when they have completed their work. Circulate and give help with spelling and expression. <p>Feedback</p> <p>After learners have compared their answers in pairs or small groups, nominate individual learners for feedback by asking them to raise their hands.</p> <p>Answers</p> <p>Learners' own answers</p> <p>Differentiation activities (Support):</p> <ol style="list-style-type: none"> 1. When they have ranked their choices, learners compare their answers with their partner and negotiate their top two choices. 3. Pairs then work together to choose their group's top two choices. Create larger groups until the class is divided into two groups. <p>Feedback</p> <p>Once the task is at the two-group stage, ask learners to put their chairs into a circle (alternatively, ask learners to stand in a circle) and the whole group has to decide which are the top two choices.</p> <p>Answers</p> <p>Group's choice of top two items from the list provided.</p> <p>Differentiation activities (Support):</p> <ol style="list-style-type: none"> 1. Prompting from the teacher before the learners begin the task will activate their background knowledge.

	Differentiation activities (Stretch): 1. Ask these learners to focus on how to improve the areas they feel they still need to work on. Learners can work with a partner and think of ideas for how to develop, for example, <i>I'll practise spelling personality adjectives and use them when I speak.</i>		
Resources	Plenary		
	<p>1. To round off the lesson, have a spelling bee competition. Put the learners into two teams, A and B, with chairs on opposite sides of the classroom, if possible. Give the learners a number according to where they are sitting in the line, for example, number one, number two, number three, etc. It is a good idea to have a couple of practice rounds before the game begins.</p> <p>2. Ask team A, number 1, to spell a word or phrase. This could be lexis from this lesson, or from any of Lessons 1–5. If the learner spells the word or phrase correctly, they win a point for their team. If not, the word/phrase is given to team B to spell. Make it clear to the learners that they cannot help the speller by whispering the correct answer.</p> <p>3. The teams take it in turns to spell the words/phrases. The winning team is the one that has the most points at the end of the game.</p>

Resources	Starter 1. Display the photos or pictures of Iftar foods, people praying, Ramadan lanterns and the crescent moon. Ask learners to describe what they can see. 2. Ask learners to discuss which celebration all the pictures are of (Ramadan). 3. Ask learners to discuss why the Holy Month of Ramadan is so important and write on the board some of the learners' ideas.
Resources Learner's Book page 189	Main activity Talk about it: Activity 1 1. Ask learners to work with a partner or small group and discuss what they usually do during the Holy Month of Ramadan. 2. Elicit a few examples and write them on the board. <u>Feedback</u> Nominate learners by asking them to raise their hands. <div style="background-color: #e0e0e0; padding: 2px;">Answers</div> Learners' own answers Differentiation activities (Support): 1. Guide these learners by asking questions based on the visuals and examples on the board, for example, <i>Do you eat these foods at Iftar? What do you drink in the morning? Do you say special Taraweeh prayers?</i> Differentiation activities (Stretch): 1. Encourage learners to think about what they do to help other people in the community during Ramadan.
Learner's Book page 189 Audio Track 103	Read and listen: Activity 2 1. Ask learners to read the Vocabulary box and check that learners understand the concept of 'community', for example, <i>Are you in a classroom community? Yes, because we are in the same class and learn together) Are you in a global community? Yes, because we are all human beings).</i> To pre-teach <i>sunrise</i> and <i>sunset</i> , draw pictures on the board. Drill chorally and individually to upgrade learners' pronunciation. 2. Play the audio for learners to read and listen to the text. <u>Feedback</u> Check learners' general understanding of the text.
Learner's Book page 189	Read: Activity 3 1. Ask the learners to read the text again and answer the questions. 2. Be explicit with learners, for example, the questions are in order, so the information in the text will be in order. Guided questioning can support this, for example, <i>For question one, will the information be near the beginning, middle or end of the text? Near the beginning. For question seven, will the information be near the beginning, middle or end of the text? The end.</i>

1. Learners work in small groups and choose: either one of the ideas for helping the environment on page 134 of the Activity Book, or one of their own ideas from Activity 1. Try to make sure that groups don't all choose the same idea.
2. Learners design a mini-poster for the idea they have chosen, writing a heading on an A4 piece of paper and drawing a picture to illustrate the idea. Learners stick their mini-posters on the wall, then circulate to read each other's posters.

Encourage the learners to look back through Unit 11 in both their Learner's and Activity Books to help support the tasks, if needed. • Working in pairs can be redundant if a more able learner is dominating the tasks. It is important to monitor learners carefully to see which learners are able to support, but not dominate, less able learners. Manage pairwork effectively by asking these supportive learners to work with a variety of less able learners.

	<p>Differentiation activities (Support):</p> <ol style="list-style-type: none"> 1. Encourage learners to think of as much content and language as they can during the brainstorming stage of the project. Ask them to look through their Learner's Book for ideas, if needed, to ask their peers and to extend their lexical range. Monitor carefully and provide support for these learners as they may feel reluctant to ask for help in front of their peers.
	<p>Differentiation activities (Stretch):</p> <ol style="list-style-type: none"> 1. These learners often focus on finishing the task quickly, rather than upgrading the content of their project. Ensure that you monitor these learners and indicate content and language areas that could be developed.
	<p>Use of technology for presentation projects:</p> <p>As with any exercise, you should model the activity in front of the learners to act as their guide. For this project, the learners may prefer to provide their Fact File in electronic format. The notes below will help for this.</p> <p>Presentation software:</p> <p>Generic software programs such as PowerPoint contain all the features that the learners will need. Learners can select from the numerous template options (or use one you have prepared), and then experiment with font, colour of text, size of text – as well as the options for direction of text boxes, speed of slideshow, etc. Images are easily inserted and audio clips can be created without the use of an additional program. You may, of course, wish to explore other, education-specific software options, such as Prezi. For interactive whiteboards (IWB), programs such as ActivInspire offer far more than presentation work and can be integrated across all subjects. For tablets, educational apps such as Book Creator can be used confidently by learners in Grade 4.</p>

	<p>Images: The learners should be able to complete an online search, for example, using Google images, and save their selected image to a designated area of their computer. Images on wikipedia, for example contain clear icon instructions for downloading images. Designated royalty-free image sites are also useful, for example www.freedigitalphotos.net. In all cases, teachers should trial likely searches before the lesson and be able to suggest the best search terms. Alternatively, teachers can prepare a folder of pre-selected images for the learners to use. This might include photos/scans of the learners and their work, for example their drawings.</p> <p>Presentation technique: Unless variety is the aim, ensure that all learners present the same task using the same technology, for example all via the IWB, or all via tablets. The learners should be encouraged to interact with technology throughout their learning, for example highlighting items on the IWB. These skills can then be used in their presentations. Adapt your process to the presentation in hand. So, for a single screen presentation, the learners could hold their own tablets and talk at the same time. For more complex work, it would be best for you to hold the tablet and allow the learner to interact at key points only. This would also be the case if you want the learners to focus on their oral skills rather than the interaction with IT per se.</p> <p>Feedback Collect up the Fact Files ready for use in the next lesson.</p>

Common misconceptions for learners, ways of identifying these and techniques for addressing these misconceptions: <ul style="list-style-type: none"> • It can be very stressful for learners to stand up at the front of the class and present their work, and themselves, to their peers. This raises anxiety in many learners, and particularly less able learners who are afraid of making mistakes in front of their peers. The teacher can manage this situation by providing safer, small group presentations and monitor while these presentations are taking place, noting learners' strengths and weaknesses, as well as correct and incorrect language use for delayed error correction on the board.

Learner's Book page 196	<p>Project: Be your Emirati hero or heroine for the day!</p> <ol style="list-style-type: none"> 1. Nominate the learners as A or B. Ask A's to stand up and bring their Fact Files to the front of the class. Nominate B learners to work with the A learners. B's should also have their Fact Files ready to use as prompts if needed. 2. Depending on the classroom space, some learners may prefer to stand, while others may prefer to sit. Tell learners that A's are the reporters and B's are the heroes/heroines. Refer learners to the questions the reporters ask, which were written on the board during the last lesson. (As the learners repeat the role-play with other partners later in the lesson, erase the questions on the board, if possible.) Ask A's to begin asking their questions. 3. Monitor to ensure learners are on task and note creative examples of content and language and errors for the delayed error correction slot. Once learners have completed their role-plays, having played both parts, ask all the A learners to find a new B partner. The role-play is recycled to provide further opportunities for fluency development. <p>Feedback</p> <p>Write some examples of correct/creative language on the board, and also an equal number of errors. Please also refer to the *Teaching Strategies* section of the *Teacher's Guide* (pages 6 to 10).

<p>Resources</p>	<p>Starter</p> <ol style="list-style-type: none"> 1. Before the lesson, establish a sensory table within the classroom. Spread the items out so as many learners as possible can explore them at once. 2. Invite the learners to visit the sensory table and explore the items. 3. Ask the learners to return to their desks. Hold up each item and invite/give suitable adjectives to describe them. Hold up two items and ask comparative questions: <i>Which is colder? Which is drier? Which is longer?</i> and ask learners to indicate the correct item.
<p>Resources</p> <p>Learner's Book page 197</p>	<p>Main activity</p> <p>Talk about it: Activity 1</p> <ol style="list-style-type: none"> 1. Look at the six photos together and identify the landscapes from the United Arab Emirates. Learners may recognise Jabal Hafit, Moreeb dune and the Abu Dhabi mangroves. Indicate their locations on a map. 2. Activity Book page 138	Use of English: Activity 2 1. Discuss the worked example with the class. Show how to adjust the adjective in brackets to complete the sentence. 2. Ask learners to work individually to complete the remaining sentences. You may wish to allow them access to their answers from Learner’s Book Activity 2. Feedback Ask individuals to answer a question. <div style="background-color: #e0e0e0; padding: 5px;">Answers</div> 1 The Sahara desert is bigger than the Arabian desert. 2 A desert mountain is hotter than a Norwegian mountain. 3 A rainforest is wetter than a desert. 4 Jabal Jais is higher than Jabal Hafit. 5 A sand dune is drier than a fjord. 6 A mangrove forest is cooler than a desert.		
Resources	Plenary Offer extra opportunities to practise sentences with comparatives. For example, display two images of different landscapes at the front of the classroom (African grassland, deciduous forest, coral reef, etc.). These could be cut out from magazines or displayed from books. Provide, or ask learners to provide, suitable adjectives which you write on the board. The learners can then use these to create oral sentences comparing the two images.

UNIT 12 LESSON 2 TASKS/ACTIVITIES

Please also refer to the *Teaching Strategies* section of the Teacher's Guide (pages 6 to 10).

Resources	Starter
	<p>1. Revise the months of the year, the days of the week and the seasons. You can present this as a relay race by sending two pieces of paper around the room in opposite directions: the first learner writes <i>January</i> then passes the paper on, the second learner writes <i>February</i>, and so on.</p>
Resources	Main activity
<p>Learner's Book page 199</p>	<p>Talk about it: Activity 1</p> <ol style="list-style-type: none"> 1. Read the prompt statement and questions to the learners. Explain, using a globe and torch if possible, that countries in the far north have more (or less) sunlight at different times of the year. 2. Explain that there is no correct answer here, and that there are both advantages (good things) and disadvantages (bad things) to the situation. Explain that you would like each group to discuss both sides of the argument, but decide whether, overall, they agree or disagree. 3. Give a few minutes for the learners to discuss their ideas in small groups. <p>Feedback</p> <p>Establish two 'stations' in the classroom: one in favour of living in a place where it never gets dark, and one against. Ask the learners to move to the location that indicates their main preference, and ask for their reasoning. Gather suggested advantages and disadvantages on the board.</p> <p>Answers</p> <p>Learners' own ideas</p>
<p>Learner's Book page 199</p> <p>Audio Track 108</p>	<p>Read and listen: Activity 2</p> <ol style="list-style-type: none"> 1. Read and play the audio to the learners as they follow in their books. 2. One way to approach this short text is by reviewing the sound of diphthong /eɪ/. Ask them to identify the words containing this sound: <i>Norway, day, stayed, played, Saturday</i>. Practise the sound of these words with learners and drill the pronunciation chorally and individually to allow them to consolidate their knowledge of English pronunciation. Ask: <i>Which of these words are past tense verbs?</i> (They should recognise the regular <i>-ed</i> ending on <i>stayed</i> and <i>played</i>.) <i>Which of these words are names?</i> (They should be able to explain the use of a capital letter on <i>Norway</i> and <i>Saturday</i>.) You can also tie the words <i>day</i> and <i>Saturday</i> in with the recap of days of the week from the starter task for this lesson. <p>Feedback</p> <p>Show learners the location of Tromsø in the very north of Norway on a world map. Teach the new vocabulary – <i>sunrise</i> and <i>sunset</i> – using the word <i>sun</i> as a key indicator of meaning. Use a simple hand gesture to mime the sun coming up/rising, and going down/setting. Distribute dictionaries and allow the learners to look for other compound words using <i>sun</i>, for example, <i>sunglasses, suntan, sunshade</i>. Produce a class set of these words on the board. The learners can also look up the word <i>cool</i>. Ask: <i>What does this word mean in Alexa's blog?</i> (very good) <i>What else can it mean?</i> (a cold temperature). Focus on the detail of the dictionary entry and the way the different meanings of <i>cool</i> (informal/colloquial versus formal/standard) are indicated.</p> <p>Finally, play the audio again.</p>

Learner's Book page 199	<p>Read: Activity 3</p> <p>1. Focus learners on the true/false statements. Explain that they have two or three minutes to read the text again and decide whether the sentences are true or false.</p> <p>Feedback</p> <p>Re-establish the two 'stations' in the classroom: one is now for <i>true</i> and one for <i>false</i>. Read each statement and allow five seconds for the learners to get into position. After presenting the correct answers for all four questions, work together to locate the information in the blog which gives this response.</p> <p>Answers</p> <p>1 F (she 'played basketball at 11.00 pm')</p> <p>2 F (it happens 'in the summer months')</p> <p>3 T (it 'can be difficult')</p> <p>4 F (Alexa's dad and granddad are hiking on Saturday)</p>
Learner's Book page 199	<p>Word study: Activity 4</p> <p>1. Focus learners on the <i>Language detective</i> box and write the three time headings on the board. Pick times and ask the learners to reply with the time expressions, for example:</p> <p>Teacher: <i>Monday</i></p> <p>Learner(s): <i>on Monday</i></p> <p>Write correct responses on the board and leave them visible.</p> <p>2. Ask learners to work independently to complete the four sentences.</p> <p>Feedback</p> <p>Allow the learners to mark their own work. Give the answers and confirm the usage according to the <i>Language detective</i>.</p> <p>Answers</p> <p>1 In 2 at 3 On 4 At</p> <p>Differentiation activities (Support):</p> <p>1. Learning objectives: Speaking: To talk about a text. To work as a whole class to complete a challenge. Reading: To read an information text about Mount Everest. Writing: To write a paragraph based on facts provided.		Learning outcomes: By the end of the lesson, learners will be able to ... <ul style="list-style-type: none"> • understand a detailed information text about Mount Everest • use spelling rules to understand and use superlative adjectives • write sentences using superlative adjectives • write a summary paragraph of five sentences from factual prompts.

UNIT 12 LESSON 4 TASKS/ACTIVITIES

Please also refer to the *Teaching Strategies* section of the *Teacher's Guide* (pages 6 to 10).

Resources	Starter
	1. Show the learners a short video depicting Mount Everest, preferably including the use of ladders at Khumbu Ice Fall.
Resources	Main activity
Learner's Book page 201	<p>Let's do it: Activity 1</p> <p>1. Read the instructions to the class. Explain that they need to work together to arrange themselves in height order. Depending on the number of learners in your class, set a short time, for example two minutes, to achieve this, and use a stopwatch to add excitement.</p> <p>Feedback</p> <p>When the time is up, assess the line of learners and use comparatives and superlatives as you consider them. Talk about the strategies they used. Did anyone automatically volunteer to check the line as it evolved? At speed, multiple small decisions need to be made at the same time to achieve a final group result.</p> <p style="background-color: #d3d3d3; padding: 2px;">Answers</p> <p>The class arranged in height order.</p>
Learner's Book page 201	<p>Read: Activity 2</p> <p>1. Read the text to the class, but pause at the end of each headed section to discuss. In section 2, 'The challenge', look at the photo of a climber on page 202 and point out the equipment shown.</p> <p>2. Discuss the features of the text: headings, short sentences, pictures with labels. Explain that these are typical features of information texts.</p> <p>3. Ask learners to work in pairs to answer the comprehension questions. All the questions are factual and have clear-cut answers to note down.</p> <p>Feedback</p> <p>Give the answers orally and allow the learners to mark their own work. Note whether there are any patterns to incorrect answers, for example, did learners tend to miss the superlatives that take <i>most</i>? For question 5, challenge individuals to give you the base form of the superlatives. You may incorporate the use of dictionaries.</p> <p style="background-color: #d3d3d3; padding: 2px;">Answer</p> <p>1 8,850 metres 2 -60°C in winter 3 80 years old 4 sixteen 2 the highest, the coldest, the most dangerous, the iciest, the strongest, the bravest, the oldest, the biggest, the most difficult</p> <p>Differentiation activities (Support):</p> <p>1. Some less confident learners will be helped by focusing on the facts in this passage. Look together at the numbers: height, ages, dates.</p> <p>Differentiation activities (Stretch):</p> <p>1. Climbing Everest has produced many heroic and tragic stories. More confident learners could research and summarise these: George Mallory, Alison Hargreaves, Suzanne Al Houby, Saeed Al Memari.</p>

Learner's Book page 201	<p>Use of English: Activity 3</p> <ol style="list-style-type: none"> 1. Read the <i>Language detective</i> box to the class to revise the spelling rules for superlative adjectives. Work together to group the superlatives from Activity 2 into the five groups: short, long, ending in <i>-e</i>, ending in <i>-y</i>, double letters. 2. Look together at the worked example. Then ask learners to work independently to write four more sentences using the prompts. <p>Feedback</p> <p>Read the initial prompt and then ask for a volunteer to give you the rest of the sentence. Write the superlative form on the board and indicate which spelling rule it follows.</p> <p>Answers</p> <ol style="list-style-type: none"> 1 Death Valley is the hottest place on Earth. 2 Vostok is the coldest place on Earth. 3 The Atacama Desert is the driest place on Earth. 4 The Amazon is the widest river on Earth. 5 The Nile is the longest river on Earth.
Activity Book page 141	<p>Write: Activity 2</p> <ol style="list-style-type: none"> 1. Explain to the learners that they are going to write a short factual paragraph about a different mountain. Read the Kilimanjaro facts to them. 2. Allow learners to work in pairs to verbalise the information in the Kilimanjaro file, preparing it in sentence form. They can copy the model provided from the Mount Everest text. They should then work independently on their paragraph. <p>Feedback</p> <p>Circulate and provide assistance where needed. Call on individuals to read one sentence from their paragraph: most will have followed the order of the prompts. Take in the completed paragraphs for further assessment.</p> <p>Answers</p> <p>Possible answer</p> <p>Kilimanjaro is in Tanzania. It is the highest mountain in Africa. It is 5,895 metres high. At night, the temperature is usually between 0° and -15°C. Kilimanjaro is quite easy to climb. 15 000 people reach the top each year. Incredible, but true!</p> <p>Differentiation activities (Support):</p> <ol style="list-style-type: none"> 1. Common misconceptions for learners, ways of identifying these and techniques for addressing these misconceptions: <ul style="list-style-type: none"> • Discuss online safety (your school may have a protocol for this). Learners may be under the misconception that an email/online post that ‘sounds’ young and ‘looks’ young (for example, use of emoticons, inclusion of a picture of a child) has therefore been written by a child their age. Resources	Starter
	<p>1. Remind the class of the UAE team's ascent of Everest. Inform them that the team received messages of goodwill from supporters, including Sheikh Mohammed bin Zayed, using technology at Base Camp (the bottom of the mountain). Explain that today they are going to explore how to write an email to a friend in English.</p>
Resources	Main activity
<p>Learner's Book page 203 Audio Track 110</p>	<p>Listen: Activity 1</p> <ol style="list-style-type: none"> 1. Ask learners to look at the four email addresses on page 203. Ask: <i>Does anyone know how to say the @ symbol?</i> Read the first address to the learners. Ask: <i>Which part of the address is the name?</i> Confirm the answer (Jake) and draw parallels to their experience of writing postal addresses. 2. Depending on your learners' confidence, you may want to revise letter names (saying the alphabet) before playing the audio. 3. Play the audio at least twice. Everyone should be able to identify the name part of the addresses, even if some of the other characters are not understood. <p>Feedback</p> <p>Practise saying the addresses chorally. You could provide additional examples on the board for further practice. Make clear that the @ symbol and dot are ubiquitous in email addresses. The use of an underscore is also common, as are combinations involving numbers and other symbols.</p> <p>Answers</p> <p>Choral reading of the addresses: jake@mydaysout.com waleed123@emirateshost.ae olivia_j@post4me.co.uk fouzia8@oud.sch.ae</p>
<p>Learner's Book page 203</p>	<p>Read: Activity 2</p> <ol style="list-style-type: none"> 1. Read the email to the class. (Note that this is a fictional email and not connected to the 2016 ascent by the UAE team.) 2. Ask questions to check comprehension: <i>How does Khalwa feel? How did she feel on the summit? Find two adjectives that describe sound. Find two times.</i> 3. Draw attention to the features that indicate Khalwa is writing to a friend: use of <i>Hi</i>, exclamations, description of feelings as well as facts. Khalwa also uses the informal word <i>awesome</i>. Ask the learners to look this word up in their dictionaries and explore its formal and informal meanings. Can they think of a similar word from an earlier lesson? (<i>cool</i>) These two slang words mean the same thing and can be used interchangeably, but only in an appropriate, informal setting. Look at the other informal language in the <i>Writing tip</i> box with the class. 4. Explore the structure of the email: the headings To, From, Subject; the use of a greeting and sign off. These are common to all emails.

	<p>Feedback Say: <i>Where was Khalwa at quarter past four? Raise your hand when you hear the answer.</i> Then list some options: <i>at home? in her tent? in a noisy city? on the summit?</i> (correct answer) <i>at the bottom of the mountain?</i></p> <p>Answer At 4.15 am, Khalwa was on the summit of Mount Everest.</p> <p>Differentiation activities (Support): 1. Focus attention on teaching points 3 and 4 above.</p> <p>Differentiation activities (Stretch): 1. Draw attention to the use of superlatives in the text, including <i>the most beautiful sight I have ever seen.</i> Give further examples of this structure: <i>the funniest joke I have ever heard, the nicest person I have ever met.</i></p>
<p>Activity Book page 142</p>	<p>Write: Activity 1</p> <ol style="list-style-type: none"> 1. Explain the task (writing an email) to learners and read the three prompt sections. Ensure everyone understands that the email does not need to be true. Allow at least five minutes for the learners to make notes in pencil. 2. Work through the prompt sections together, taking and making suggestions. Demonstrate how to construct a fictional email address based on a person's name. Then allow a further five minutes for the learners to change their minds and rework their notes. 3. Finally, set the learners working on a neat version of the email, either in their Activity Book or using computers. They can draw a picture on the paper copy to represent a photo. <p>Feedback Select two or three examples to read to the class in a strong, happy voice. If completing this task on computers, print out the finished emails and display them in the classroom. Take in the work for further assessment.</p> <p>Answers Learners' completed emails which you may like to take in for correction.</p> <p>Differentiation activities (Support): 1. Supply sentence prompts, for example, <i>Last week, I went to ... , I saw/heard/felt ...</i> Learners should use the past simple tense for most of the email and the present tense to refer to the image.</p> <p>Differentiation activities (Stretch): 1. Allow more confident learners to research an astonishing natural landscape (with tourist access) to write about with more factual accuracy, for example, Cappadocia in Turkey, Junfrauoch in Switzerland, Wadi Dhahr in Yemen.</p>

Please also refer to the *Teaching Strategies* section of the *Teacher's Guide* (pages 6 to 10).

Resources	Starter
	<p>1. As a warm-up, divide the board into two halves: HOTTER and HOTTEST. Explain that you are going to call out some adjectives. If it is a comparative, everyone needs to point both arms towards HOTTER. If it is a superlative, everyone needs to point both arms towards HOTTEST (or make up your own action). Ask everyone to stand up and stretch up tall with their arms in the air. Call out a range of comparative and superlative adjectives: <i>highest, icier, wetter, most dangerous, more popular than, coolest, most humid</i>, etc. If anyone points the wrong way, ask them to sit down.</p>
Resources	Main activity
<p>Learner's Book page 204 Audio Track 111</p>	<p>Listen and talk: Activity 1</p> <p>1. Read the first part of the rubric. There are six locations mentioned in the gap-fill sentences and you can challenge the learners to find a photo of each one in their Learner's Books (page 197 for Moreeb Dune, the Arctic, the mangrove forest, the Norwegian rainforest, the desert; page 202 for Mount Everest).</p> <p>2. Ensure everyone has their pens ready before playing the audio twice.</p> <p>3. Now read the second part of the rubric. Pairs work together to agree whether each completed sentence is true or false.</p> <p>Feedback</p> <p>Read the audioscript to the learners and take a show of hands (hands up for true, both hands on desk for false) for each sentence. Pairs can mark their own work: 1 mark for the gap fill and 1 mark for the true/false element.</p> <p>Answers</p> <p>1 Moreeb Dune is higher than Mount Everest. False 2 The mangrove forest is wetter than the desert. True 3 The rainforest is more humid than the mangrove forest. True 4 The Arctic is warmer than the rainforest. False 5 Mount Everest is the highest mountain in the world. True 6 The rainforest is drier than the desert. False</p> <p>Differentiation activities (Support):</p> <p>1. Listen and talk: Activity 1

1. Draw attention to the mountain Fact File. Point out the similarity between this file and the one on Kilimanjaro that they used in Lesson 4. Explain that you are going to play some information. The learners need to choose one correct option for each of the five sections.
2. Allow a couple of minutes for learners to read the options before playing the audio twice. Feedback the audio answers at this point.
3. Finally, move on to the speaking element of the task. Invite the learners to work in pairs to form comparative sentences using the mountain data. More curious learners will be eager to know that Mount Cook lost around 30m from its summit in a huge landslide in 1991.

Feedback

Read the Fact File options and ask individuals to tell you which information they heard. Confirm that these options are about Mount Fuji (the mountain pictured on Activity Book page 143). Ask them to write an F next to these options. Identify the Mount Everest facts and ask learners to write an E next to these. The remaining items are about Mount Cook. Ask learners to write a C next to these.

Resources	Starter
	<ol style="list-style-type: none"> Show the learners a picture of Earth taken from space. Ask: <i>What is this? What planet is this?</i> Briefly describe the picture, for example, <i>It is blue. It has clouds.</i> Over the course of the discussion, pre-teach the words in the Vocabulary box on page 207: <i>planet, solar system and space.</i>
Resources	Main activity
Learner's Book page 205	<p>Talk about it: Activity 1</p> <ol style="list-style-type: none"> Draw attention to the pictures of the planets. Read each name to the learners and then practise saying the names, chorally and individually. Finally, point out that one planet name is missing. <p>Feedback</p> <p>Hopefully everyone will know that the missing planet name is Earth. Write E _ _ _ _ on the board and ask volunteers to give you the letter names to complete the name.</p> <div style="background-color: #d3d3d3; padding: 5px; text-align: center;">Answers</div> <p>Earth</p>
Learner's Book pages 205 and 206 PCM 13	<p>Read: Activity 2</p> <ol style="list-style-type: none"> Draw attention to the six quiz questions. Read the questions and the options to the class. Explain that you will now read a text that gives the answers to this quiz. Read the passage to the class and use verbal stress to indicate when you give an answer to a quiz question. You may pause after each planet and point out the descriptive connection between the text and the pictures, for example, focusing on size and colour words. Read the passage again, allowing the learners to check and amend their quiz responses, then conduct the Feedback detailed below. <p>Feedback</p> <p>Ask learners to hold up one finger if they think the answer is a, two fingers for b, and three for c. Read each quiz question and take a census of the class's answers. Confirm the correct response and read the passage from the text which gives the correct answer.</p> <div style="background-color: #d3d3d3; padding: 5px; text-align: center;">Answers</div> <p>1 a 2 a 3 c 4 b 5 c 6 b</p> <p>Differentiation activities (Support):</p> <ol style="list-style-type: none"> Practise the planet names. Write an initial letter plus the correct number of letter spaces on the board, for example S _ _ _ _ . Call on individuals to come to the front and help you complete the planet name. Other learners can call out the correct letters. PCM 13 can be used as a further memory aid. <p>Differentiation activities (Stretch):</p> <ol style="list-style-type: none"> More confident learners can find all the superlative adjectives in the passage and then write a list of the base form of each one, plus its comparative and superlative forms. If completed using IT, this list can then be distributed to all learners.

<p>Learner's Book page 206 Audio Track 113</p>	<p>Listen and talk: Activity 3</p> <ol style="list-style-type: none"> 1. Read the rubric and <i>Speaking tip</i> to the learners. Drill the word <i>year</i> chorally and individually to check the diphthong sound. 2. Explain that you are going to play an audio of the words in the box. However, before you do, allow the learners to read the words in the box quietly to themselves. Can they already identify some of the /ɪə/ words? Now play the audio and conduct the Feedback detailed below. 3. As a follow-up activity, repeat the task by reading some of the long and short <i>i</i> words from the passage, asking learners to identify the long vowel sound /aɪ/. For example, write a selection of the following on the board: <i>light, life, lifeless, bright, white, highest, driest</i> (long); <i>pictures, Jupiter, beautiful, rings, discovered</i> (short). The learners will be familiar with the <i>igh</i> spelling from their work in Grade 3. <p>Feedback</p> <p>Explain to learners that you are going to play the audio again. This time, you would like them to hold their pens high in the air if they hear a word that contains /ɪə/. Play the audio and note the patterns in the responses. Now call on individuals to say each word for you. Confirm which ones contain the diphthong and drill these chorally.</p> <p>Answers</p> <p>hear, here, ear, we're, year</p>
<p>Activity Book page 145 Learner's Book pages 205–206</p>	<p>Let's do it: Activity 1</p> <ol style="list-style-type: none"> 1. Read the Mercury notes to the class. Show the learners how each fact is located in the paragraph on Mercury in the reading passage on page 206 of the Learner's Book. 2. Look in detail at the <i>Language detective</i> box on Learner's Book page 205. Give examples of familiar nouns that the learners can transform into adjectives in this way, for example, <i>sand/sandy, dirt/dirty</i>. If the learners offer instances which involve doubling a consonant or removing an <i>-e</i>, do also note these, for example, <i>sun/sunny, ice/icy</i>. 3. Explain that the learners will now work in groups to create summary notes on another planet using the reading passage text. Ensure there is at least one group for each remaining planet (four groups minimum). <p>Feedback</p> <p>Ask individuals from each group to read a single fact from their summary notes. Confirm the answer by focusing on the reading text. Do other groups writing on the same planet have the same word? Repeat this process to complete an accepted summary file for each of the five planets.</p> <p>Answers</p> <p>Learners' own answers</p>

Activity Book page 145	<p>Write: Activity 2</p> <ol style="list-style-type: none"> 1. Tell learners they are going to create their own planet. To generate interest, write questions on the board, for example <i>What's its name? What colour is it? Is it rocky? How many moons has it got? Has it got any rings?</i> 2. Allow learners time in pairs to think of ideas, before asking them to work independently to complete the task. 3. For extra interest, supply collage materials for the planet picture, for example foil, sequins, packaging, patterned fabric. Learners will really enjoy personalising their ideas in this way. <p>Feedback</p> <p>Circulate while learners are working and supply additional assistance if required, for example, vocabulary for the 'What is special about it?' section. The learners could complete the drawing element at home if necessary. Once completed, ask everyone to place their completed Fact File on their desk and allow the entire class to circulate and discuss the results.</p> <p>Answers</p> <p>Learners' own planet Fact Files</p>		
Resources	<p>Plenary</p> <ol style="list-style-type: none"> 1. Call out superlative statements about the learners' Fact Files, for example, <i>I think Sara's planet is the most colourful. I think Afra's planet is the hottest.</i> The individual holds up their Fact File for everyone to see.

Learning objectives: Listening: To listen to and complete a passage of text. Speaking: To work together to answer comprehension questions on a reading passage. Reading: To read about a nocturnal creature. Writing: To write vocabulary from the lesson.		Learning outcomes: By the end of the lesson, learners will be able to ... <ul style="list-style-type: none"> • complete a text using information obtained from a listening passage • use size, colour and shape adjectives • understand and use body part nouns relating to a desert creature • label a diagram of an animal using body part nouns.
Link to prior learning: <ul style="list-style-type: none"> • Knowledge of desert creatures (Unit 3) • Adjectives and nouns to describe an animal • Adjective order (Unit 7) 21st Century Skills: <ul style="list-style-type: none"> • Learning and Innovation: Introduce creative thinking activities, such as brainstorming, to learn to share and respect all ideas.

Common misconceptions for learners, ways of identifying these and techniques for addressing these misconceptions: <ul style="list-style-type: none"> • There are ten single-word gaps to complete in the listening task. Some learners may feel that if they miss the first gap, the rest of the task has already 'gone wrong'. UNIT 12 LESSON 8 TASKS/ACTIVITIES

Please also refer to the *Teaching Strategies* section of the Teacher's Guide (pages 6 to 10).

<p>Resources</p>	<p>Starter</p> <p>1. Revise time expressions for talking generally about day and night, for example, <i>at night, in the morning, in the evening, in the day</i>. Write these on the board and either ask questions of the learners or give statements about yourself, for example, <i>At night, I am asleep. In the morning, I usually come to school</i>. Leave the time expressions on the board for the first activity.</p>
<p>Resources</p> <p>Learner's Book page 207</p>	<p>Main activity</p> <p>Talk about it: Activity 1</p> <p>1. Look at the five animal images together. Can the learners remember the names of these creatures in English? (<i>oryx, wolf, jerboa, bat, camel</i>)</p> <p>2. Read the prompt questions to the learners and gather their ideas as indicated in the Feedback section below. Introduce the word <i>nocturnal</i>. Break this into syllables and confirm that the learners know how to say <i>turn</i> from work in earlier Grade 4 units. Drill pronunciation of the whole word and tie this in with the title of the lesson: <i>Nocturnal nature</i>.</p> <p>3. To extend the discussion, ask the learners <i>why</i> they think the animals come out at night. Suggestions may include: <i>to keep cool, to be safe, to find food</i>.</p> <p>Feedback</p> <p>Write 'Night animals' in a circle on the board. Give the name of each animal and ask for a show of hands to indicate whether or not it comes out at night. Write each agreed animal name on the board and link it to the central circle to give a large brainstorm diagram.</p> <p>Answers</p> <p>All of the animals are nocturnal apart from the camel.</p>
<p>Learner's Book page 207</p> <p>Audio Track 114</p>	<p>Listen and read: Activity 2</p> <p>1. Draw attention to the Fact File and the image. Ask: <i>Have you ever seen this creature?</i> Explain that they are going to listen to a text and fill in the gaps as they listen.</p> <p>2. Before playing the audio, allow two to three minutes for the learners to familiarise themselves with the passage.</p> <p>3. Play the audio three times. Encourage the learners to simply listen on the first hearing. On the second hearing, the learners fill in the gaps they can. On the third hearing, they complete any outstanding gaps and check completed items. Leave a fairly long gap between each hearing so that the learners can go back and write further words.</p> <p>4. Before moving on to Activity 3, look closely at the phrase <i>large brown spikes</i>. Indicate the spikes on the photo of the hedgehog. Remind the learners of their work on size, number and colour adjectives in Unit 7: <i>a small blue bug; a big yellow flower</i>. They should remember that the correct order is: Size, Colour, Noun.</p> <p>Feedback</p> <p>Read the Fact File out loud and give the answers. Allow the learners to mark their own work, giving a tick or cross only. The words do not need to be spelled correctly to gain a point.</p> <p>Answers</p> <p>1 deserts 2 body 3 nose 4 claws 5 tunnels 6 sleeps 7 finds 8 eggs 9 sharp 10 ball</p>

	<p>Differentiation activities (Support):</p> <p>1. Instead of using the audio track, read the text as it appears in the Learner’s Book (giving the answers) to the learners at a slower pace.</p>
	<p>Differentiation activities (Stretch):</p> <p>1. Ask more confident learners to identify the types of words that are missing <i>before</i> you play the audio (mostly nouns with some verbs and adjectives).</p>
<p>Learner’s Book page 207</p>	<p>Talk: Activity 3</p> <p>1. Read the comprehension questions to the learners and explain that they will now work in pairs to find the answers in the reading passage in Activity 2.</p> <p>2. Be on hand to clarify vocabulary, or supply access to dictionaries.</p> <p>Feedback</p> <p>Go through the questions orally with the class and take contributions from learners, aiming to speak to each pairing. Together, locate the answers in the reading passage and read those sentences/phrases out loud. Drill the key vocabulary chorally and individually.</p> <p>Answers</p> <p>1 body, nose, spikes, claws 2 finds food, eats; sleeps 3 The spikes are sharp. They protect the hedgehog from other animals (which may want to eat it). 4 The headings are: Name, Habitat, Features, Night-time habits, Interesting facts. The Fact File also has a picture and a Vocabulary box.</p>
<p>Activity Book page 146</p>	<p>Word study: Activity 1</p> <p>1. Look back together at the labelled diagram of the camel on Learner’s Book page 42.</p> <p>2. The learners can work individually or in pairs to devise and add labels to the illustration of the desert hedgehog.</p> <p>Feedback</p> <p>Ask individuals for a suggestion for one label line at a time. Confirm whether or not it is correct and write it on the board. Allow singular or plural forms.</p> <p>Answers</p> <p>Anti-clockwise the completed labels should read: 1 ears, 2 nose, 3 claws, 4 body, 5 spikes</p> <p>Differentiation activities (Support):</p> <p>1. Give the learners the answers to be copied into the correct locations.</p> <p>Differentiation activities (Stretch):</p> <p>1. Ask these learners to add more labels for body parts.</p>

Activity Book page 146	<p>Word study: Activity 2</p> <p>1. If appropriate, read the crossword clues out loud, pausing for each missing word. Explain that all of the words can be found in the completed passage on Learner's Book page 207 and the learners can refer to the page while doing this activity if they wish.</p> <p>Feedback</p> <p>Allow learners to swap books. Read the crossword clues and supply the answers, noting these on the board. The learners can mark each other's work by giving a tick or cross only.</p> <p style="background-color: #e0e0e0; text-align: center;">Answers</p> <p>1 night 2 cool 3 scorpions 4 pointed 5 tunnels 6 hair 7 insects 8 sharp 9 ball</p>

UNIT 12 LESSON 9 TASKS/ACTIVITIES

Please also refer to the *Teaching Strategies* section of the Teacher's Guide (pages 6 to 10).

Resources	Starter
Learner's Book page 208	<p>1. Look at the four animals on page 208. Explain that two of these creatures live in Norway (remind them of Alexa from Lesson 2) and two live in the UAE. Agree which two creatures are from each habitat and begin to describe differences: <i>Which animals are white? Why? Which animals can fly? What do you think these creatures eat?</i> Finally, point out that all four animals are nocturnal.</p>
Resources	Main activity
Learner's Book page 208	<p>Talk about it: Activity 1</p> <p>1. Read the animal names to the learners. Draw attention to 'clues' within the names. The learners should understand <i>Arctic</i> and <i>snowy</i>, which can lead them towards the Norwegian creatures. The <i>saw-scaled viper</i> may already be known to them.</p> <p>2. Allow just one minute for pairs to match the pictures to the names.</p> <p>Feedback</p> <p>Read out an animal name and ask for a show of hands for each option. For example, <i>Who thinks it is a?, b?, c?, d?</i></p> <p>Answers</p> <p>a Arctic fox b saw-scaled viper c snowy owl d fruit bat</p>
Learner's Book page 208 Audio Track 115	<p>Word study and listen: Activity 2</p> <p>1. Use the photos to demonstrate the meaning of the words in the box. For example, ask learners to point to the <i>wings</i>. The learners will need many of these terms in their writing work below, so use Look-say-cover-write-check (from the Teaching strategies) to secure their knowledge.</p> <p>2. Now allow ten minutes for the learners to work in pairs to describe the four animals. Circulate and assist, in particular with the use of adjectives.</p> <p>Feedback</p> <p>Emphasise that there are no single answers here, but that you have audio of some example sentences that are correct. Play the audio and pause after each sentence for the learners to repeat it back to you in unison.</p> <p>Answers</p> <p>Arctic fox It has long white fur./It has short pointed ears./It has four paws.</p> <p>Saw-scaled viper It has brown scales./It has long sharp teeth./Be careful – it is poisonous!</p> <p>Snowy owl It has large wings./It has long sharp claws./It has soft white feathers.</p> <p>Fruit bat It has short brown fur./It has large pointed ears./It has wings but no feathers and no tail.</p>

	<p>Differentiation activities (Support):</p> <ol style="list-style-type: none"> 1. Offer extra opportunities to practise the order of the adjectives. Ask learners to create 12 slips of paper. They each write three adjectives about size, three about shape and three about colour, and three nouns (animal parts). Then they swap with another group and practise different combinations of adjectives and nouns. <p>Differentiation activities (Stretch):</p> <ol style="list-style-type: none"> 1. Talk to more confident learners about how these creatures are suited to life in the desert or life in the snow.
<p>Activity Book page 147</p>	<p>Use of English: Activity 1</p> <ol style="list-style-type: none"> 1. Look closely at the worked example, drawing attention to the capital letter and full stop. 2. Encourage everyone to work silently and independently to rewrite the sentences from the prompts provided, adding capital letters and full stops. <p>Feedback</p> <p>Ask the learners to swap their books and mark each other's work with a tick or cross for each sentence. Read out the answers. Point out that the nouns can come in either order in 4 and 5.</p> <p>Answers</p> <ol style="list-style-type: none"> 1 Fruit bats have short brown tails. 2 Some owls have large wings. 3 Desert hedgehogs have long brown spikes. 4 Camels have long eyelashes and a hump/Camels have a hump and long eyelashes. 5 Arctic foxes have long white fur and short pointed ears/short pointed ears and long white fur.
<p>Activity Book page 147</p>	<p>Write: Activity 2</p> <ol style="list-style-type: none"> 1. Using their new vocabulary, explain to learners that they are going to write sentences about a new animal: the Arctic hare. Spend some time reading the word prompts and discussing the photo. Draw attention to the similarities with the Arctic fox. Note that there are three nouns, so the learners should be aiming for at least three sentences. <p>Feedback</p> <p>Read the suggested minimal answer (below) to the class. Take in their books for more formal assessment and marking.</p> <p>Answer</p> <p>The Arctic hare has long white fur. It has a small white tail. It has four white paws. It has long pointed ears. (It has two large/strong legs and two shorter legs. It has a small black nose. It has a small white tail.)</p>
<p>Resources</p>	<p>Plenary</p> <ol style="list-style-type: none"> 1. Create an imaginary animal with the class. Begin by drawing a body part on the board (or on a large piece of paper) and saying, for example, <i>It has a large blue nose</i>. Call on volunteers to suggest another sentence. Key vocabulary: <i>jump, hop, climb, wiggle, creep, crawl, slither; crash, bang, loud; sharp, pointy, slimy</i> Key expressions/structure: <i>Things that ... , Anything that ... , That's what I'm afraid of.</i>		
Common misconceptions for learners, ways of identifying these and techniques for addressing these misconceptions: <ul style="list-style-type: none"> • Reading a new poem can feel daunting: less confident learners feel overwhelmed by new vocabulary, more confident learners may dislike the open-ended nature of figurative language (there is often no 'correct' answer to poetry appreciation questions). The poem in this lesson is rooted in the experiences of a child, and the starter activities should generate everyone's interest. Use learners' own experiences to approach the subject matter.

Resources	Starter
	<ol style="list-style-type: none"> 1. Ask the learners: <i>What are you afraid of?</i> Write this question on the board. Say: <i>Are you afraid of mice? Are you afraid of spiders?</i> Volunteer an answer for yourself: <i>Yes, I am afraid of spiders.</i> 2. Give the learners a few moments to ask and answer this question in pairs. You could keep a list of their suggestions on the board, but keep the tone of the discussion light. (Be aware of any sensitivities within the class.) 3. Introduce two new movement words used for spiders: <i>creep</i> and <i>crawl</i>.
Resources	Main activity
<p>Learner's Book page 209</p>	<p>Talk about it: Activity 1</p> <ol style="list-style-type: none"> 1. Ask learners to work in groups to think of as many animal movement words as they can. Set a time limit and use a stopwatch, or equivalent, to keep the learners motivated. 2. This could also be set as a group brainstorm activity. <p>Feedback</p> <p>Ask each group to read their lists. Assist with pronunciation and add any obvious omissions.</p> <p>Answers</p> <p>Learners' own ideas, for example, <i>walk, run, jump, hop, swim, climb, fly, dig</i>. They can also include <i>creep</i> and <i>crawl</i>.</p>
<p>Learner's Book pages 209–210 Audio Track 116</p>	<p>Read and listen: Activity 2</p> <ol style="list-style-type: none"> 1. Focus attention on the poem and the pictures. Discuss what the pictures show. 2. Read the first <i>Reading strategy</i> box to the class. Discuss whether the learners use any of these techniques when they read for gist. 3. Play the audio at least twice with the learners following in their books. <p>Feedback</p> <p>Ask learners if they can suggest some things that the girl is afraid of. Be clear that the answer is not precise – the girl is afraid of many things.</p> <p>Answer</p> <p>She is afraid of certain animals and some noises.</p> <p>Differentiation activities (Support):</p> <ol style="list-style-type: none"> 1. Complete Activity 1 in the Activity Book at this point. Using the images will help less confident learners to clarify the general meaning of the poem. <p>Differentiation activities (Stretch):</p> <ol style="list-style-type: none"> 1. Complete Activity 1 in the Activity Book at this point. With access to a dictionary, more confident learners can name the creatures that the girl is afraid of in each verse. They can feed these back to the class.

<p>Activity Book page 148 Audio Track 33</p>	<p>Listen: Activity 1</p> <ol style="list-style-type: none"> 1. Ask the learners to look at the six pictures: one for each verse of ‘Scary things!!’ Ask them to work in pairs and order the images from 1 to 6. 2. Play the poem again while the pairs discuss the options. <p>Feedback</p> <p>Ask pairs to swap books and mark each other’s work. Give the correct order and connect the images to the wording of the poem.</p> <p>Answers</p> <p>From top, left to right: 4, 6, 5, 2, 3, 1</p>
<p>Learner’s Book page 210</p>	<p>Read: Activity 3</p> <ol style="list-style-type: none"> 1. Read the second <i>Reading strategy</i> box to the class. Clarify the word <i>scan</i>: meaning that the learners do not need to read every word of the poem to answer these questions. They should scan the text to find the words they need. 2. Allow at least ten minutes for learners to work in groups on the comprehension questions. 3. Learners should take notes during their discussion, but make clear that they do not need to write detailed answers. <p>Feedback</p> <p>Work through the questions, taking suggestions from individuals and aiming to take contributions from every member of the class.</p> <p>Answers</p> <ol style="list-style-type: none"> 1 Worms, although more confident learners may notice that the wording is <i>like wriggly worms</i>, which allows for a broader answer. 2 a runaway tram (again a wider interpretation is possible, for example, thunder [indicated in the picture]) 3 claws 4 slither (a movement word for a snake), slimy (an adjective used for slugs and snails), crash (a loud, long noise), creep (a movement word for spiders and insects), crawl (a movement word for spiders and insects) <p>Differentiation activities (Support):</p> <ol style="list-style-type: none"> 1. Help less confident learners to see that much of each verse is repeated. Read the poem together, with them supplying repeated phrases (<i>Things that ... , Anything that ... , That’s what I’m afraid of</i>) and you reading the rest. <p>Differentiation activities (Stretch):</p> <ol style="list-style-type: none"> 1. More confident learners should notice that we only know for sure that the person is scared of <i>things</i>. The use of <i>like</i> in verse 1 and <i>like a</i> in verse 2 opens the possibility that the speaker is scared of things that are only <i>like</i> worms and trams. Tie this in with the study of <i>like a</i> similes in Unit 7.

Activity Book page 148	<p>Write: Activity 2</p> <p>1. Read the rubric to learners and complete the first answer together. They will need access to pages 209–210 in the Learner’s Book in order to copy the correct lines of the poem.</p> <p>Feedback</p> <p>Call on individuals to read you the line they have written. Follow the correct order identified in Activity 1 by saying, for example: <i>Please read the line for picture 1</i>. Then use the Learner’s Book to confirm each answer.</p> <p>Answers</p> <p><i>These need to follow the order in Activity 1 above</i></p> <p>Things that wiggle Things that go crash Things that creep Things that hiss Things that growl Things that are cute</p>
Resources	<p>Plenary</p> <p>1. Show learners the animal pictures you have brought. See if they can provide the new movement words from today’s lesson. Take this opportunity to drill the pronunciation of these words chorally and individually. These words provide an excellent opportunity to add a movement memory aid to help the learners’ recall of the vocabulary. For example, move your hands like a spider when drilling <i>creep</i> and <i>crawl</i>.</p>

Standards/SLOs:

- (G4.2.1.1.1) Give personal information; express dislikes.
- (G4.3.3.1.1) Read and understand a variety of grade-appropriate short narratives, factual recounts and information texts.
- (G4.3.4.1.2) Demonstrate understanding of the main idea and details of the text; explain the text referring to explicitly stated or inferred information.
- (G4.3.4.1.5) Make and confirm predictions about forthcoming information drawing on specific details in the text.
- (G4.3.6.1.3) Connect the information and events in a text or story to life experiences.
- (G4.3.7.1.1) Build an increasing number of words and phrases through conversations, reading, or being read to; understand them when used by others, and produce these words themselves.
- (G4.3.7.2.1) Use context clues such as words and phrases; and text features such as graphs, headings and subheadings to understand the meanings of unknown words.
- (G4.3.7.2.5) Learn to ignore difficult words that are not key to understanding the text and keep reading to the end.
- (G4.3.7.2.7) Identify the figurative language (for example, similes and metaphors); determine how figurative language provides meaning to works of literature.

Learning objectives: Listening: To match animal pictures to animal sounds. Speaking: To discuss and practise rhyming words from a poem. Reading: To read a poem for gist and specific detail. Writing: To write key vocabulary in word families.		Learning outcomes: By the end of the lesson, learners will be able to ... <ul style="list-style-type: none"> • read a poem for specific details • understand and use new adjectives to describe sounds and movements • understand and use new verbs to describe sounds and movements • explore the use of rhyme in a poem.
Link to prior learning: <ul style="list-style-type: none"> • Regular and irregular verbs in the past simple • Work on poetry including rhyming words 21st Century Skills: <ul style="list-style-type: none"> • Not applicable 		
Key vocabulary: <i>wiggle, squish, squirm, creep, crawl, hang, slither, quiver, stroke; crash, bang, hiss, growl, roar, purr; cute</i> Key expressions/structure: Word families (verbs, adjectives, nouns); rhyming words		
Common misconceptions for learners, ways of identifying these and techniques for addressing these misconceptions: <ul style="list-style-type: none"> • This lesson provides a number of techniques for memorising new vocabulary. The learners match words to pictures, group words into families, match words to definitions and connect verbs with associated nouns. Draw attention to the fact that, after two lessons, their appreciation and understanding of the poem has greatly increased. Suggest that these techniques have assisted in the process, and that learners can use these techniques for other encounters with new vocabulary.

UNIT 12 LESSON 11 TASKS/ACTIVITIES

Please also refer to the *Teaching Strategies* section of the Teacher's Guide (pages 6 to 10).

Resources	Starter
	1. Revisit the animal movement words from the poem 'Scary things!': <i>wiggle, creep, crawl, slither</i> . Either review (from the previous plenary) or create movements to go with each word to act as a memory aid.
Resources	Main activity
Learner's Book page 211 Audio Track 117	Listen: Activity 1 1. Ask the learners to look at the pictures. Can they name the animals? Explain that words 1–4 relate to sounds, not the names of the animals. 2. Play the audio twice to allow the learners to match the sounds to the pictures. Feedback Play the audio again and orally give the learners the correct answers. They can mark their own work using a tick or cross (and no other markings). Call on individuals to say the sound verbs to you. Draw attention to the similarity between the word and the sound it relates to. Answers 1 d 2 c 3 b 4 a
Learner's Book pages 211	Word study: Activity 2 1. The learners are asked to identify three verbs, three adjectives and three nouns from the poem. This task can be completed as individual work. Alternatively – as there are many more than three examples of each word type – divide the class into three groups: one per word family. 2. Circulate while the learners are completing this task, and help them to focus on their letter formation. The trigraph 'squ' (used in <i>squish</i> and <i>squirm</i>) is not common in English and is tricky. Feedback Take contributions from the class and construct a master set of each word family on the board. Show the learners how the adjectives and nouns can be combined, for example, <i>soft fur, loud tram</i> . Give examples of some verbs in sentences, for example, <i>I squirm when I see a spider</i> . Practise saying the words together. Answers (possible) Verbs: go bang, hangs, quiver Adjectives: wiggly, slimy, pointy Nouns: tram, ceilings, fur

<p>Learner's Book page 211</p>	<p>Talk: Activity 3</p> <ol style="list-style-type: none"> 1. Look at the example rhyming words (<i>worms, squirm</i>) in the <i>Language detective</i> box and locate them in verse 1. 2. Encourage learners to practise saying the words to themselves. They should then work in pairs to find the other rhyming words (one pair of words in each verse) and write them down. Conduct the first feedback session detailed below. 3. Now read the rubric for the second part of the rhyming work. Learners need to work in their pairs (or small groups) to think of rhymes for the words provided: <i>cat, bear, blue, cow</i> and <i>red</i>. They then construct a sentence using at least one of their rhymes: <i>The cat is wearing my hat</i>. Learners will enjoy this task, and you will need to agree on a time limit before conducting the second feedback session detailed below. <p>Feedback</p> <ol style="list-style-type: none"> 1. Ask learners to raise one hand when they hear a word they have written, and to raise their other hand when they hear the rhyming word. Read the poem, one verse at a time. As the learners raise their hands, write the rhyming words on the board. Practise saying the word pairs together. 2. Circulate the room and call on pairs in turn to give you one of their rhyming sentences. Gather the rhymes on the board. Review the number of rhymes found for each source word. Point out that learners have enough English vocabulary now to be able to write their own poems. <p>Answers</p> <p>worms/squirm, bang/tram, crawl/walls, slither/quiver, roar/claws, purr/fur</p> <p>Differentiation activities (Support):</p> <ol style="list-style-type: none"> 1. Focus on pronouncing the rhyming sounds rather than the spelling variations. 2. Decide on a selection of rhyming words together and then allow less confident learners to focus on the sentence construction. <p>Differentiation activities (Stretch):</p> <ol style="list-style-type: none"> 1. Draw attention to the specific rhyming vowel sounds in each word pair. Look with the learners at the phonetic spellings in their dictionaries and compare the various spellings. 2. Challenge more confident learners to think of as many different spellings to rhyme with <i>bear</i> as they can: <i>wear, there, their, chair, scare</i>.
<p>Activity Book page 149 Audio Track 33</p>	<p>Listen: Activity 1</p> <ol style="list-style-type: none"> 1. Learners read the phrases before listening to the poem again and matching each phrase with a verse. <p>Feedback</p> <p>Allow learners to swap books and mark each other's work. You can either give them the answers straight away, or ask them to locate the phrases in the poem, and then confirm the answers together.</p> <p>Answers</p> <p>1 Verse 3; 2 Verse 2; 3 Verse 6; 4 Verse 1; 5 Verse 5</p>

Activity Book page 149	<p>Word study: Activity 2</p> <p>1. Read the rubric to the class and clarify, if needed, how the gaps are to be completed. Encourage learners to work individually on this task as they have already explored each of the terms required.</p> <p>Feedback</p> <p>Allow learners to swap books and mark each other's work. After giving the answers, look in more detail at the structure of this work: linking a verb with its likely subject, and defining new words. Both of these are good ways to store and learn new terminology.</p> <p>Answers</p> <p>1 worm, spider (or insect), snake 2 storm, lion, cat 3 bang, wiggle, roar, slither, creep/crawl, purr</p>		
Resources	<p>Plenary</p> <p>1. Organise a choral reading of the poem. Establish verb movements for everyone to enact at key points (for example, wiggle, go bang, creep, slither, stroke). If possible, present their reading to an audience in assembly or to another class.</p>

Encourage more confident learners to combine facts into complex sentences, for example, <i>It is smaller than Earth, but bigger than Mercury.</i>

Learner's Book page 213	<p>Read: Activity 3</p> <ol style="list-style-type: none"> 1. Write <i>on</i> and <i>at</i> on the board. Ask learners which preposition is used with days of the week (<i>on</i>) and which with times (<i>at</i>). Add one example of each to the board. 2. Read the rubric and worked example with the class. Clarify that there are no correct answers to end each sentence, but that they should be reasonable for the various times given. 3. Shuffle the pairs and allow them to work on the four prompts. <p>Feedback</p> <p>Add <i>Monday</i> to the <i>on</i> area of the board. Say: <i>On Monday I usually ...</i> then ask for a volunteer to supply the rest of the sentence. Repeat for the other prompts.</p> <p>Answers</p> <p>Learners' own answers</p>

Resources	<p>Plenary</p> <ol style="list-style-type: none"> 1. Explain to learners that there are three 'stations' in the classroom. Point to area 1: <i>This is the poetry station</i>. Point to area 2: <i>This is the mountains station</i>. Point to area 3: <i>This is the planets station</i>. Ask the learners to move to the station for the learning topic they most enjoyed in Unit 12. Move to each station in turn. Ask learners why they enjoyed this area so much and promote discussion. Praise one thing that your class tried especially hard on for that area.

UNIT 12 LESSON 14 TASKS/ACTIVITIES

Please also refer to the *Teaching Strategies* section of the Teacher's Guide (pages 6 to 10).

Resources	Starter
	<ol style="list-style-type: none">1. Learners have two choices of project in this lesson: one is completed in pairs (Project 1) and the other is more independent (Project 2). Briefly review the tasks and assign the learners to groups. Try to have approximately half of the learners working on each project.
Resources	Main activity
Learner's Book pages 207, 214	<p>Project 1: Create a quiz</p> <ol style="list-style-type: none">1. Read the rubric to the class. Recap the nature of a true/false quiz and ensure learners understand that they need to include some true and some false statements. Model examples using relevant vocabulary, for example: <i>Jabal Jais is the highest mountain in the United Arab Emirates. (True.)</i>2. Allow a research phase for this project using printed or online sources. During this phase, learners should agree on six facts to use in their quiz.3. Learners draft quiz sentences, Be on hand at this point to check their statement sentences. Allow learners to adjust their work as necessary.4. Learners then work to write their quiz. You may wish to agree on a single method of presentation, for example, a square box after each statement for readers to tick for True or cross for False. Emphasise that learners need to keep a record of the quiz answers on a separate sheet of paper. They will need to organise this work between them, for example, writing alternate questions or one person taking responsibility for the answers. They must ensure that their handwriting is as neat as possible. The quiz can also be typed up and distributed in printed form. <p>Project 2: Create your own fact file</p> <ol style="list-style-type: none">1. Tell learners they are going to choose an animal from page 214 and write a Fact File about it using the following headings: <i>Name, Features</i>. They can use the relevant text from Lesson 8 (page 208) on the desert hedgehog as a model for their writing.2. Encourage the learners to work in two stages: first creating rough notes, then a neat version with headings and full sentences.3. Here are some interesting facts for each animal which can form the basis of an additional section for more confident learners: the arctic fox has fur even on the bottom of its paws to help it stay warm; snowy owls are very quiet and hardly ever make a noise; the sand viper buries itself in the sand to stay cool, so only its head is showing; fruit bats have <i>extremely</i> long tongues. <p>Use of technology for presentation projects:</p> <p>As with any exercise, you should model the activity in front of learners to act as their guide.</p> <p>Presentation software:</p> <p>Generic software programs such as PowerPoint contain all the features that the learners will need. The learners can select from the numerous template options (or use one you have prepared), and then experiment with font, colour of text, size of text – as well as the options for direction of text boxes, speed of slideshow, etc. Images are easily inserted and audio clips can be created without the use of an additional program.</p> <p>You may, of course, wish to explore other, education-specific software options, such as Prezi. For interactive whiteboards (IWB), programs such as ActivInspire offer far more than presentation work and can be integrated across all subjects. For tablets, educational apps such as Book Creator can be used confidently by learners at Grade 4.</p>

	<p>Images: The learners should be able to complete an online search, for example using Google images, and save their selected image to a designated area of their computer. Images on wikipedia, for example contain clear icon instructions for downloading images. Designated royalty-free image sites are also useful, for example www.freedigitalphotos.net. In all cases, you should trial likely searches before the lesson and be able to suggest the best search terms. Alternatively, you can prepare a folder of pre-selected images for the learners to use. This might include photos/scans of the learners and their work, for example their drawings.</p> <p>Presentation technique: Unless variety is the aim, ensure that all learners present the same task using the same technology, for example all via the IWB, or all via tablets. The learners should be encouraged to interact with technology throughout their learning, for example highlighting items on the IWB. These skills can then be used in their presentations. Adapt your process to the presentation in hand. So, for a single screen presentation, the learners could hold their own tablets and talk at the same time. For more complex work, it would be best for you to hold the tablet and allow the learner to interact at key points only. This would also be the case if you want the learners to focus on their oral skills rather than the interaction with IT per se.</p> <p>Differentiation activities (Support):</p> <p>Project 1</p> <ol style="list-style-type: none"> 1. Provide fact sheets for a number of locations which can be used as source material for the quizzes. <p>Project 2</p> <ol style="list-style-type: none"> 1. Provide a picture prompt for each topic. You could also supply a word bank of suitable adjectives for the learners to select from. <p>Differentiation activities (Stretch):</p> <p>Project 1</p> <ol style="list-style-type: none"> 1. More confident learners can use audio technology to record their quiz or more sophisticated processing functions such as Yes/No buttons in Word or Excel. <p>Project 2</p> <ol style="list-style-type: none"> 1. Ask these learners to think about presenting their fact file to reflect the nature of their subject, for example using colour in their drawing or varying their letter size when writing the fact file.
Resources	<p>Plenary</p> <ol style="list-style-type: none"> 1. In preparation for the presentation phase of the projects, explore a range of phrases for giving an opinion backed up with evidence: <i>I liked Jamila and Alia's quiz because the answers were quite difficult. I liked Khalwa's Arctic fox fact file because there are lots of interesting facts and information.</i>

UNIT 1

Track 2

Bader: Hello! My name's Bader. We're learning the Al Ayyalah routine. It is a very old routine and an important tradition in the UAE. People love watching it. My friends are standing opposite each other. Our teacher showed them how to do the movement. They are moving right and left. They are practising together. Look! They are having a lot of fun.

My teacher's playing the drum. I'm learning to play the drums as well. The students move to the sound of the drum, too. When my teacher taps the drum quickly, the students move quickly. When he taps the drum slowly, the students move slowly.

Learning the Al Ayyalah routine is fun, but it's also difficult. We have to practise a lot. My friends want to move really well. We want our Al Ayyalah routine to be perfect.

Track 3

Narrator: National Day is celebrated in the UAE and in many other countries too. The Al Ayyalah routine is part of the celebrations. There is a big drum and three small drums. The men hold up their sticks and make them move up and down, left and right.

Track 4

Boy A: This is difficult!

Boy B: Yes, it is. But we can do it! Don't give up.

Boy A: OK, I'm going to put my shoelace around your shoelace. Can you pull it through the hole?

Boy B: I think I can. Oh no! I've dropped it.

Boy A: That's OK. Let's try again.

Boy B: OK. Here we go. Put the lace through the hole. Don't move your foot. That's good ...

Boy A: Like this?

Boy B: Yes, that's it.

A and B: We've done it!

Boy B: We're a good team.

Track 5

Narrator: **Rope Rhyme**

Get set, ready now, jump right in
Bounce and kick and giggle and spin
Listen to the rope when it hits the ground
Listen to that clappedy-slappedy sound
Jump right up when it tells you to
Come back down, whatever you do
Count to a hundred, count by ten
Start to count all over again
That's what jumping is all about

Get set, ready now,
jump
right
out!

Track 6

Friend: Hi, Nabeel, what are you drawing?

Nabeel: It's a bat. It's flying around at night, catching insects. Bats only fly at night, not in the day.

Friend: What a great picture! You're very good at drawing, Nabeel.

Nabeel: Thank you! Do you think a bat is a bird or a mammal?

Friend: It's a mammal. I'm sure. It's not a bird.

Nabeel: How do you spell mammal? I'm not very good at spelling.

Friend: M-A-M-M-A-L.

Nabeel: Thank you!

Track 7

Narrator: The animals are making a project in the classroom and they are getting their pictures ready. Bat, Duck, Bear and Kangaroo are working in a team together to make their project.

Teacher: I can see you are working very hard on your projects. Well done everyone! Please could you start tidying up now? Thank you.

Boy 1: Yes, I'm colouring my picture.

Boy 2: And I'm cutting out my picture!

Boy 3: I'm using glue to stick my picture on the poster!

Track 8

Teacher: ... and Duck ... how are you doing?

Narrator: Duck looks very sad.

Teacher: What's the matter, Duck? Is something wrong?

Boy 4: I can't do my project and I am very sad.

Teacher: Why can't you do your project, Duck?

Boy 4: I don't have coloured pencils to colour in my picture.

Boy 1: Share my coloured pencils!

Boy 4: I don't have scissors to cut out my picture.

Boy 2: Share my scissors!

Boy 4: I don't have glue to stick my picture on the poster.

Boy 3: Have my glue!

Boy 4: Thank you my friends. Thank you for sharing and helping me. Please could you pass me the coloured pencils, scissors and glue? Thanks you very much!

Boy 1, 2 and 3: Of course! Here you are!

Teacher: That is great everyone. You are all working together in a team.

Narrator: So Bat, Kangaroo and Bear shared their coloured pencils, scissors and glue with Duck and helped him to finish his picture and stick it on their team poster. The poster was finished and they were all very happy.

Track 9

Narrator: Some girls are drawing mammals. A mammal is an animal that has fur and teeth. Most mammals have four legs. Some girls are drawing birds. Birds are animals that have two legs, two wings and feathers. Most birds can fly. One girl is drawing a bat. Name two mammals and two birds. Do you think a bat is a mammal or a bird?

UNIT 2

Track 10

Mariam: Hello, my name is Mariam. I am very excited today because it's Eid Al -Fitr and the celebrations will last for three days. The day started early in the morning and we went to perform Eid prayers at the mosque.

In the picture you can see there is a lot of food and I'm taking a photo. My mother, grandmother and my aunts spent all week cooking traditional foods like ouzi and harees. In the centre of the photo is my father. He is standing next to my mother. He is very tall and has a beard. My mother is holding a large spoon and putting some food on a plate. My cousin Said is standing behind my mother and talking to my grandfather. My grandmother is drinking a glass of water and looking at my aunt, who is holding a mobile phone. My sister is sitting on a chair and smiling at my baby cousin who is sitting in her lap.

After lunch, we are going to my sister's house to visit some more relatives. We will have another meal tonight!

Track 11

Narrator male: New clothes

In Indonesia, parents give children a small amount of money. People go to shopping malls and buy new clothes, shoes and lots of food.

Visiting family

In Egypt, on the first day of Eid Al Fitr, people visit their families. They also go to the cinema, parks or beaches.

Pancakes for breakfast

People eat special pancakes for Eid Al Fitr in Morocco. Breakfast is a very big meal and people drink mint tea.

Egg fights!

In Afghanistan, men meet in the park with hard-boiled eggs and play a game. They try to break each other's eggs. People go to parks and fly kites.

Track 12

Girl 1: Hi, Nisreen. What are you doing?

Girl 2: I'm making name cards for the big meal we're having tonight.

Girl 1: Why are you doing that?

Girl 2: So that everyone will know where to sit! I'll put the names on the table.

Girl 1: OK. What name are you writing?

Girl 2: I'm writing 'Mr Al Qasim'. He's my grandpa –my dad's dad.

Girl 1: Oh! I want to make a name card!

Girl 2: OK. What name do you want to write?

Girl 1: Miss Al Sayegh

Girl 2: Who is she?

Girl 1: She's my aunt. She's my mum's sister.

Track 13

The End

When I was one,

I had just begun.

When I was two,

I was nearly new.

When I was three,

I was hardly me.

When I was four,

I was not much more.

When I was five,

I was just alive.

But now I am six,

I'm as clever as clever.

So I think I'll be six now for ever and ever

Grandfather: We all went on a special camping trip to the desert. It was the first time that you camped in the desert. We parked the SUV under some trees and made a big camp fire. There was a lot of food to eat and you were very hungry. There was a barbecue and your mother cooked delicious food.

You were only six years old and you were scared of the animal noises at night and the scorpions that were in the tent! We were very happy to all be together and it was a fantastic trip.

Track 16

Grandfather: There were many people camping that weekend and we had a lot of fun together. Your grandmother was there and she helped your mother and your aunts. Your cousins were there and they were scared of the scorpions in the tent as well. When I showed you

how to move the scorpion without touching or hurting it, you weren't afraid any more. You were brave and helped your cousins move the scorpions in their tent. You were very helpful!

Track 18

Male: Can I have everyone's attention please? Can the aunt and uncle stand together in the middle? Then, can the grandfather and the granddaughter stand on the left and the grandmother and the grandson on the right? Parents, you can wait until the next photo, not this one.

Track 19

Boy: Hi, I'm Adel and this is my twin brother, Waleed. We are very excited because we're going camping next weekend with our family.

The last time we went camping was about six years ago, when we were six years old. We had a brilliant time. All our family drove to Al Hayer forest in the summer. It was so hot in July but there were lots of ghaf trees to camp under and stay cool. The land was flat, but there were lots of sand dunes and mountains.

My mother had brought lots of delicious food to cook on the barbecue and we ate barbecued lamb and chicken. There was a big fire and my grandfather told us old stories of when he was a boy.

We all slept in tents at night and heard lots of animal noises. My father told me that he had seen a fox and some bats! Everyone had to shake the tents in the morning because some scorpions had crawled in. I was scared of the scorpions, but they ran away quickly.

Track 20

Boy: A sad memory

When I was very young, I had a teddy bear. His name was Bruno and he only had one eye. I took Bruno everywhere with me! One summer, my family went on holiday to the beach. We played in the sand and swam in the sea. I put Bruno on a rock next to the sea so I could see him.

When we left the beach, I forgot Bruno. I didn't sleep because I was very sad! The next day, my father went to look for Bruno at the beach but he couldn't find him anywhere. I remember I felt sad and even now I miss Bruno.

Track 21

Girl: A proud memory

Last year, my school celebrated the National Day of the United Arab Emirates. My friends and I were very excited and I went to school early so I could help the teachers. There were so many things to do at school! We drank camel milk and ate dates and listened to stories about how the Bedouin used camels to travel across the desert. We painted our hands with henna and my teacher showed us how to make a basket using palm tree leaves. It was a lot of fun and I felt very proud when she told the class that my basket was the best! My mother loves the basket and uses it in the kitchen every day.

Track 22

Boy: A happy memory

My name is Adel and I like helping people. I do chores for my parents at home and I go with my mum and my sisters to help clean up plastic bottles from the beach, even in winter. I have many happy memories but my favourite is from last Ramadan. My father and I gave small snacks to tired drivers before Iftar. I am short so my father lifted me to give the snacks because I couldn't get to the drivers. The drivers were so shocked to see me giving them food, but very happy! I like to help people and make them smile.

Track 23

Boy 1: Tell me about your last camping trip, Zak.

Boy 2: Oh yes, it was great fun. My grandfather and my mother and father were there and we camped in the desert.

Boy 1: That sounds like so much fun! What did you do?

Boy 2: Well, we put up our tents near the sand dunes and near my dad's SUV. It was very beautiful, with lots of ghaf trees around.

Boy 1: What did you eat?

Boy 2: My mum cooked an amazing lamb barbecue. We sat on a carpet in the shade.

Boy 1: Wow! Can you invite me next time?

Boy 2: Of course!

Track 24

Narrator: When I was eight years old my father took us to Dubai. It was great fun. We could go up the Burj Al Arab and we went to some really cool shopping centres. Do you know there's one shopping centre there, called Ski Dubai, where we could ski? I went to the Dubai Museum with my mum and it was really interesting to see how Dubai was in the past, with the model houses and the stories about falcons.

UNIT 3

Track 25

Narrator: Many deserts are hot during the day but cold at night. For example, the temperature in the day can

be over 40 degrees Celsius. That's very hot! At night, the temperature can be close to 5 degrees. That's much cooler.

Deserts can be flat or filled with mountains - it depends where they are in the world. Deserts are very dry, so not many plants grow in them, but one special desert plant is a cactus. Cactus plants have thick, waxy skin with sharp spines and they can live with very little water.

Camels live in some deserts, but most desert animals are small. Many of these animals hide under rocks or in underground homes during the hot days. It is cooler under the ground or in the shadow of a rock. At night, when it gets cooler, the animals come out to look for food.

Track 26

Narrator: The Sahara Desert is the largest hot desert on Earth. It is very hot there and temperatures can reach as high as 57 degrees centigrade. The Sahara Desert is in northern Africa and it covers 12 different countries.

The Sonoran Desert is in North America. Like all other deserts, it is a dry place, but there are a few heavy rainfalls in the summer and in the winter, and it is wetter than the Atacama Desert. The saguaro cactus plant, the tallest cactus on Earth, grows in the Sonoran Desert. A saguaro cactus can grow as tall as a six-storey building.

The Gobi Desert is in Asia. It is called a 'cold desert' because in the winter it is very cold and very windy. But in the summer, the Gobi Desert can get very hot.

Track 27

Narrator: Camels live in the deserts of Africa, Asia, and Australia. They carry people and things across the desert. Before travelling across the desert, a camel eats a lot of food and drinks a lot of water. The food is stored as fat in the hump on the camel's back.

As the camel crosses the desert, it uses the fat in its hump as food and water. A camel can live for a week or more without drinking water! At the beginning of the trip, the camel's hump is big and fat. At the end of the trip, its hump is much smaller.

Track 28

Narrator: The ghaf tree

All living things need water. It is difficult for plants to grow in the desert because the desert is very dry, but some plants do grow there. One special desert plant is a ghaf tree.

Ghaf trees can live with very little water for a very long time. The tree roots are very long and find water deep underground, as deep as 30 metres. Here the roots drink up water from the sandy soil. When rain falls, the roots of the tree drink up the water very quickly.

Track 29

The desert

I love the desert,

Getting there is the easiest thing there is,

We just drive out the city

And there we are.

It's the sunniest place I know,

Sometimes I see the jerboa

Do you know it never drinks water,

Even on the driest days?

And if it's a good day I see an oryx,

Though it likes the nights,

Do you know it only sweats

When the sun is at its hottest?

At midday I sat under a ghaf tree in the shade,

People say it's the strongest plant in the desert

And you can see it everywhere there.

Track 30

Track 31

Narrator: Two friends

It was a hot day. Hassan and Ibrahim were walking across the desert to an oasis. The boys were friends, but today they were arguing. Hassan was very angry. 'Ibrahim, you are so stupid!' Hassan yelled. Ibrahim felt hurt and upset. He stopped and wrote in the sand, 'Today my friend yelled at me.'

Hassan read the words that Ibrahim wrote in the sand. He felt sorry, but he didn't say anything. The two boys walked on. Soon they came to the cool green oasis, with trees, birds and a waterhole. Ibrahim jumped in the deep water to cool off.

Suddenly, Hassan saw that Ibrahim was in trouble. 'Oh no,' thought Hassan. 'Ibrahim is in deep water and he can't swim!' He shouted, 'Stay calm, Ibrahim. I'm coming to help you.' Hassan swam quickly to Ibrahim. He helped Ibrahim get back to the shore. 'Thank you, Hassan,' said Ibrahim. Ibrahim picked up his knife. He carved these words into a rock:

'Today my friend saved my life.' 'I don't understand,' said Hassan. 'When I called you stupid, you wrote the words in the sand. But when I helped you, you carved the words in a rock.' Ibrahim smiled at Hassan. 'When a friend is unkind, we should write the words in the sand so the wind can blow the words away. When a friend is kind, we should carve the words in a rock so we can remember the kindness for ever.' 'You are very wise, Ibrahim,' said Hassan. 'I'm sorry I was unkind. Thank you for being my friend.'

Track 32

Narrator: The Boy and the Wolf

Once upon a time there was a young boy who looked after the sheep in his village. He didn't like looking after

the sheep because he stayed on his own on the hill and it was very boring. He looked at the village and he said to himself 'The people in the village are all together there and can talk, and I'm all alone here. I want to have some fun.'

Then he thought 'I know how to have some fun!' And he shouted 'Wolf! Wolf! Help! The wolf is taking the sheep!'

The villagers were very busy but they came running up the hill to find the boy and help him 'Where is the wolf?' they said. But the boy only laughed. 'There is no wolf, I only wanted to laugh,' said the boy, and the villagers were very angry.

The next day the boy was bored again. 'I want to have some fun,' he said to himself and he shouted 'Wolf! Wolf! He's taking our sheep! Come and help me!' And the villagers came running but they were very angry when they saw there was no wolf, and they told him to stop being silly.

That night, the boy was all alone on the hill and he suddenly saw two eyes in the darkness. It was the wolf! He shouted and shouted for help but the villagers didn't come. The next day he went down to the village and said 'The wolf took all our sheep, why didn't you come to help me?' And the villagers said, 'Because no one believes a liar.' He felt very bad and he didn't lie again.

Track 33

Narrator: Once upon a time there was a young boy who looked after the sheep in his village. He didn't like looking after the sheep because he stayed on his own on the hill and it was very boring. He looked at the village and he said to himself, 'The people in the village are all together there and can talk, and I'm all alone here. I want to have some fun.'

UNIT 4

Track 34

Narrator:

- a This shape has three straight sides and three corners.
- b This shape has four straight sides and four corners. Two sides are long and two sides are exactly the same.
- c This shape has four straight sides and four corners. All four sides are exactly the same.
- d This shape is round. It doesn't have any corners.
- e You can pick up this shape. It has a top, a bottom and four sides. It is like a box.

Track 35

Narrator: The jumping finger

- 1 Hold up a finger and close your left eye.
- 2 Move your finger so that it covers something on the wall or outside.
- 3 Now keep your finger still. Close your right eye and open your left eye. Is your finger still covering the same thing?

4 Close your left eye and open your right eye again. What happens?

The floating finger

- 1 Find a wall to look at.
- 2 Point two fingers at each other. Hold your hands in front of your face.
- 3 Stare at the wall. Can you see a tiny finger floating between your two fingertips?

Track 36

Girl: Hold your arms out in front of you, like in the picture.

Put your hands together. Make a hole, in a triangle shape.

Keep both eyes open. Look through the triangle. Find something to stare at.

Keep looking at that object through the hole. Slowly, bring your hands very near your face.

(Keep both eyes open!) Have you done it?

OK. Which eye did your hands go to, your left eye or your right eye?

That is your stronger eye.

Track 37

Girl 1: I can see a girl.

Girl 2: I can see her, too.

Girl 1: I can see a boy.

Girl 2: I can see him, too.

Girl 1: I can see a bird.

Girl 2: I can see it, too.

Girl 1: I can see two girls.

Girl 2: I can see them, too.

Girl 1: I can see some boys.

Girl 2: I can see them, too.

Girl 1: I can see a lot of birds.

Girl 2: I can see them, too.

Track 38

Narrator:

- 1 Cut out the circles that your teacher gives you.
- 2 Colour them in four different colours.
- 3 Push a pencil through the centre and then spin the colour wheel.
- 4 What can you see? Why does this happen?

Track 39

Narrator: Hidden animals

This painting by Bev Doolittle is called 'Pintos'. A pinto is a name for a horse with a special colouring – white with brown spots or blotches. How many pinto horses can you find hidden, or camouflaged, in this setting of brown rocks and white snow? Animals use camouflage to hide and stay safe. Camouflage means that the colours and patterns on an animal's body are the same as the colours and patterns of the place where

the animal is hiding. If the camouflaged animal does not move, it is hard for other animals to see it.

Don't eat me!

What animals are hiding in these photos?

Camouflage is a good way for a small animal to hide from the larger animals that want to eat it. Birds like to eat bugs, butterflies, frogs and snakes. Snakes like to eat mice, frogs and birds' eggs.

A yellow flower is a good place for a yellow butterfly to hide.

The stick insect is good at camouflage. Its body is the colour of bark – brown and green. Its long body, legs and antennae blend in perfectly with tiny branches and leaves.

Track 40

Boy: Looking for a meal

Animals which eat other animals also use camouflage.

This snake, the Arabian horned viper, is sandy-coloured with light-brown markings on its back. It is hard to see the snake as it hides in the sand with its head sticking out. When it sees a lizard, or a small mammal or bird, it springs out and catches its meal by surprise.

Changing colours

Some animals change the colour of their fur in winter. Why do you think they do that?

During the warm months, an Arctic fox has brown fur. Its brown colour matches the brown soil and grasses of the Arctic land where the fox lives. In winter, the Arctic land is covered with snow. When the cold weather begins, the Arctic fox grows a coat of white fur. This camouflage helps the Arctic fox hide from hungry polar bears and wolves!

Track 42

Narrator: Owl see you

Please don't ruffle my feathers
It is very rude when you stare
I have the most sensitive hearing
And I know you are lurking there

I mainly venture out at night
For I really am quite shy
Many people don't even see me
For I don't make a noise when I fly

My head can turn 270 degrees
So my eyesight is extremely good
Under cover of dark I lurk in the shadows
So you may not see me in the wood.

UNIT 5

Track 43

Presenter: Ladies and gentlemen, welcome to our show 'I'm an inventor!' This is the show where boys and girls bring their ideas for new inventions. Now, to start this evening, we have our first inventor, Asma! What have you invented, Asma?

Asma: I've invented a football.

Presenter: Oh? But ... what makes it special?

Asma: Well, I like playing football with my friends. But sometimes we kick the ball too far. So, you take this special remote control and press the button. The ball comes back to you! It's very useful if you kick the ball into the neighbour's garden.

Presenter: Wow, that's cool! Thank you so much, Asma! And our next inventor tonight is MJ McKinley! What do you want to show us, MJ?

MJ: I've invented some bouncing shoes.

Presenter: Yes, I can see! Why did you invent bouncing shoes?

MJ: Because I'm always late for school. With my bouncing shoes, I can get to school much more quickly: I can bounce along like a kangaroo. And it's fun!

Presenter: Thank you MJ! So we have one more inventor tonight ... it's Alisia. And what have you invented, Alisia?

Alisia: My invention is really amazing. I've invented a singing cup!

Presenter: A singing cup?

Alisia: That's right. When you pour a drink into my cup, it starts to play your favourite music. Listen to this: Isn't it great?

Presenter: Err, yes. How do you make it stop? Wow, that's cool! Fantastic! Thank you to our three inventors! And now, ladies and gentlemen, which do you think is the best ...

Track 44

Narrator: The wheel

One of the most important inventions is the wheel. It was invented more than 5,000 years ago.

The wheel made it much easier to carry heavy things. People could push or pull simple carts.

For thousands of years, most wheels were made of wood and metal. Then about 170 years ago, the tyre was invented. It was made of rubber, filled with air. Travelling on wheels was much more comfortable after that. How many different kinds of wheels can you think of?

Printed books

Long ago, people used to write all books by hand. The ancient Chinese invented a way to copy texts more quickly by carving words into a wooden block. They put ink on the wooden block.

Then they pressed paper on the ink. Then, over 500 years ago, a German called Gutenberg invented a new kind of printing press. It could print pages much more quickly. Look around you. How many things can you see that are printed?

Track 45**Narrator: The telephone**

The telephone was invented in 1876. The name 'telephone' comes from two Greek words which mean 'far' and 'voice'. Do you think this is a good name? The first mobile phone was invented in about 1980. Ask your family if they can remember when there were no mobile phones!

The television

Television was invented nearly 100 years ago. But not many people had a television in their home until after 1950. The earliest TV pictures were only in black and white.

Track 46

Girl: I have to brush my hair every day.
I have to brush my teeth.
I have to lay the table before we eat.
I have to put my dirty clothes in a laundry basket.
I have to do my homework.
I have to practise English every day.

Track 47**Narrator: The straw 1888**

A simple sipping instrument
Sprung from Marvin Stone's imagination.
Paper strips wound round his pencil,
glued together – poof! A new invention.
Eventually sealed with wax, preventing leaks,
swilling spirals leading lemonade to puckered lips.
Castle building, dreaming, pure play,
one person wondering on any old day.
What might you invent today?

Track 48**Narrator:**

1 suitcase on wheels suitcase on wheels
2 life jacket life jacket
3 artificial legs artificial legs

Track 49**Narrator:**

Jack, in the backyard, said to his mother.
This house is OK, but it's like any other.

It's boxy and boring and basically bland.
It's nothing at all like the house I have planned.
We'll start with the basics, right off the bat.
Check out my all-in one Kitchen-o-Mat!
You don't have to cook and you don't have to clean.
It's done by a space-age robotic machine.
It makes all the meals and the food is deeeelish.
Then it washes and puts away every last dish.

Track 50**Narrator:**

And here is my bedroom, way up in the sky,
On top of a tower 200 feet high.
With glass all around, just check out the view!
A bed in a tower – now that's something new!

Next comes my Flying Room. See how it's tall?
It's empty except for a switch on the wall.
Just turn off the switch and you'll float off the ground,
Then flap like a bird and fly all around.

This is my Racetrack Room. Step right inside.
It's less like a room and more like a ride.
It features a racetrack that loops all around
With superfast go-karts that don't make a sound.
You fly and you flip and you zip and you zoom!
You have to admit, it's a wonderful room!

Track 51

Narrator: In the 1940s Percy Spencer was a scientist working on fixing radars. One day he noticed while working on the radar that the chocolate bar in his pocket got warm and started to melt. This was because of something called *microwaves*. He used this process to make popcorn and then he knew it was successful and he invented the microwave oven. Nowadays you can find Percy's invention in 90% of American homes.

One day George de Mestral, who was an electrical engineer, discovered that plants called cockleburs stuck to his shoes when he was out for a walk. George decided to look at the cockleburs with a microscope and he found that they were like lots of tiny hooks catching his shoes. De Mestral then created his own version of this and now we use velcro for everything, from keeping our shoes closed to NASA astronauts' clothes in space.

UNIT 6**Learner's Book****Track 52**

Millions of years ago, dinosaurs walked the Earth.
There were many different kinds of dinosaurs. Some were very tall, while others were very small. Some

dinosaurs ate plants. Some dinosaurs ate other dinosaurs.

But there were some ways in which all dinosaurs were alike. They all lived millions of years ago. They all laid eggs. They all had legs and a tail.

We know about dinosaurs because we have found fossils of their bones, their nests and their footprints. Scientists study these fossils to learn about dinosaurs and their lives.

Scientists have learned many things about dinosaurs, but there are some things that they do not know for certain. For example, what colour were the dinosaurs? Did they have hard scaly skin like a crocodile or did they have feathers like a chicken? Did dinosaurs make any noise?

Track 53

Three hundred and fifty million years ago, the first animals appeared on the land. The first dinosaurs appeared two hundred and twenty million years ago. Dinosaurs lived on the Earth for a very, very long time. The last dinosaurs died sixty-five million years ago. Millions of years went by. Then, just one hundred thousand years ago, the first humans appeared.

Track 54

There were many different kinds of dinosaurs and they were all different sizes. Some ate meat and others ate plants.

Most dinosaurs had four legs, but some had two small front ones, like arms. This made it easier for dinosaurs to catch and kill animals.

This dinosaur is called Diplodocus and it weighed the same as five elephants. It couldn't run fast. You can see in the picture it had a very long neck so that it could eat leaves at the top of trees. It didn't eat meat at all.

Scientists believe that the Diplodocus used its tail to fight.

Track 55

1. Look at the flashcards around the room.
2. Now, draw a picture of each dinosaur on different faces of the cube. Don't fill the whole space because you will be writing as well.
3. Write one sentence about each dinosaur on each side of the cube. Remember to use capital letters and a full stop.
4. Colour your dinosaurs.
5. Now, carefully cut around the template. Your teacher will show you how to do this.
6. Now, glue the sides together. Your teacher will show you.
7. Fantastic! You now have your very own dinosaur cube!
8. Now listen to your teacher because you are going to play a game! Have fun!

Track 59

Triceratops is one of the most famous dinosaurs. It lived about sixty-eight million years ago. It had three horns on its face. One horn was on its nose and two longer horns were above the eyes.

Triceratops was about five metres tall and was nearly 10 metres long. It wasn't as tall or as big as a T-rex, but it was very big and weighed about

10000 kilos. From studying fossils, scientists know that Triceratops had four toes and its feet were a metre wide.

Triceratops ate plants and leaves and was able to pull down leaves from trees with its horns. Triceratops could lay 20 eggs and covered them with plants to keep them warm. Babies hatched from eggs that were the size of a melon!

Track 60

Unfortunately
Dinosaurs lived so long ago
they never had a chance to know
how many kids would love to get
a dinosaur to be their pet.

Track 61

1. Living things that have turned into stone over millions of years are called fossils.
2. Fossils are made of living things that died.
3. Some fossils are very old.
4. Some animals were trapped in ice.
5. We can tell what an animal did from its footprints.

Track 62

Khulood's father gave her a new computer game. 'Digging for Dinosaurs!' said Khulood. 'Brilliant! That is exactly what I wanted.'

Khulood decided to try her new game. She switched on the computer, put the game in and looked at the screen. A strange icon appeared. Khulood clicked on the icon and suddenly POOM!

'Where am I?' asked Khulood.

'You're in the computer game Digging for Dinosaurs', said the girl next to her. 'We have to look for an old dinosaur bone.'

'Here's one!' said Khulood. She picked up a golden bone that was hidden under a stone.

Suddenly they heard a noise behind them. The ground began to shake. They heard a dinosaur roar.

Khulood and the girl hid behind a huge stone.

'Look!' shouted Khulood.

There was the same icon that she saw on her computer.

Khulood touched the icon. POOM!

Khulood was at home, sitting at her computer. She looked at the game.

'Bye, bye, dinosaur,' she said. 'Hmmm. Maybe I'll play a different game. That was very scary!'

Track 63

Some dinosaurs ate only meat. They were called carnivores. Carnivores usually had long legs so they could run quickly and catch their food. They also had big mouths and sharp teeth. Carnivores ate lizards, turtles and eggs.

Most dinosaurs ate plants and were called herbivores. Herbivores didn't have sharp teeth. Herbivores ate leaves and small sticks from plants and trees. Some herbivores had long necks to reach the top of tall trees, and others ate plants on the ground.

Matar: Uncle Aziz, you've forgotten one plate, one cup, one napkin, one knife and two spoons.

Uncle Aziz: Oh dear. I'll get them right away.

Matar: Thank you, Uncle Aziz. Ebrahim is missing a knife. Please give it to him.

Uncle Aziz: Here you are, Ebrahim.

Ebrahim: Thank you.

Uncle Aziz: That's OK.

Matar: Khalid is missing a napkin. Please give it to him.

Uncle Aziz: Here is your napkin, Khalid.

Khalid: Thank you very much.

Matar: Jamal and Ghalib are each missing a spoon. Please give the spoons to them.

Uncle Aziz: Here you are, Jamal and Ghalib.

Jamal and Ghalib: No problem. Thank you.

Matar: Tariq is missing a cup. Please give it to him.

Uncle Aziz: Here is your cup, Tariq.

Tariq: Thank you very much.

Matar: And I am missing a plate. Please give it to me.

Uncle Aziz: Here you are, Matar. Would you like anything else?

Matar: Yes, please. We would like lunch! Is it nearly ready?

Track 66**A special delivery**

In ancient times, a rich man lived in Cairo. One day, he said, 'I want to eat some of my favourite cherries.' The rich man didn't want cherries from Cairo. He wanted cherries from Antioch.

So the rich man wrote a message on a small piece of paper. He gave the message to his servant, who ran out of the house. 'Use the fastest pigeon in Cairo!' shouted the rich man.

That afternoon, one pigeon flew to Antioch. A servant caught the pigeon in his hands, read the message and made a plan. He told a cherry farmer to put 1,200 cherries into 1,200 tiny bags.

Three days later, 600 pigeons arrived at the rich man's house in Cairo. Each pigeon had two cherries in two bags. The rich man ate the cherries. He was very happy!

Girl: Hi Jasmine.

Jasmine: Hi! Do you want to play a game?

Girl: Sure!

Jasmine: I'm thinking of a black-and-white animal. Can you guess which animal it is?

Girl: Does it have big black spots?

Jasmine: No, it doesn't.

Girl: Does it have a white stripe?

Jasmine: Um, well ... It has lots of black and white stripes.

Girl: Oh, I know which animal it is!

Mum: Saif, could you help me lay the table, please.

Saif: Of course, mum. What can I do?

Mum: Please put the plate between the fork and the knife.

Saif: OK, the fork is on the left, the knife is on the right and the plate is between the fork and the knife.

Mum: Yes, thanks. That's perfect!

Saif: Where shall I put the napkin?

Mum: Put the napkin under the fork, please.

Saif: Like this?

Mum: Yes, that's right. The fork is on the napkin. Thanks so much.

Saif: That's OK.

Track 68

People in my class have done lots of different things. Mansoor has climbed a mountain. But it wasn't a very big mountain. Theyab has climbed a big mountain in Europe with his father.

Adel and Jassim have visited another country. They both went to England last year! Humaid has visited Egypt! And Ibrahim has visited Brazil! Amazing!

I have stayed awake until midnight. It was my birthday! So have Eissa and Yassir.

But no one has touched an elephant!

Have you ever touched an elephant?

Track 69

Have you ever slept outside on a hot summer night?

Everything looks different
in the moon's strange light.

The trees seem to whisper
as you bravely whisper back.

Outside at night.

Have you ever done that?

I've never slept outside on a hot summer night
but I've ridden in a boat
being tossed like a kite
on dark wild waves
with the wind at my back.

On a boat in a storm.

Have you ever done that?

Track 70

A fair solution

One day, a poor man walked by a fine, expensive restaurant. He smelled the delicious food. The man was hungry and tired. He sat down outside the restaurant and took out a piece of dry bread. 'If I smell these wonderful smells while I eat my bread, I can pretend I'm eating a lovely meal,' he thought.

The man closed his eyes and imagined a delicious meal.

The rich restaurant owner came outside and shouted at the poor man, 'Stop! You're enjoying the smell of my food. You must pay me for that.'

'But I haven't eaten any of your food,' said the poor man.

'The smells are mine! They come from my delicious food. Pay me the money!' demanded the rich man.

'No,' said the poor man. 'That's not fair.'

'Then we will go to the judge,' said the rich man. 'He will make you pay.'

Track 71

The judge of the town was Nasreddin. Nasreddin was clever and wise. He listened to the problem and thought for a minute.

'You must pay for the smell of the food,' Nasreddin said to the poor man. 'Please give me your money.'

The poor man gave Nasreddin a small bag of coins.

'This is all I have,' he said in a sad voice.

Nasreddin took the bag of money and held it next to the rich man's ear. He shook it so the coins jingled. 'Can you hear the sound of this money?' Nasreddin asked.

The rich man nodded.

'Good,' said Nasreddin. 'That is your payment. This poor man enjoyed the smell of your food. Now you have enjoyed the sound of his money. That is a fair solution.'

Nasreddin handed the bag back to the poor man. 'You are free to go,' he said. 'The problem has been solved.'

'Thank you,' said the poor man.

'You're welcome,' said Nasreddin.

Track 72

Girl 1: Hello. I'm Nouf. I saw a camel last week. Have I ever ridden a camel? No!

Girl 2: My name is Azza. This is a picture of me with my mother. We visited Cairo last year.

Girl 3: Hello. I'm Eman. Have I ever eaten a pizza? Oh yes! Pizza is my favourite food.

Girl 4: Hi. I am Hind. I've seen a camel, but I've never seen a snake.

Girl 5: Hello. My name is Maha. Have I ever heard an elephant? Yes, I have. I heard a baby elephant at the zoo. It was loud!

UNIT 8

Track 73

Brilliant bones and marvellous muscles

Our bones give our body its shape. Put your hand on your back. Feel your backbone. Your backbone helps you stand up and move.

Inside your head is your skull. Feel your skull.

Now put your hands on your ribs.

Your rib bones protect your heart and lungs.

What other bones can you feel in your body?

Muscles touch our bones. Muscles move our arms and legs when we run, jump, climb and lift things. Make a fist and feel the muscle in your upper arm. Smile and feel the muscles in your face. What other muscles can you feel?

Track 74

How can we stay healthy?

To keep your body healthy and strong, you need healthy food to eat and clean water to drink. You need plenty of exercise and plenty of sleep. You need to keep clean.

Healthy food

We need food to make our muscles strong – foods like eggs, beans, fish, meat, milk and cheese. Fruit and vegetables are also important.

Exercise

Exercise makes strong bones and muscles. There are many ways to exercise, for example: walking, running, climbing stairs and playing ball games.

Sleep

Your bones grow while you sleep. Your brain and body need to rest. Children need to sleep for about ten hours each night.

Track 75

The horse rider *by Jennifer Law*

He gets up at sun rise and saddles his horse

Eats a dish of shakshuka

Then goes off to the course.

The horses and men line up in a line

Hooves hit the earth

Then someone shouts 'time'!

He holds the reins tight with both of his hands

Takes a deep breath

Then rides over the sands.

A long time he must ride in the sun and the heat
Stay strong in the saddle
Never losing his seat.

He watches the sun with far seeing eyes

Counting the kilometres

He thinks of the prize.

Then on the fifth day as his strength disappears

He crosses the line

And everyone cheers.

Track 76

The most important muscle in your body is the heart. It moves blood around your body. Your lungs are also very important. When you breathe in, they fill with air, like a balloon.

You need to exercise and eat healthy food to keep your heart and lungs healthy. When you exercise, your heart beats faster. Sport helps your heart and lungs stay strong.

Track 77

1 Playing football is exciting and fun!

2 Walking makes your heart beat more quickly.

3 People do karate in many different countries.

4 Doing karate is difficult. You will find it difficult, too.

5 I love going for walks. It's the best exercise.

6 Lots of people play football. It's good for your lungs and your muscles.

Track 78

What am I?

Every minute, every day,

Asleep, awake, I pump away.

I make a bright red river flow

From the top of your head to the tip of your toe.

Thump, thump, beat, beat, all day long,

Exercise and sleep will keep me strong.

What am I?

An elephant has bigger bones than a mouse.

Text 2

A baby human has 270 bones when it is born. The bones are soft but as the baby grows, the bones join together and become hard. An adult has 206 bones.

Text 3

A shark loses teeth all the time. New teeth grow quickly. A shark can have about 20 000 teeth during its life.

Adult humans have 32 teeth and some whales have no teeth.

Text 4

Toenails grow 2.5 cm in two years but fingernails grow 2.5 cm in eight months. Nails grow faster in summer than winter and your middle fingernail grows the fastest of all.

Text 5

There are more than 60 muscles in your face. You use 40 muscles to frown and 18 to smile.

Track 80

The human body has muscles and bones. Your backbone is long and straight and runs down your back. It has 33 bones altogether. Your brain is like a big muscle in your head and gets stronger as you learn new things. Your ribs are bones that protect your heart and lungs. Your wrists join your hands and your arms, and your knees join the top and bottom of your legs..

Aisha: Hi! My name is Aisha and this is my friend, Mahra. So, Mahra, what's your favourite sound?

Mahra: My favourite sound is the sound of the wind in the trees. It makes me feel very calm ... very ... peaceful.

Aisha: Yes, I love the sound of the wind as well. What is your favourite taste?

Mahra: Oh that is easy! My mum makes raaq bread every morning and the taste is delicious.

Aisha: Do you eat this bread, raaq, by itself?

Mahra: Sometimes, but you can eat it with cheese, syrup or eggs, which is also yummy!

Aisha: That sounds delicious! OK, my last question ... What is your favourite smell?

Mahra: That's quite hard as I like a lot of smells ... let me think ... erm ... I love the smell of the sea ... I go to the beach with my family and it smells so fresh. It relaxes me and I feel healthy when I can smell the sea and walk on the beach!

Aisha: Can I come with you the next time you go to the beach?

Mahra: Sure! It'll be fun!

Reporter: I'm going to talk to two children from two schools which are different sizes.

Hi, Rashid – can you tell me about your school?

Rashid: Hi. Yes, I live in a small village in the countryside. My school isn't very big: there are only 41 children there, and we have two teachers and two classrooms.

Reporter: What do you like about it?

Rashid: Umm, I like it because it's really friendly. There are older children and younger children all together in the same classroom, so the older ones can help the younger ones. At my school, everyone knows everyone else!

Reporter: Is there anything you don't like?

Rashid: Well, the only problem is that the playground is tiny: there's not much space to play football.

Reporter: Thanks, Rashid.

Reporter: Now I'm going to talk to Tariq. Can you tell me about your school, please?

Tariq: Hello, I'm Tariq. I go to a very big school in the town where I live. There are more than 800 children at my school, so you can choose lots of different children to make friends with.

Reporter: What else is good about it?

Tariq: Well, we've got an enormous playground so there's lots of space to run around. And we've got things like a swimming pool, a football pitch, and a really big hall. Small schools don't have things like that.

Reporter: Is there anything you don't like?

Tariq: Err – only that it can be very noisy sometimes, when we're all having our lunch at the same time. And when children start school, when they're only five years old, a big school can be quite scary.

Reporter: Thanks for giving me your opinions, Rashid and Tariq.

Track 84

Rashid: I'm watching a film on our big TV. I like watching films with my family on a big screen. My grandma can't hear very well, so we put on the subtitles so she can read the words. You can't see subtitles on a little screen. I like watching films with my friends too. We can watch and eat popcorn at the same time!

Tariq: I'm watching a film on my phone. I love watching films on a small screen because I can watch them by

myself. I can watch the film that I like best. If you have a small screen, you can take it with you and watch films in the car, in your bedroom, anywhere! You can't do that with a big screen.

Robots that explore.

Robots can go to places where it is hard for people to go. They can take photos, they can measure things or they can collect things for scientists to study.

Robots with wheels have been to the moon and the planet Mars. Some robots have gone into the ocean to look at plants and animals that live there. They have looked for old ships on the ocean floor.

Robots can go into dangerous places, like burning buildings or buildings that have fallen down. They search for people to help. Some of these robots look like snakes. Others look like spiders. Each robot has a light and a camera, so it can send information to the people outside.

Scientists are now building tiny flying robots, the size of a bee. These 'Robobees' are designed to go to small spaces where bigger robots can't go.

Track 86

Adeeb al Baloushi is a twelve-year-old inventor from Dubai. He started inventing when he was nine.

First he helped his father with a new kind of artificial leg. Then he decided to help his mother. It was hard for her to reach under the sofa to clean.

Adeeb built a robot to do the job. It took him just one day. The robot is very small so it can go to places that are hard for a person to reach. It has a brush, a motor and batteries.

When Adeeb's mother went into the living room, she was surprised that Adeeb was sitting on the sofa. She looked under the sofa and it was clean. Adeeb showed her the robot. Now no one had to clean the floor, because the robot could do it for them.

Adeeb is a member of the Arab Robotics Association. Adeeb is still inventing. He hopes he will make many other new things that will help people.

Adult: Listen to the Secret Number clues. Can you work out the secret number?

Girl 1: I am thinking of a secret number. It is between 1 and 100.

Girl 2: Is it more than 40?

Girl 1: Yes, it is.

Girl 2: Is it less than 60?

Girl 1: Yes, it is.

Girl 2: Is it more than 50?

Girl 1: No, it isn't.

Girl 2: Is it less than 45?

Girl 1: Yes, it is.

Girl 2: Is it less than 42?

Girl 1: Yes, it is.

Girl 2: I know what your secret number is!

Adult: Do you know what the secret number is?

A Tall Tale – Part 1

Paul Bunyan was the biggest baby ever born. He was a good baby but he was always very hungry. When Paul was hungry, he cried so loudly that the house used to shake and the windows used to break. The frogs in the pond started wearing earplugs!

For breakfast every day, Paul Bunyan's mum and dad fed him 12 eggs, a loaf of bread, 10 bananas and 24 pancakes with lots of syrup. Pancakes were Paul's favourite food.

Paul grew bigger and bigger. He grew two centimetres every day. By the time Paul was seven, he was taller than the tallest home in his village.

Paul went to school, but he was too big to fit inside. He had to lie outside on the grass and watch through the window. After school, the children used to come and play with Paul. But sometimes he felt lonely.

'What's the matter?' Paul's mum asked.

'I wish I had a friend who was my size,' Paul said to his mum.

One winter, there was a huge snowstorm. Paul heard something crying outside. He went out in the storm to see who was there. He dug through the snow and found a baby ox – a very big baby ox, just the right size to be Paul's friend. 'Hello!' exclaimed Paul. The ox was so cold that it had turned blue. Paul brought the ox inside. He called the ox Babe.

Paul and Babe the Blue Ox became best friends. They loved wrestling together. At night, Paul used to read bedtime stories to Babe.

Track 89

Speaker: A Tall Tale – Part 2

On his 18th birthday, Paul's parents gave him a huge axe for cutting down trees. Paul loved his axe. He could cut down a tree with one chop of his axe. 'I'm going to be a logger,' said Paul.

Paul and Babe, the Blue Ox, set out for the big forests. They met a group of strong men and together they became a team of loggers. The men cut down trees with their axes and Babe dragged the logs to a long curvy river. The logs floated down the river to the town to be sold.

Paul and the loggers worked so fast that the river filled with logs. The logs got stuck in the curves of the river. Paul tied Babe to the end of the river. Babe pulled and pulled until the river was straight. The logs became unstuck and floated quickly to the town.

Interviewer: In today's episode of 'Global children' we're going to speak to Salama from The United Arab Emirates.

Interviewer: Hi Salama! Tell us about your family and where you are from.

Girl: Hello, I'm from Dubai. I live with my mum, my dad, my grandpa and my grandma. I have a big bedroom and sometimes my mum tells me off for not tidying my room.

Interviewer: What time do you go to school?

Girl: I go to school at 7.30 am and I finish at 2.00 pm.

Interviewer: What do you do in the evenings?

Girl: After school I go to my extra-curricular painting class. I am like my dad because he paints too. I'm not as good as he is, but I paint quite well. When I grow up I'd like to be a painter.

Interviewer: Do you enjoy living with your grandma and grandpa?

Girl: Yes, I love it! Grandma looks after me when I get home from school because my parents are working. She shows me how to make dolls from bits of wood and old pieces of cloth. Grandpa and I both like playing chess. Mum loves doing exercise but I prefer to paint.

Interviewer: Well, thank you, Salama, for telling us about your family and your daily life.

Track 91

Girl: Muna is 12 years old and lives with her parents, her sister, her brother and her grandparents near Fujairah, in the UAE. Her house is small and very old.

She always wakes up early for morning prayers. She washes her face and hands. After prayers, she changes into her school uniform. She has something to eat for breakfast, usually chebab or khameers, but her favourite food is harees.

She catches the bus to school, which is about half an hour away. Muna starts school at 8 am. There are 26 students in her class.

Muna's favourite subject is Science. When she is older, she wants to be a scientist and discover new things to help people.

Track 92

Woman: At the age of nine, Omar Abdulrahman started playing football. He started playing football at home as he grew up in a family of footballers. First, he played for Al Hilal, a Saudi team, in 2000 and then he played for Al Ain football club in 2007. He was 15 years old. Lots of football clubs wanted Omar to play for them, but he

wanted to live close to his family in the UAE. He plays for the Emirati International team.

He hurt his leg in 2009 and couldn't play football for six months. Then, in 2011, he hurt his leg again.

He is a very good football player and has won many awards, including Emirati player of the year in 2013. He played football in the 2012 Olympics.

When Omar moved to Saudi Arabia, all of his family went with him too. His father has always helped him and Omar thinks he is a good football player because his family love and say prayers for him.

Track 93

Boy: Let me tell you about my family. We are all sports mad! I love playing football and I sometimes go with my father and brother to watch football matches. My favourite team is Al Ain F.C.

Both my sisters go horse-riding every weekend and my mum plays tennis with her sister on Tuesdays and Thursdays.

I also do judo and have a yellow belt at the moment, but some day I want to have a black belt.

My grandfather doesn't play sport any more, but he used to go running and swimming a lot. Now, he goes for long walks with my grandmother to stay healthy.

Track 94

Girl: Hi Khulood!

Got here on Wednesday and having a fab time! My brothers love swimming in the hotel pool!

Yesterday Mum, Dad and I went to the Sheikh Zayed Mosque – it's so beautiful!

In the evening, we had a camel ride (yikes!) and dinner in the desert, it was really yummy! I like eating the local food and want to learn how to cook it!

I hope to see the Emirates Palace before we leave on Sunday!

Say hello to Midiya for me!

Wish you were here!

Boy: Hello! My name is Essa and I'm 10 years old. I live with my parents and my twin brother, Faisal. We live in a city called Salt, which is in Jordan. My mother usually wakes me up at 5.00 am and I wash my face, I get dressed and eat breakfast. My mother drinks coffee but I never drink it. It tastes funny!

I always walk to school, which starts at 7.00 am and we have lessons in Maths, Arabic, Islamic education, Science, French, Art history and Geography. My favourite subject is Geography because I like to learn about other countries. Morning classes finish at twelve and my school closes from twelve to 2.00 pm. During this time, I often go home to eat lunch.

Afternoon classes end at 5.00 pm, and I go home. When I get home, I like to watch television. Sometimes, I play on our PlayStation. My favourite game is football. I start my homework at 7.00 pm and have dinner with my family at 8.00 pm. It's bedtime at 9 o'clock. Good night!

Speaker: Helping others

There was an old man who was very poor. He carried a small bag on his back and had a long stick and walked a very long way, looking for his son.

Two men came on a horse and cart. Their names were Tariq and Fares and they were going to the market to sell corn. They asked if the old man wanted a ride because he looked very tired and hungry.

The old man was very happy and Tariq helped him climb into the cart. Tariq smiled at the old man and asked him if he wanted something to eat. Fares didn't want to give the old man their food and he was angry and unhappy when Tariq gave their bread and cheese to him.

The old man was very thankful to Tariq because he was very hungry. Next, Tariq offered him some water and the old man drank it quickly. Fares said sorry for not wanting to share the bread and cheese.

They arrived at the busy market. They heard a voice shouting 'Father! Father!' It was the old man's son. They were very happy to see each other again. The old man was very happy because Tariq helped him and was kind. He looked in his bag and pulled out a small seed.

He gave the seed to Tariq and Fares and they planted it in their garden to grow. The seed grew into a date palm tree and many years later, Tariq and Fares would sit under the tree and remember the old man.

Track 98

Girl: I always help my family with household chores because it is important to help each other. If my mother is the only one cleaning, then it will take a very long time, so all my family helps to do it, and it takes a short time.

I always help my mum make the beds and dry the dishes. My younger sister mops the floor and tidies the living room. There is always a lot of laundry to do as we have a big family, but my grandmother always does this. She says she loves doing laundry because everything smells fresh and clean!

UNIT 11

Track 99

The UAE has the tallest skyscraper in the world. It is called the Burj Khalifa, which is in Dubai. It is nearly 830 metres tall and has 163 floors!

Dubai has over 196 high-rise buildings. If a fire starts in a tall building, it is very difficult to put it out.

Helicopters can fly up high and throw water on the flames, but this can take a long time. It is very dangerous and firefighters must be very brave.

Firefighters in Dubai will soon have flying jetpacks so they can fly up to the high skyscrapers and fight the fires.

It can be very windy at the top of skyscrapers and the wind makes the fire bigger and stronger. The jetpack firefighters will be able to reach the higher floors more easily and more quickly. Firefighters are people who do amazing things to help other people.

Boy 2: Hi Khalaf! Yes, I'm a new student and my name is Jobran. Nice to meet you.

Boy 1: Nice to meet you too. I can show you where our classroom is and where you can get a glass of water. Let's go!

Boy 2: Thank you very much. You're very friendly and kind.

Boy 1: Thank you. You're very polite!

Conversation 2

Girl 1: Ah! Oh no! There is a big spider on my chair! Ahhhhh!

Girl 2: Don't worry, Mariam. I'll pick it up and put it outside in the garden.

Girl 1: I'm so scared of spiders!!

Girl 2: It won't hurt you. There we go. The spider is happier outside.

Girl 1: You are very brave! I could never pick up a spider. Thank you for being helpful.

Girl 2: You're very welcome.

There are lots of ways that you can help at school. You might tell your friends when they have written good sentences in class or spoken a lot in English. You may help your friend when they are not sure how to spell a word. You might ask your friend for help when you are not sure.

It is important that you do what your teacher asks you and are kind to everyone. Ask your teacher if you may help to clean the board, tidy the classroom or give out dictionaries. You may ask your friends if they need help.

When you are learning English, be polite and say 'Please' and 'thank you'. You may share your coloured

pencils and scissors with your friends. There are lots of ways to help your friends at school.

Track 102

Matar and Farah were very excited because their grandfather was coming to visit. Matar and Farah were twins and they had two older brothers, Sanad and Naser. They also had three sisters called Aisha, Maryam and Hessa.

Their grandfather always told them stories about when he was a Bedouin child and lived in the Rub' al Khali desert. Everyone was very happy when their grandfather arrived. He brought two falcons in cages. The twins thought they were very beautiful birds.

'Why did you bring your falcons with you, Grandfather?' they asked.

'They go everywhere with me. I remember my life when I was a child when I have my falcons with me,' said their grandfather.

'Tell us a story, please!' the twins said.

Their grandfather sat down and asked for a glass of mint tea. He told them that life was very different when he was a child. He didn't have a computer or a phone, but he had a very happy life. He had two falcons that he loved very much and went hunting with his father.

Grandfather's mother and sisters would build a fire and cook food. They served camel milk and dates, and cooked bread. It was very hard work, but everyone worked together as a team. Sometimes they ate delicious mishwy and margooga.

'Did you feel hungry, Grandfather?'

'No! We always had something to eat, and we drank mint tea, just like this!' said their grandfather as he drank from his glass.

Everyone laughed and drank some more mint tea, just like their grandfather.

Track 103

Ramadan is the ninth month in the lunar year and is the Holy Month. Almost 1.6 billion people will fast in Ramadan. It lasts for thirty days and the date it begins changes every year. From sunrise to sunset, adults mustn't drink any water or eat any food. This is called fasting. Young people and people who are ill do not fast.

People must be kind and helpful to everyone and pray Traweeh every day. They read the Quran and think about how to be a good person.

During Ramadan, you must think about how lucky you are to have a house, food and water because many people do not have these things. You must think about poor people in your community and help them have a better life. You mustn't feel angry or use bad words.

Track 104

My school volunteered to clean up Hameem Beach in Al Dhafra. I really liked it and learned a lot about the environment.

I want to tell other people to stop polluting the sea and the deserts and protect our beautiful country. We must protect the Emirati environment.

My family loves going to the beach, having a barbecue and watching flamingos, but we never leave rubbish that will kill animals. My teacher told me that when plastic bags fall into the sea, turtles, dolphins and fish try to eat them and then they die. This made me very sad.

I think it is important that everyone picks up rubbish. I'm looking forward to February 4th, which is National Environment Day in the UAE every year.

Track 105

Text 1

I'm interested in traditional stories about the UAE. My grandmother used to tell me the stories when I was very young but I couldn't read then. Now, I can read, so I love reading old stories about pearl diving and the desert.

Text 2

I like going online to read about different animals and facts about what they eat and where they live. I try to read the facts in English and I watch videos to help me understand what I read. My English is getting a lot better! It was difficult at first because there were a lot of words that I didn't know, but the more I read, the more I know!

Text 3

I enjoy reading historical books. I don't like reading about science or technology. I like learning about the lives of people from the past and thinking about how life is now.

Text 4

I really like reading apps because they are very quick and easy to use. I can read a lot of different things and don't have to carry lots of heavy books in my bag!

I'm not interested in comics. They are boring and have a lot of pictures.

Track 106

John: Hi Peter! How are you? I didn't see you at school last week. Were you ill?

Peter: Hello, John. I'm very well, thank you, and no, I wasn't ill. I visited my family in New York. My grandparents live there and that is where I was born.

John: So how long have you lived in England, Peter?

Peter: Let me see ... My parents moved to England when I was three years old, so I have lived in England for seven years. How long have you lived in England, John?

John: I've lived in England for eight years.

In the United Arab Emirates the weather is hot and dry. But in the Hajar mountains, the land is higher and the air is colder than in the sand dunes. Many people know Jabal Jais. It is 1,900 metres high. Jabal Jais is higher than Jabal Hafit. But Jabal Hafit is more popular than Jabal Jais.

Norway is a country near the Arctic. In Norway, the mountains are colder and snowier than in the United Arab Emirates. Some mountains follow deep water paths called fjords. Fjords are very beautiful and very popular with tourists. At Sognefjord, the mountains are 1,700 metres high, and the water is 1,300 metres deep!

The mangrove is an amazing tree that grows in salt water. Did you know there is a mangrove forest near Abu Dhabi? For animals and birds, the mangrove forests are cooler and safer than the desert.

Did you know that you can see rainforests in Norway? Rainforests are more humid than mangrove forests. The trees are taller and the weather is wetter. It rains for around 230 days every year! These forests are very green and very old.

The Norwegian people work hard to protect their rainforests. The Emirati people work hard to protect their mangrove forests. Which do you think is more beautiful?

Track 108

Hello. I'm Alexa and I live in Tromsø in the north of Norway. In the summer months, there is no sunrise and no sunset here. The people of Tromsø can see the sun all day and all night too. That's why it's called the land of the Midnight Sun. In the evening, it can be difficult to fall asleep because it is still light outside. Last night was really cool! We stayed up late and played basketball at 11.00 pm! On Saturday, my dad and grandad are doing a midnight hike!

Track 109

Hello. I'm Rashed and I live in Liwa Oasis. At the weekend, I usually get up at eight o'clock. On Saturdays, I go to football club at half past ten. It's hard work! The club finishes at quarter past eleven and then we all have lunch together. In the afternoon, I play with my brother or do my homework. We can watch television at quarter to five until dinner is ready. I love watching football from the UK.

Name: Desert hedgehog

Habitat: Deserts of Africa and the Middle East

Features: It has a small body, a long pointed nose and large brown spikes on its back. It has sharp claws that it uses to dig tunnels underground, where it is cool during the day.

Night-time habits: This animal is a nocturnal creature. It sleeps during the day. At night, it finds lots of insects to eat. It also loves to eat eggs and scorpions.

Interesting facts: Its spikes are made of the same material as human hair. These spikes are very sharp and protect the hedgehog from other animals. When it is asleep or afraid, it curls into a spiky ball.

Mariam: Yes, it was.
Narrator: 2
Child 1: What was the weather like in the desert?
Mariam: It was amazing. It rained in the desert!
Child 1: What?! I thought it never rained in the desert.
Mariam: It usually doesn't. It's usually very very dry. But on the day we were there, it rained for about 20 minutes.
Child 1: That was strange! Did you take a photo?
Mariam: Yes, I did. Here it is.

UNIT 4

Track 7

Narrator: I have two enormous eyes to see my prey
My face is shaped like a heart
I have a beak instead of a nose
I swoop on a mouse like a dart

I am a master of clever disguise
My feathers can camouflage me
You may not even be aware I'm there
I can blend in with the bark of a tree

My family of owlets stay with me
We stay near our roost in the spring
Our chatter is special, we hoot twit twooo
But you won't ever hear us sing!

UNIT 5

Track 8

Narrator:

1 You have to put rubbish in the bin.

2 You have to stop.
3 You have to wash your shoes.
4 You have to wash your hands.
5 You have to raise your hand.

Track 9

Narrator: 1

Woman 1: Hi Fatima. You are working hard.

Woman 2: Yes, I am.

Woman 1: That's a beautiful painting.

Woman 2: Thanks. I have to finish it by teatime.

Narrator: 2

Woman: We have to walk to the check-in desk now.

Man: Shall I carry that suitcase for you?

Woman: No thanks, I'm OK. It has wheels so I can pull it along. It's much easier.

Man: OK, I'll take the tickets.

Woman: I wonder who invented the suitcase on wheels?

Narrator: 3

Friend: You look very busy.

Mariam: Yes, I am. I have a lot to do.

Friend: What do you have to do?

Mariam: Lots of things. First, I have to tidy my room. Then I have to do my homework. Then I have to lay the table for dinner.

Track 10

Narrator: 2

What do you have to take to school? Draw it in the backpack.

UNIT 6

Track 11

1. Draw a big potato shape.
2. Draw a neck and a tail on the body.
3. Draw two legs at the front of the body.
4. Draw two legs at the back of the body.
5. Draw a head, an eye and a smile.
6. What colour do you think this dinosaur was? It was dark green, but you can colour it any colour you like.
7. Draw some plants and trees in your picture.
8. You can finish your picture by colouring the plants and trees.

Track 12

1. In 2000, people in China found a dinosaur that climbed trees.
2. In 2006, people in Argentina found a huge dinosaur that was 35 to 40 metres long.

3. In 2012, there was a South African dinosaur found that was the size of a cat. It had a beak like a parrot and very big teeth.
4. In 2015, a strange dinosaur was found in Oman. It had a duck's mouth and a wing shape on its head.

Track 13

1

Dana: Hi, Azza!

Azza: Hi, Dana.

Dana: Let's play a guessing game.

Azza: OK.

Dana: I'm thinking of one of these dinosaurs. Guess which one.

Azza: Did the dinosaur have two short arms?

Dana: Yes, it did.

Azza: Did the dinosaur have two long back legs?

Dana: Yes, it did.

Azza: OK, so the dinosaur had two short arms and two long back legs. I think I know which dinosaur it is!

2

Child: How can you tell a meat-eating dinosaur from a plant-eating dinosaur?

Adult: Well, meat-eating dinosaurs could run quickly. They had to run quickly so they could catch their food. All meat-eating dinosaurs could run on two legs.

Child: Were all meat-eating dinosaurs really big?

Adult: No, some meat-eating dinosaurs were big and others were small.

Child: What else makes meat-eating dinosaurs special?

Adult: Their teeth. Meat-eating dinosaurs had long sharp teeth.

Child: That's scary!

Adult: Yes, meat-eating dinosaurs looked quite scary.

3

Child: Hello, Mrs Al Alim. Can you please tell me about your work?

Woman: Of course. I'm a scientist and I study dinosaurs.

Child: Oh, do you look at lots of dinosaur bones?

Woman: No, I don't study dinosaur bones. I study dinosaur footprints.

Child: Dinosaur footprints! What can you learn from their footprints?

Woman: Oh lots of things. For example, you can tell if the dinosaur was walking alone or in a group. This dinosaur was walking alone.

Child: Wow! That's very interesting! Thank you for talking to me, Mrs Al Alim.

Woman: You're very welcome.

4

Adult: Hi Bushra. Tell me about your picture.

Bushra: It's a picture of a dinosaur. It is a little meat-eating dinosaur with sharp teeth and big claws.

Adult: It looks as though your dinosaur has got feathers!

Bushra: Yes, it has feathers. Lots of dinosaurs had feathers.

Adult: Hmm. A dinosaur with feathers looks a little like a chicken.

Bushra: That's right. Scientists think that over millions of years, dinosaurs changed and became birds. So a chicken is really a living dinosaur.

Adult: That's amazing. I really like your dinosaur with feathers.

Bushra: Thank you.

UNIT 7

Track 14

1. In ancient times, camel caravans travelled for very long distances.
2. Messenger pigeons didn't travel for very long distances.
3. The pigeons always flew to their home.
4. Thieves didn't catch the pigeons because the birds flew away.
5. People liked the pigeon messengers because the birds worked hard.
6. In big cities, thousands of pigeons lived in special pigeon houses.

Track 15

1. I've seen
2. I've done
3. I've found
4. I've taken
5. I've written

UNIT 8

Track 16

1

Teacher: This week in school, we are learning how to stay healthy and strong. Hamad, what are you doing to stay healthy and strong?

Hamad: I'm eating lots of vegetables.

Teacher: What kind of vegetables are you eating?

Hamad: I'm eating beans and tomatoes and carrots.

Teacher: Good for you! That sounds healthy and delicious.

2

Teacher: Hello, class. Yesterday, we talked about ways to stay healthy and strong. We talked about eating healthy food and getting plenty of exercise. What is one more thing we need to do in order to stay healthy and strong? Meera, what do you think?

Meera: I don't know.

Teacher: I'll give you a clue. It is something you need to do every night for about ten hours.

Girls: I know! I know!

UNIT 9

Track 17

1

Girl 1: A giraffe is taller than an elephant, but is it also heavier?

Girl 2: No, a giraffe is tall and thin. It only weighs 1000 kilograms.

Girl 1: How much does an elephant weigh?

Girl 2: It weighs 4000 kilograms.

Girl 1: Wow, that's a lot. How about a hippo? A hippo looks very heavy. Is a hippo heavier than an elephant?

Girl 2: No, a hippo weighs a lot, but it's not as heavy as an elephant.

2

Woman: This robot was invented in Japan as a robot to help around the house. It looks like a child in a space suit.

Girl: Does it roll on wheels?

Woman: No, it doesn't. It has two legs. It uses its legs to walk and climb stairs. It can even dance.

Girl: Can it fly as well?

Woman: I don't think so. It doesn't have wings.

3

Boy 1: I'm thinking of a secret number. It's between 1 and 20.

Boy 2: Is it more than 12?

Boy 1: Yes, it is.

Boy 2: Is it less than 16?

Boy 1: No, it isn't.

Boy 2: Is it less than 18?

Boy 1: No, it isn't.

Boy 2: I know what the secret number is! ... Mum, do you know what the secret number is?

Mum: No, I'm afraid I don't. Can you help me?

Boy 2: OK, let's do it again for mum. Listen carefully, Mum. Is it more than 12?

Boy 1: Yes, it is.

Boy 2: Is it less than 16?

Boy 1: No, it isn't.

Boy 2: Is it less than 18?

Boy 1: No, it isn't.

Boy 2: Have you got it this time, Mum?

Mum: Yes, I think I know the secret number now!

Track 20

Conversation 1

Boy 1: Hi Adnan! How are you?

Boy 2: I'm very well, thanks! Do you want to do something today?

Boy 1: Yes, that sounds like fun. Do you like sports?

Boy 2: Yes, I love sports like football, tennis and horse riding.

Boy 1: Do you want to play football at my house? There is a big garden and we can play there with my brothers.

Boy 2: That sounds great! Let's go!

Conversation 2

Girl 1: Hello, Farida! Where are you going?

Girl 2: Oh! Hi Mouza! I'm going to visit my relatives today.

Girl 1: Who are you going to visit?

Girl 2: Well, I'm going with my mum and dad, and we're going to visit my grandfather. He's very old and he's not feeling well, so we are taking him some food.

Girl 1: Oh, I hope he gets better soon!

Girl 2: Yes, I hope so too.

Girl 1: OK, see you later!

Girl 2: See you!

Track 21

Teacher: Hello, Butti! Are you OK? You look unhappy today.

Butti: Hello ... yes, I do feel a little bit unhappy today.

Teacher: Why? What is wrong? Is everything OK?

Butti: Well, my little brother lost his teddy bear and was very unhappy. He asked me to help him find the teddy bear but I was playing on my PlayStation and said 'No'. I was unkind to him.

Teacher: Oh dear! Remember that it is important that you are kind to everyone.

Butti: Then, my mum asked me to clean up my room because it was very untidy.

Teacher: Did you tidy your room?

Butti: No, because I wanted to play on my computer.

Teacher: Oh dear! Remember it is important that you help your mother.

Butti: Yes, you are right! I am going to be kind and help my family. I'm going home now to tell my family I love them and want to help them.

Narrator: So Butti went home and he helped his brother find his teddy bear and tidied his room to help his mother. At dinnertime, he told all his family that he loved them very much and he was sorry for not helping them. Everyone was very happy.

Track 22

Conversation 1

Girl: I love sports, don't you?

Hana: Yes, I do as well.

Girl: Which sports do you like?

Hana: Well, I like tennis, swimming and karate.

Girl: But which one is your favourite sport?

Hana: Oh, that is easy! Swimming is my favourite sport!

Girl: Mine too!

Conversation 2

Girl: Hi Khaltham! Do you want to come to play at my house tomorrow?

Khaltham: I'd love to, but I can't. I have to help my mother with the household chores.

Girl: Oh, that is a shame that you can't come to my house.

Khaltham: Yes it is, but I want to help my mother.

Girl: Will you dust?

Khaltham: No, I won't dust.

Girl: What household chore will you do?

Khaltham: Well, my mother will do the laundry, and I will cook for my family. I have to go now, but see you in school.

Girl: OK, see you later!

Khaltham: Bye!!

Conversation 3

Boy: Hi Ghanim! Are you playing football tomorrow morning?

Ghanim: No, I'm not. I am helping my family.

Boy: How will you help your family?

Ghanim: I'll help my brother with his homework.

Boy: That is very kind of you to help him.

Ghanim: I'm his older brother, so I must help him. Maybe afterwards, I can come and play football with you. I'll give you a call.

Boy: That would be great! Speak to you soon!

Ghanim: Yes, speak to you soon.

UNIT 11

Track 23

He helps people in danger
and when their homes are on fire.

He throws water on fires
and stops the flames getting higher.

Is this Superman? Is this Wolverine?

No, he's a firefighter
brave as brave can be.

Track 24

brave, kind, helpful, friendly, hard-working, polite

Track 25

You do not have to be rich to be a hero or heroine.
Heroes and heroines can be ordinary people who are
friendly, kind and helpful.

You don't have to be rich to help other people. Maybe
you can give your friend a glass of water when they are
thirsty, help your mother if she is ill in bed or you can
help tidy the house.

Do you know the people who live next door to you,
your neighbours? What could you do to help your
neighbours? Think about your family and friends.

What might you do to help them?

Helping others means that you help people that you
don't know as well. If you are polite to everyone,
everyone feels good. If you smile at people, they will
smile at you.

Track 26

When I was young, my parents wanted to cut my hair,
but I was scared because I was three. I sat on a square
chair and stared at the wall. My dad told me to close my
eyes and not to move and I felt the air move in front of
my face as the scissors cut my hair. I wasn't scared any
more! I had a fantastic new haircut!

Track 28

- Well, my friend is always laughing and smiling and a good person to be with. He's never angry or sad, but always friendly.
- It is important that everyone in the classroom is polite, kind and helpful. You might help your friend with spelling if they are not sure.
- I think a lot of people are very kind and helpful, but my heroine is my grandmother. When she was young she was very poor and had to look after all her brothers and sisters, but she worked very hard.

Track 29

There are many ways to help people during Ramadan, and also any other time of the year as well. Last year, my family and I worked with people who needed help. The charity gave water to people working in the streets and gardens of Dubai. It was such a hot day, and the workers were very happy to drink some water.

I am happy in doing charity work and helping others, and now I do something every Friday. I told my friends and they are doing charity work too. It is important to be a good person.

Track 30

- Hi there! My name's Amani and I like doing many things. I'm not very interested in reading books about history or science, but I'm really interested in wildlife.
- I like most books about history and traditional stories, but I'm not interested in comics at all! I think they are silly! I help my younger brothers with their homework. It's great to see them learn!

UNIT 12**Track 31**

Alexa: Hi! On school days I get up at seven o'clock. In the winter, it is still dark when I arrive at school. School begins at nine o'clock. I live close to my school and I walk there with my mother every day. School finishes at quarter past three, and we get home at half past three. We usually eat dinner at five.

Rashed: Hello everyone! I usually get up at half past six. School begins earlier here than in Norway. My school starts at half past seven. School ends at two o'clock, but I usually stay for football practice. I usually get home at three o'clock, then I play for a while. Dinner is at five o'clock. How about you?

Track 32

Mount Fuji is in Japan. It is about 3776 metres high. The temperature is usually between 7°C and

-20°C. Mount Fuji is easy to climb. The Japanese people enjoy climbing to the summit. They call the mountain Mr Fuji.

Track 33

Scary things!!

Things that wiggle
 Like wriggly worms
 Things that squish
 and make me squirm
 That's what I'm afraid of.

Things that go crash
 Things that go bang
 Anything loud
 Like a runaway tram
 That's what I'm afraid of.

Things that creep
 Things that crawl
 Anything that hangs off ceilings and walls
 That's what I'm afraid of.

Things that hiss
 Things that slither
 Anything slimy
 That makes me quiver
 That's what I'm afraid of.

Things that growl
 Things that roar
 Anything with teeth and
 Sharp pointy claws
 That's what I'm afraid of.

Things that are cute
 Things that purr
 Anything I stroke
 That has soft silky fur
 I like those!!!
